What do you think we need to do to save money?

Let's find out if the passage will have the same ideas.

INTENSIVE READING

Have you ever wanted to buy something?

Maybe you want a new soccer ball or a fancy dress. We all want to buy new things sometimes. But how can we save enough money to buy the things we want?

Today, we'll talk about saving money. The first step to saving money is to **record** how much you spend each month.

After you know how much money you are spending, you can make a **budget**. A budget tells you how much of your money you can spend every day. A budget is a good way to help you reach your savings goal.

Of course, to record your **expenses** and make a budget you'll need some money. Do you get an allowance? Maybe you can do some chores around the house.

★ DEPARTMENT STORE ★

After you've made your budget, you should look at your spending habits. Get rid of any **unnecessary** spending. **Try to save 10% of your money every month.** Use shopping lists when you go to the store and **avoid** spending too much during the holiday season. These are good saving habits.

Now that you have a budget and some savings, you can think about how you would like to spend your money. This is the fun part! Maybe you would like to buy a special gift for your parents to show that you love them. Maybe you would like to **donate** your money to an animal **shelter** or **charity**. There are many considerate ways to spend your money!

Complete the steps in saving money using the hints provided.

First, _____ (hint: record)

Second, you can make a budget.

Next, _____ (hint: save)

Then, you can think of how you can spend your money.
