The woman is **transporting** the fruit and vegetables to the market.

trans·port

How do people transport goods from one place to another?

Sentence Pattern

What if they get lost?

1

bus

late

2

Timmy

not pass the exam

Let's talk!

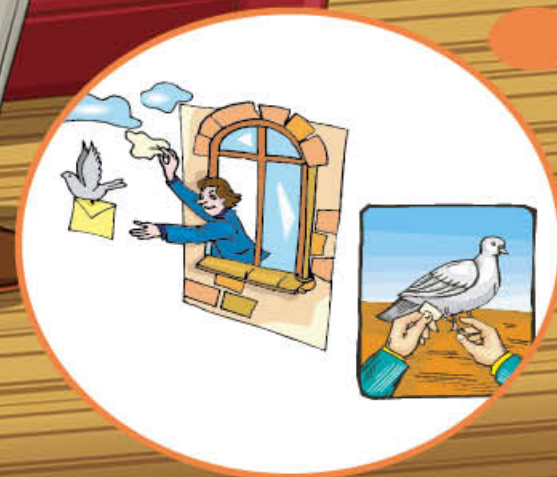

Introduction

Jimmy and Timmy are talking about messenger pigeons.

What are you watching, Jimmy? Why is that man attaching something to the foot of that **pigeon**? What is it?

It's a note. The man wants to send a message to his friend.

Use a pigeon to send a message? That's pretty cool, but it's quicker to just **text** his friend.

Ha! At that time, phones were not invented yet. People used **messenger** pigeons to send important notes.

But how could people trust the pigeons to deliver the messages safely? **What if** they got lost?

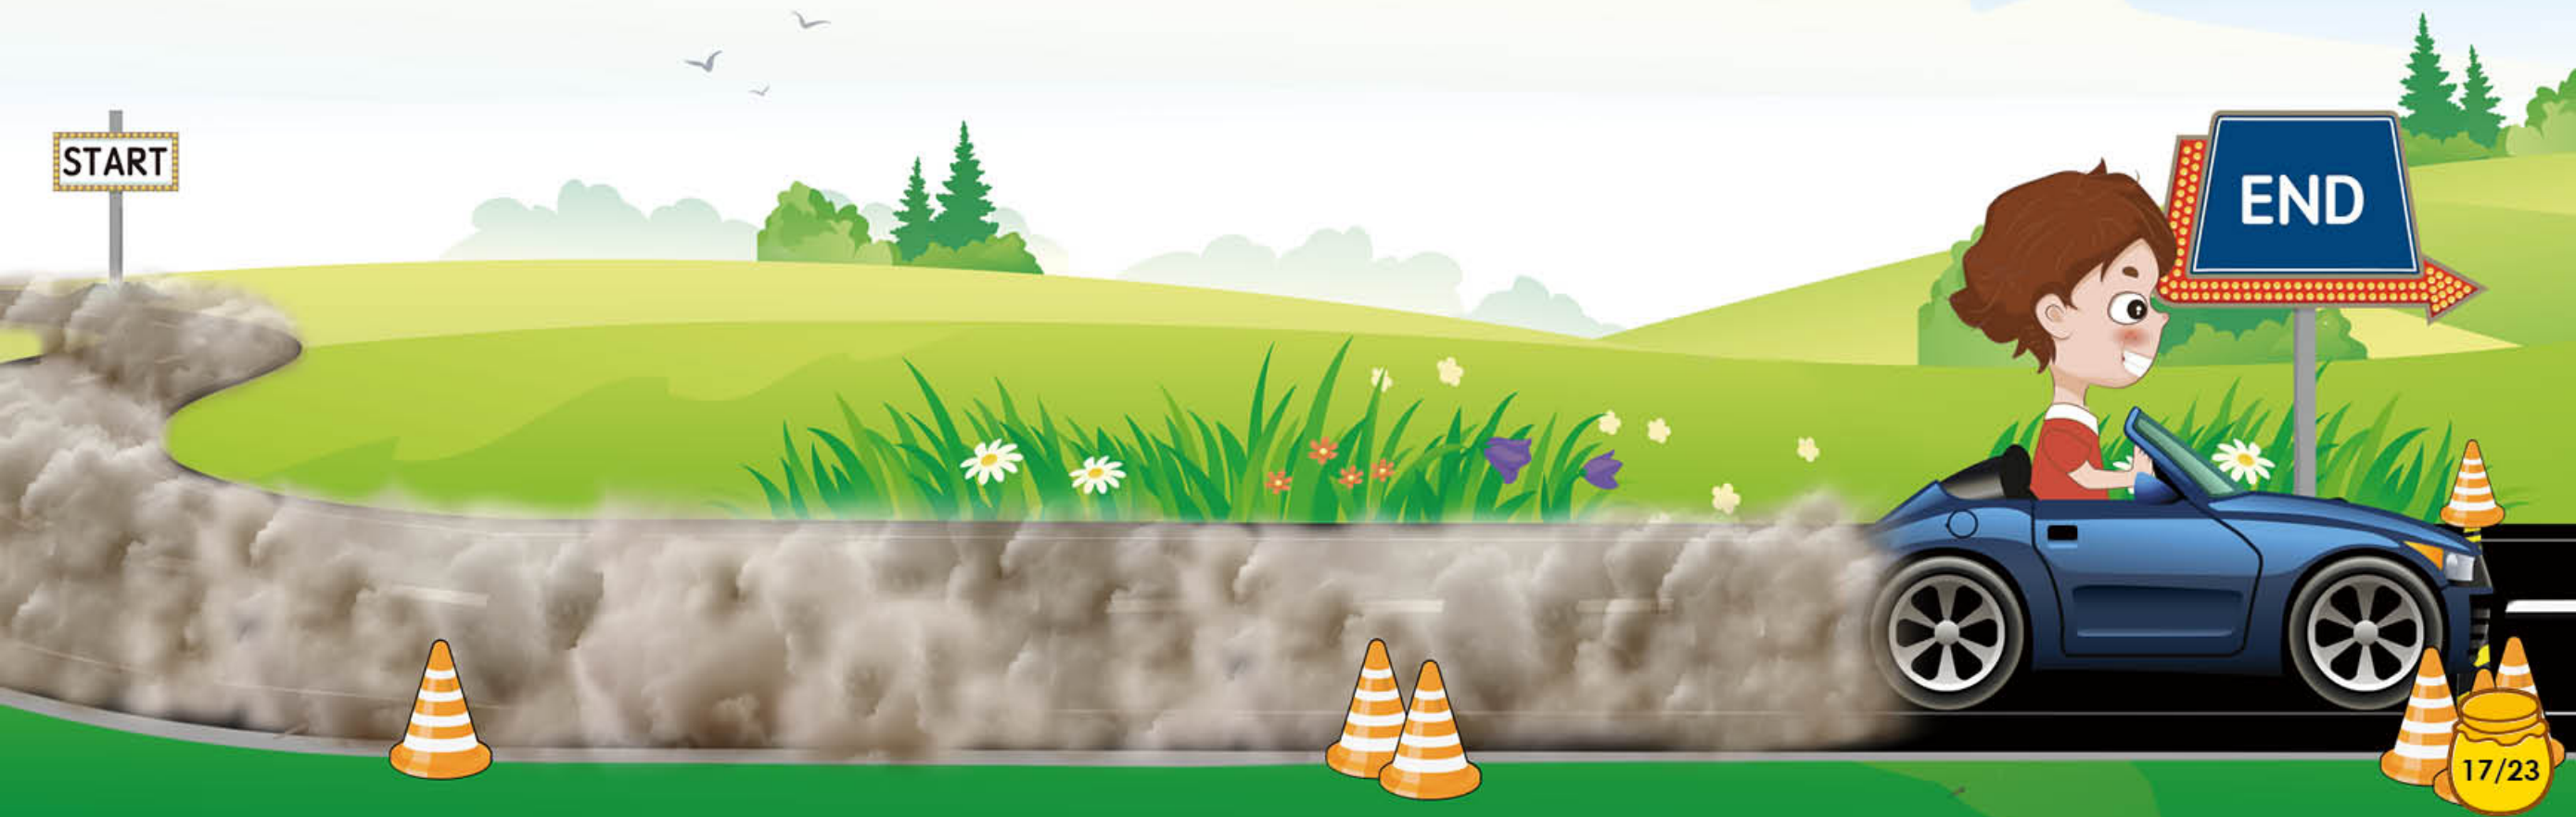

The messenger pigeons were specially trained to find their way home, even over extremely long distances. They were **transported** to another destination and then were somehow able to make their way home.

Oh, I see. Fuzzy can find his way home too. Maybe I should train Fuzzy to send messages for me!

Ha-ha! Yeah. You should give it a try!

Let's practice!

Activity

Make sentences using the words in the Word Bank.

The pigeons are flying.

Word Bank

~~pigeon~~

text

messenger

transport

Activity

Complete the sentences.

People used pigeons to send messages.

What if the pigeons got lost?

My mom will take me to Disneyland if I get an A in the exam.

What if...

I'll take the bus. I won't be late.

What if...

Activity

Complete and role-play.

Why is that man attaching something to the foot of that pigeon?

The man wants to...

Why doesn't he just...?

At that time...
People used...
