Frog Peter and Frog Paul were traveling with their friends, a group of other frogs. Suddenly Peter and Paul slipped and fell into a deep hole.

hole

What did Peter and Paul fall into?

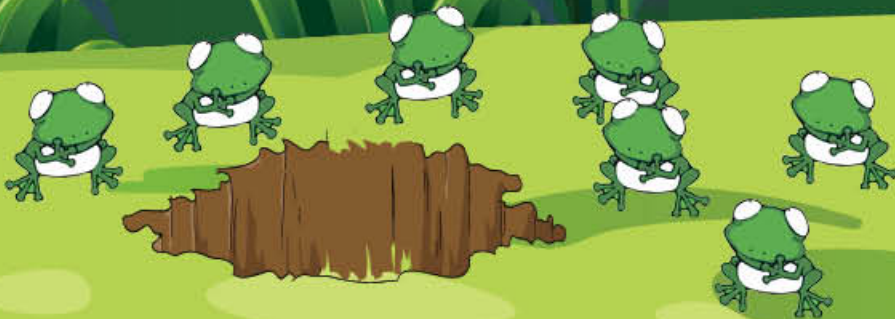

“Oh no! Look how deep the hole is!” cried the other frogs, and they told Peter and Paul that they were as good as dead. Peter and Paul couldn’t hear what they were saying; they just tried to jump up out of the hole with all their **strength**.

Why did the other frogs tell Peter and Paul that they were as good as dead?

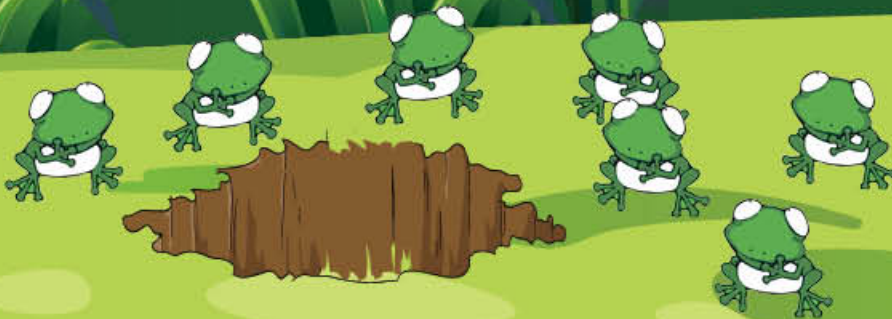

“Stop trying! You cannot make it!” the other frogs kept shouting. Peter jumped a little higher this time and heard what the other frogs were saying. He thought maybe they were right. He **gave up** and fell down.

Did Peter keep trying to jump out of the hole? Why?

Paul continued to jump as hard as he could. Once again, the other frogs shouted at him to stop trying and just give up. But he jumped even harder and finally jumped out!
