## Reading 4 min

***Read with the teacher and then answer the questions below.***

**Siberian** tigers, also called Amur tigers, are the biggest tigers in the world. Siberian tigers are typically found throughout the cold areas in the Russian Far East and northern China.

Siberia

Have you ever been to Siberia?
What animals do you think live there?

# Reading 4 min

***Read with the teacher and then move to the Word Focus.***

Siberian tigers are one of the most **endangered** animals on Earth. **Poachers** prevent their already very small population from increasing. Tigers are often hunted for their skins, which are often used for clothes or decoration.

## Word Focus

- The **poachers** kill the animal and take its skin.
- What do **poachers** use tigers' skins for?

*To be continued...*

## Reading 3 min

***Read with the teacher and then move to the Word Focus.***

It is estimated that only three to four hundred Siberian tigers are left in the wild. In order to protect them from poachers, there needs to be a **reserve** where Siberian tigers can live safely.

### Word Focus

- There are many animals to see at the wildlife **reserve**.
- How does the **reserve** help Siberian tigers?

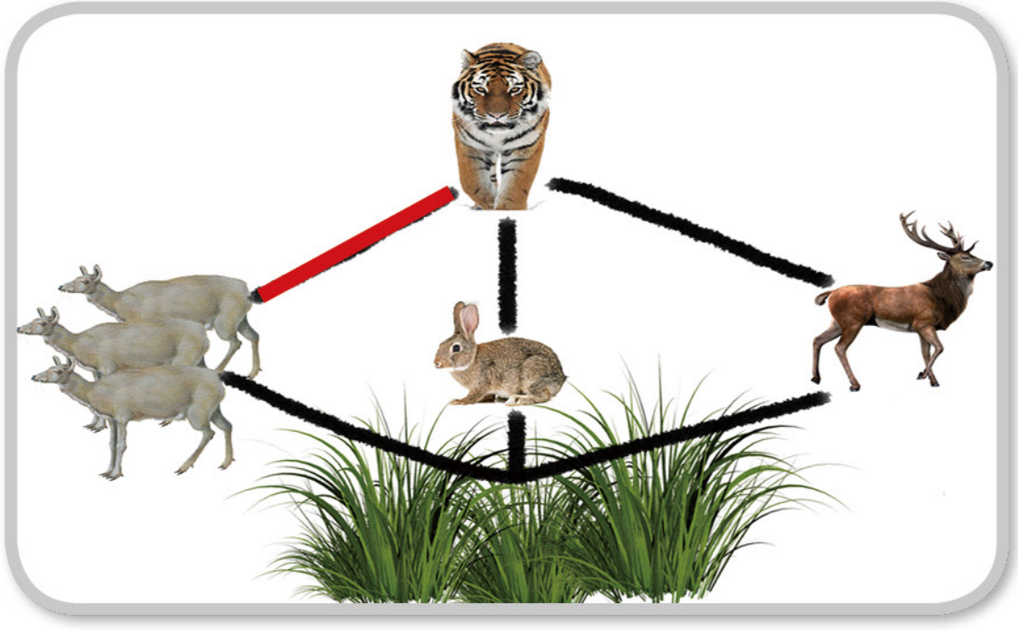
## Reading 3 min

***Read with the teacher and then answer the question below.***

If Siberian tigers become **extinct**, the Siberian deer will **overpopulate** the area and will eat all of the grass. It's important that we protect Siberian tigers.



What will happen if Siberian tigers become extinct?

Let's practice.
