

# Lesson 168

## Wildfires

# Warm-up

Watch the video and listen to the song.

01

# Knowledge Learning

# Do you know?

Let's learn about the wildfire.

1

## What is the wildfire?

Wildfire is a very big fire that spreads quickly and burns **natural areas** like woods, forests and grasslands.

# Do you know?

2

## The causes of wildfires

(1) Unattended campfires (无人看管的篝火)

Unattended campfires can **put things out of control** and can cause massive wildfires.

# Do you know?

## (2) Smoking

It's common for people to **throw the cigarette** (香烟) on the playground knowing that it's still burning. This is a common cause of wildfires.

# Do you know?

## (3) Burning debris(燃烧杂物)

Burning debris is common in many areas to get rid of junk, refuses and yard waste.

Winds can **blow** (吹) flames of burning debris to spread into forests, fields and farms.

# Do you know?

## (4) Lightning (闪电)

When lightning strikes, it can produce spark and this can start a fire.

# Do you know?

3

## Impacts of wildfires

(1) Many animals are killed due to wildfires.

# Do you know?

(2) Ash and smoke can cause air pollution.

# Do you know?

(3) **Ash** is like **food** for new plants. When a wildfire burns, it leaves a layer of ash on the ground, where young plants and new seeds can get the food they need to grow.

02

Practice

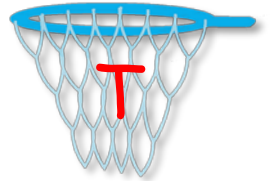

# Let's choose

Read the sentence, then choose "T" for correct sentences and wrong sentences in the net of "F".

- 1 Wildfire is a very big fire that burns cities.
- 2 Lighting can produce spark and this can start a fire.
- 3 A lighted cigarette won't cause wildfires.
- 4 Ash and smoke can cause air pollution.
- 5 Wildfires have good influence on some plants.

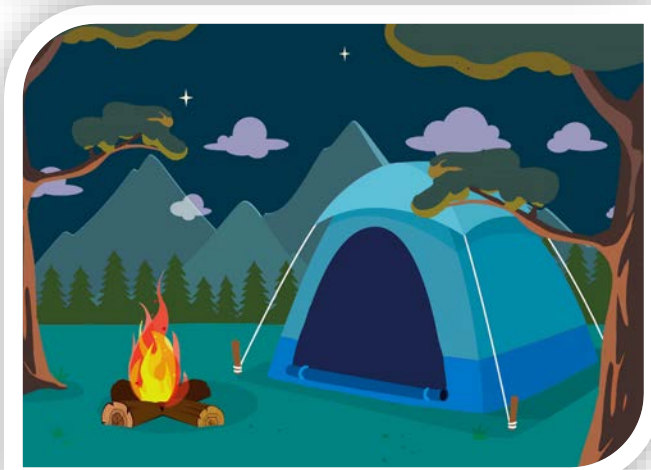

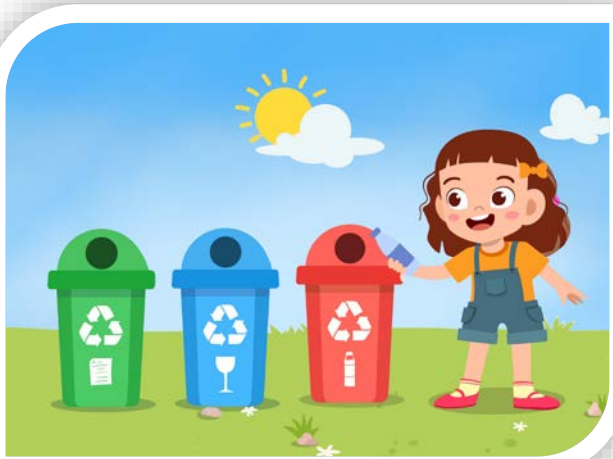

# Let's circle

Look at the pictures. Which are correct wildfires prevention tips? Circle them.

# Free talk

Fire can happen anytime, anywhere. What else should you do to prevent fire?
