a drink.

**shake**

Can you shake your head?

Milkshake is a **mixture** of milk and ice cream.

**mix · ture**

Which is a mixture, water or soup?

# Let's talk!

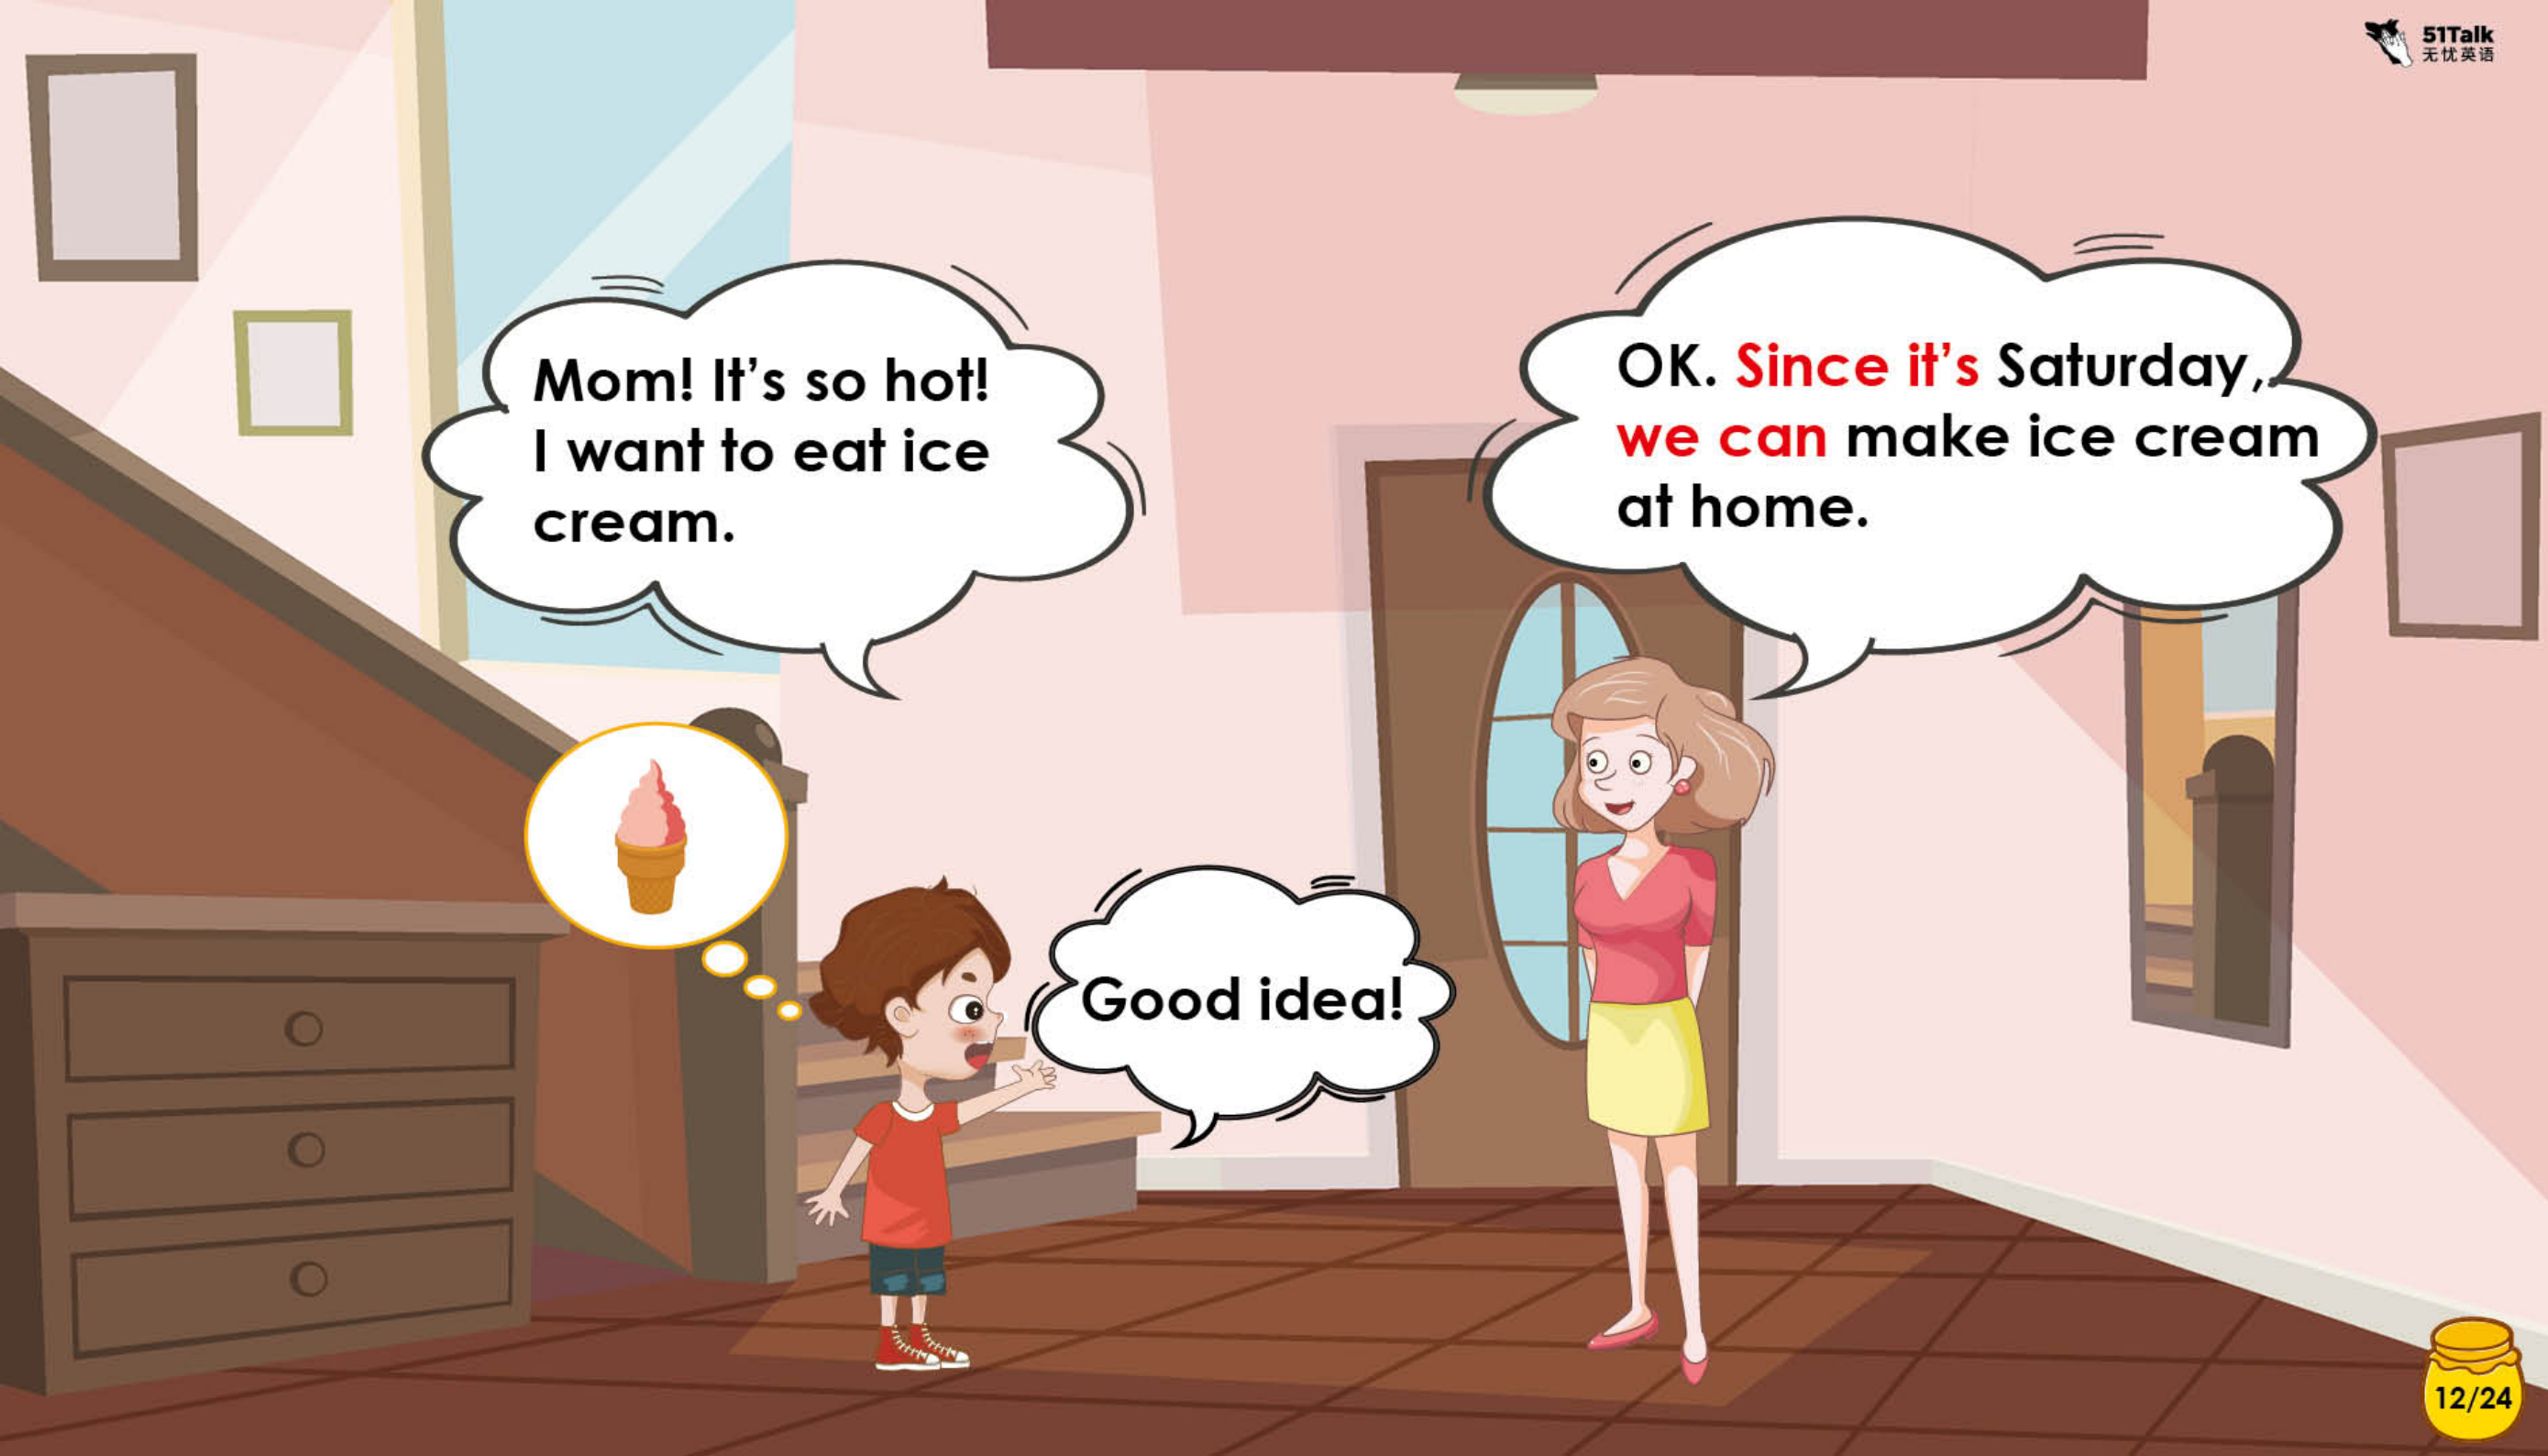

# Introduction

Mom is teaching Timmy how to make ice cream at home.

Mom! It's so hot!  
I want to eat ice  
cream.

OK. **Since it's** Saturday,  
**we can** make ice cream  
at home.

Good idea!

But first we need to prepare some **materials**: a cup of cream, some sugar, chocolate powder, salt, ice cubes, and one **medium** and one large zip-lock bag.

OK. Now we've got them all here. Shall we start?

Yep! First we fill the medium bag with cream, chocolate powder and sugar. Be sure to zip up the bag tightly.

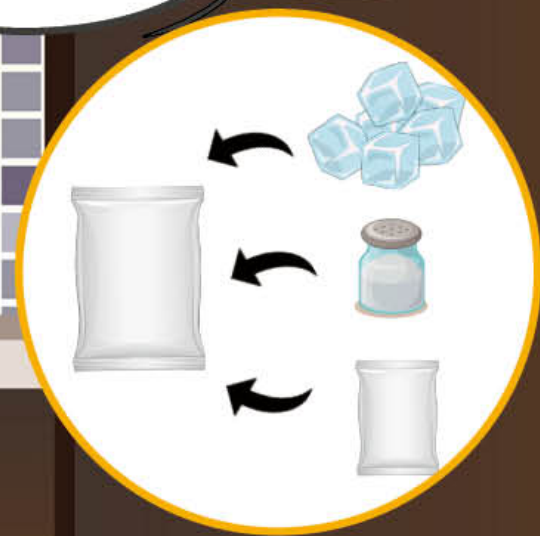

OK. And since it's ice cream, we can put the ice cubes in the bag too, right?

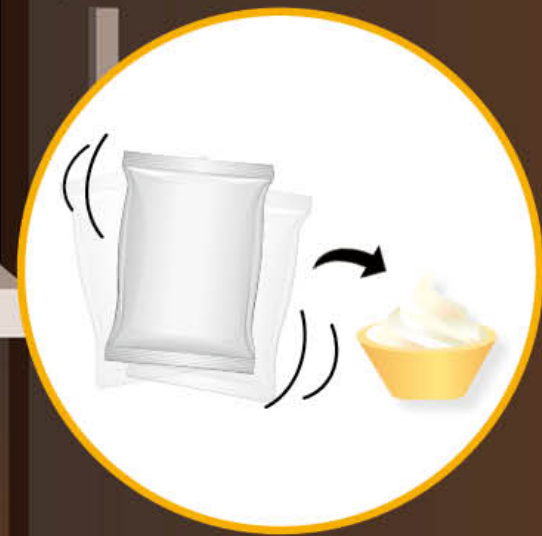

Ha-ha! No, Son. We put the ice and salt into the large bag. Then place the medium bag inside the large one. Don't forget to zip up the large bag.

Huh, I never knew we could make ice cream like that. But why put the bags together?

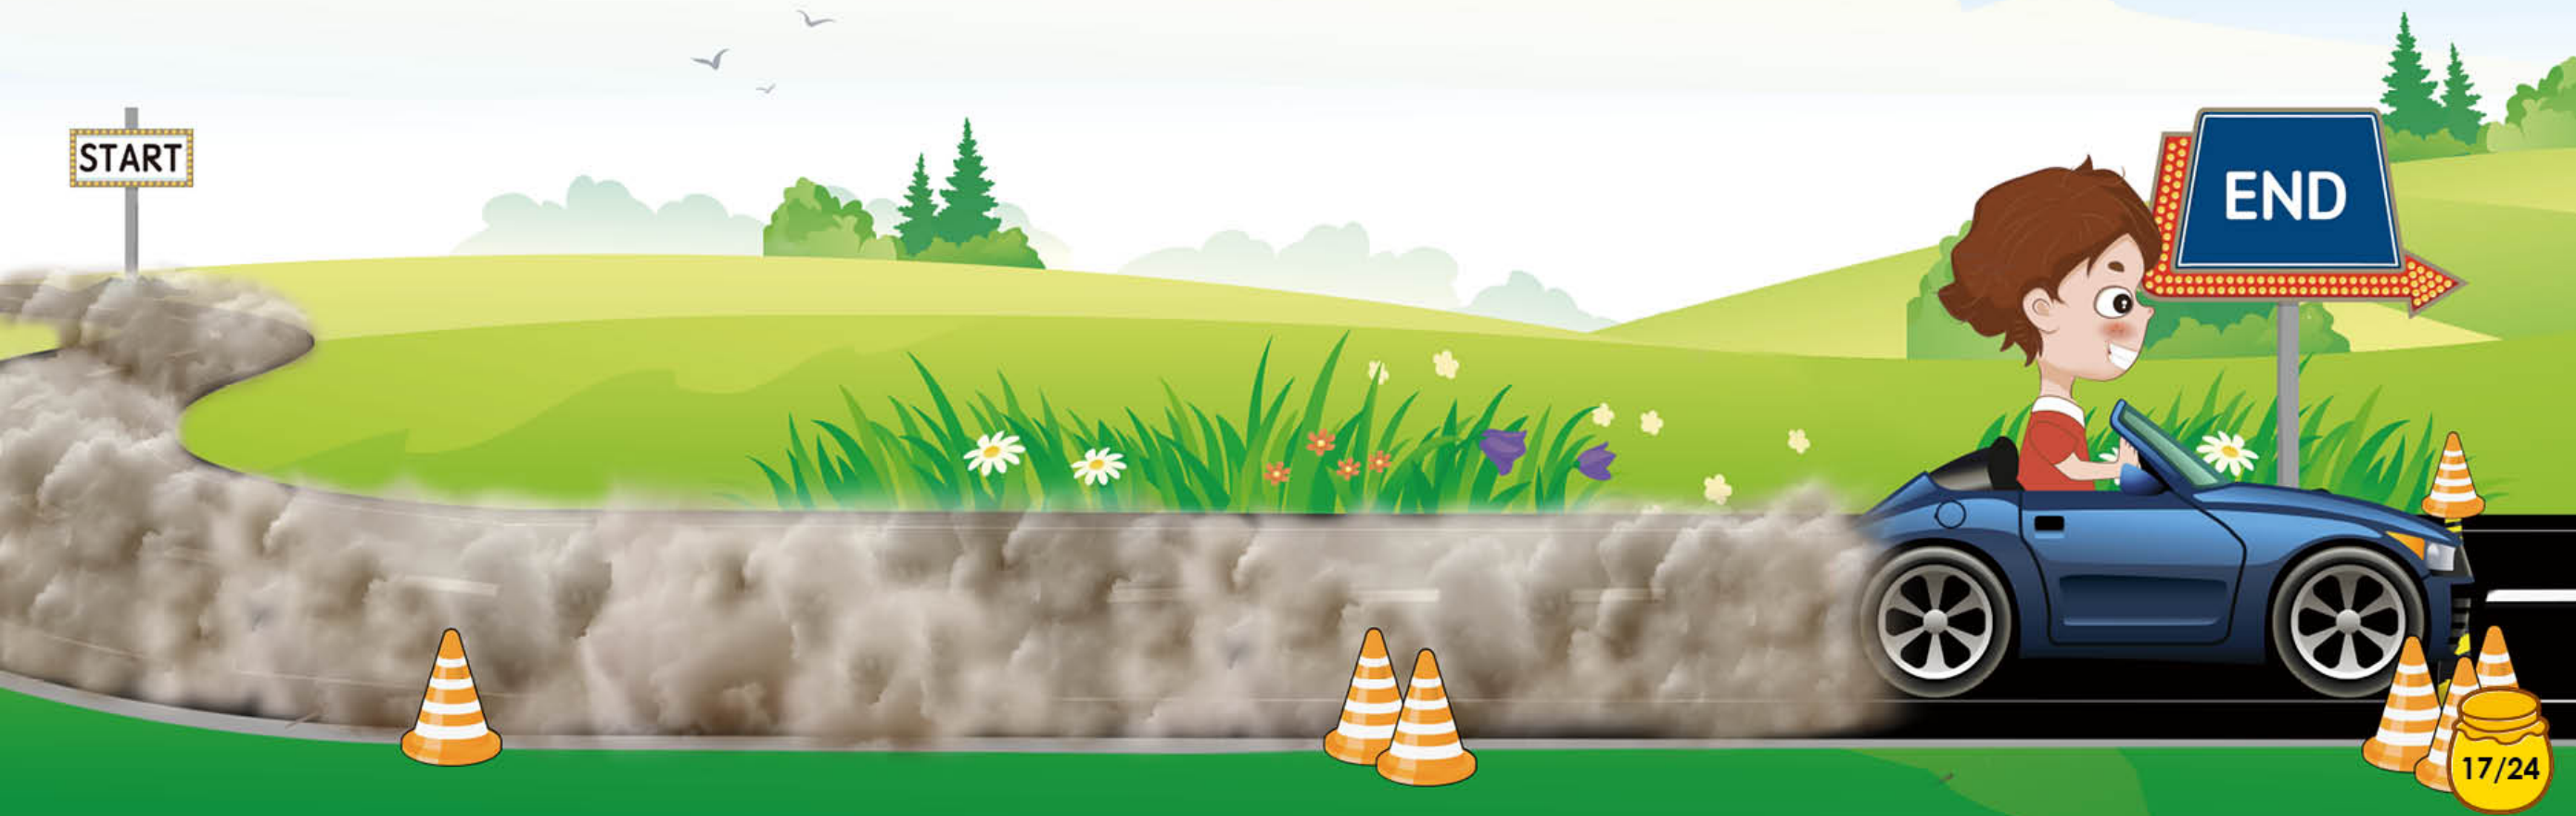

Because... we are going to **shake** them! In five to ten minutes, the **mixture** will become ice cream!

Wow! What fun!  
Let me try!

# Let's practice!

# Look and answer.

What do we need to make ice cream?

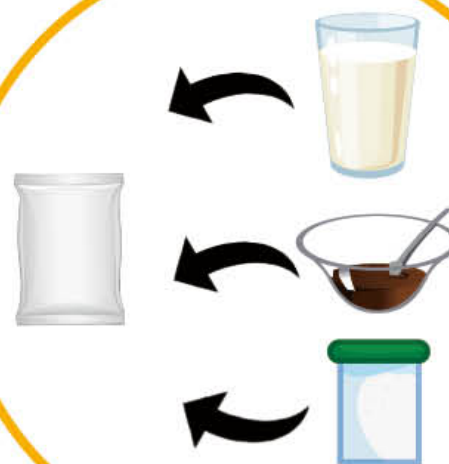

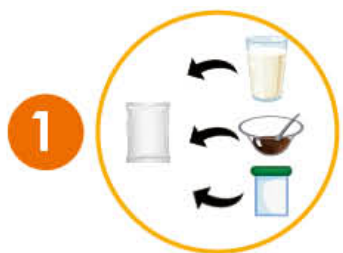

We need some materials — cream, sugar...

# Look and answer.

Can you remember the first step of making ice cream?

First we put...

**Hints:**

cream

sugar

chocolate  
powder

medium

# Look and answer.

What do we put in the large zip-lock bag?

**Hints:**

ice cubes

salt

medium

large

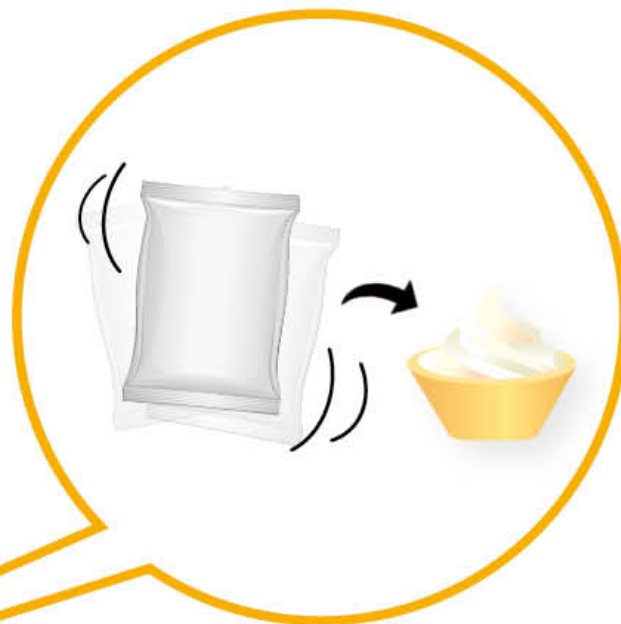

# Look and answer.

What's the last step of making ice cream?

The last step is...

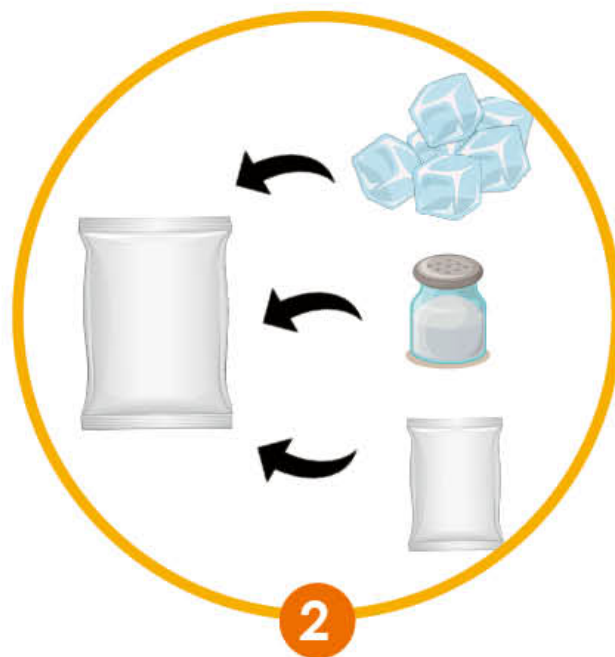

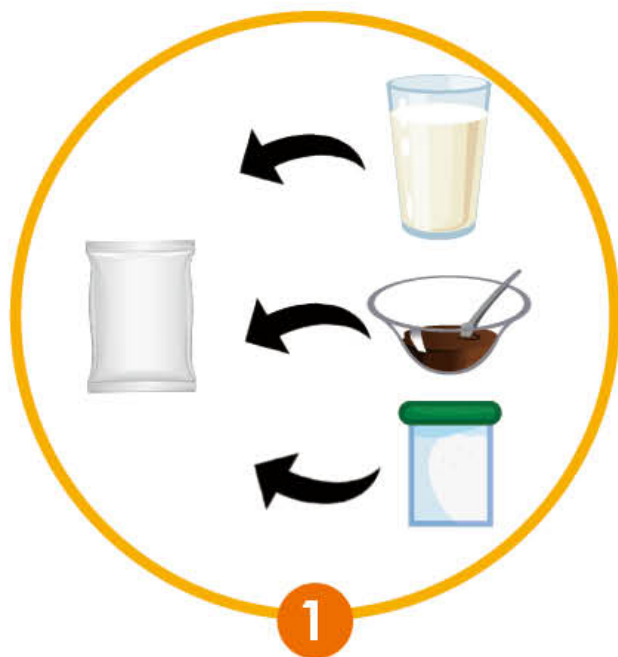

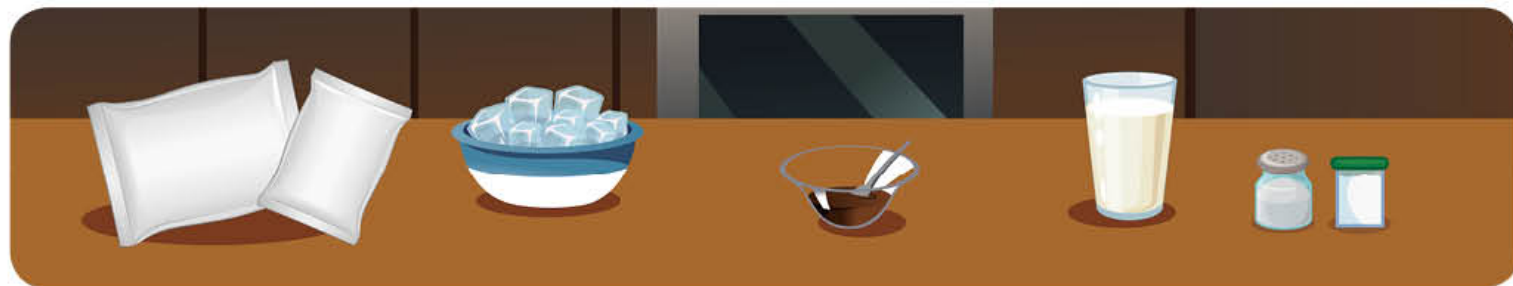

Hints:

shake

mixture

# Look and say.

Can you tell me  
how to make ice  
cream?

# Today I learned:

## Topic

Materials —  
How to make ice  
cream

## Words

material

medium

shake

mixture

## Sentence

Since it's Saturday,  
we can make ice  
cream at home.

GOODBYE!
