What sort of jobs do you think there will be in the future?

Now, many animals' homes are being **destroyed**, and more and more animals will be made homeless in the future. So what can we do about it? Well, you could become an "Animal Migration Engineer". Then you could help animals move to new homes and make sure they settle in well!

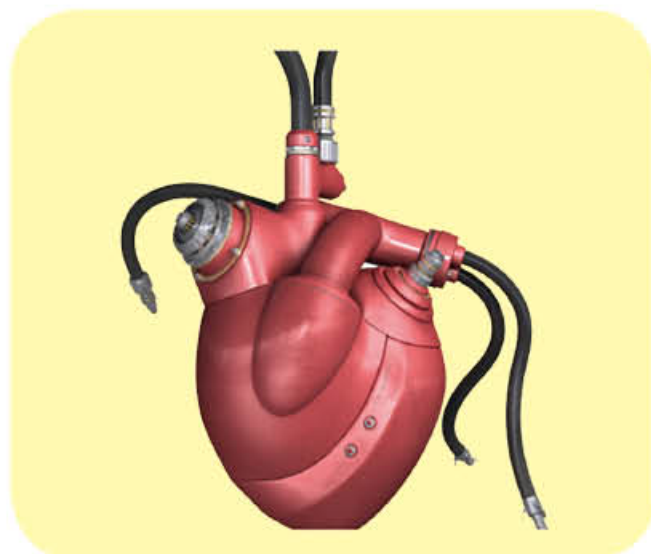

What does an "Animal Migration Engineer" do?

Medical technology is improving fast, and more and more medical specialists will be needed. Become a “Fetus Healer” and help cure babies before they are even **born**. Or be an “Organ Designer” and work on creating artificial body organs that save lives.

What sort of jobs work on life-saving technology?

In the future, jobs in space will be very popular. Do you want to be a space bus pilot? The tickets might be as much as \$200,000 per seat! What about being a “Space Architect”? The astronauts will need more and more space stations as they travel farther into space.

What sort of space jobs will there be?

After learning about these jobs of the future, **which job** sounds coolest to you? An “Animal Migration Engineer”, or maybe a “Fetus Healer”, or maybe a “Space Architect”. It’s up to you. But one thing’s for sure: you need to get a good **education** first!
