Earth

You are going to learn:

Topic: Nature — Earth

Words: giant, salty, fresh, resource

Grammar: Adjective + Noun

Sing a Song

TWO LITTLE BLACKBIRDS

Two little blackbirds sitting on a hill.

One named Jack.

And one named Jill.

Fly away, Jack.

Fly away, Jill.

Come back, Jack.

Come back, Jill.

Let's prepare!

Vocabulary

The **giant** monster is almost as tall as the building.

gi·ant

Who is giant?
Circle him.

Vocabulary

The water in the sea is **salty**.

salt·y

Which taste salty,
candies or tears?

Vocabulary

Fresh water has no salt and comes from rivers and lakes.

fresh

Which can we drink every day, salt water or fresh water?

Vocabulary

Africa is poor in water
resources.

re·source

Does this city have a wind resource?

Grammar

Scientists are always finding
new planets.

Adjective
+ Noun

Adjective

Noun

sick boy

red house

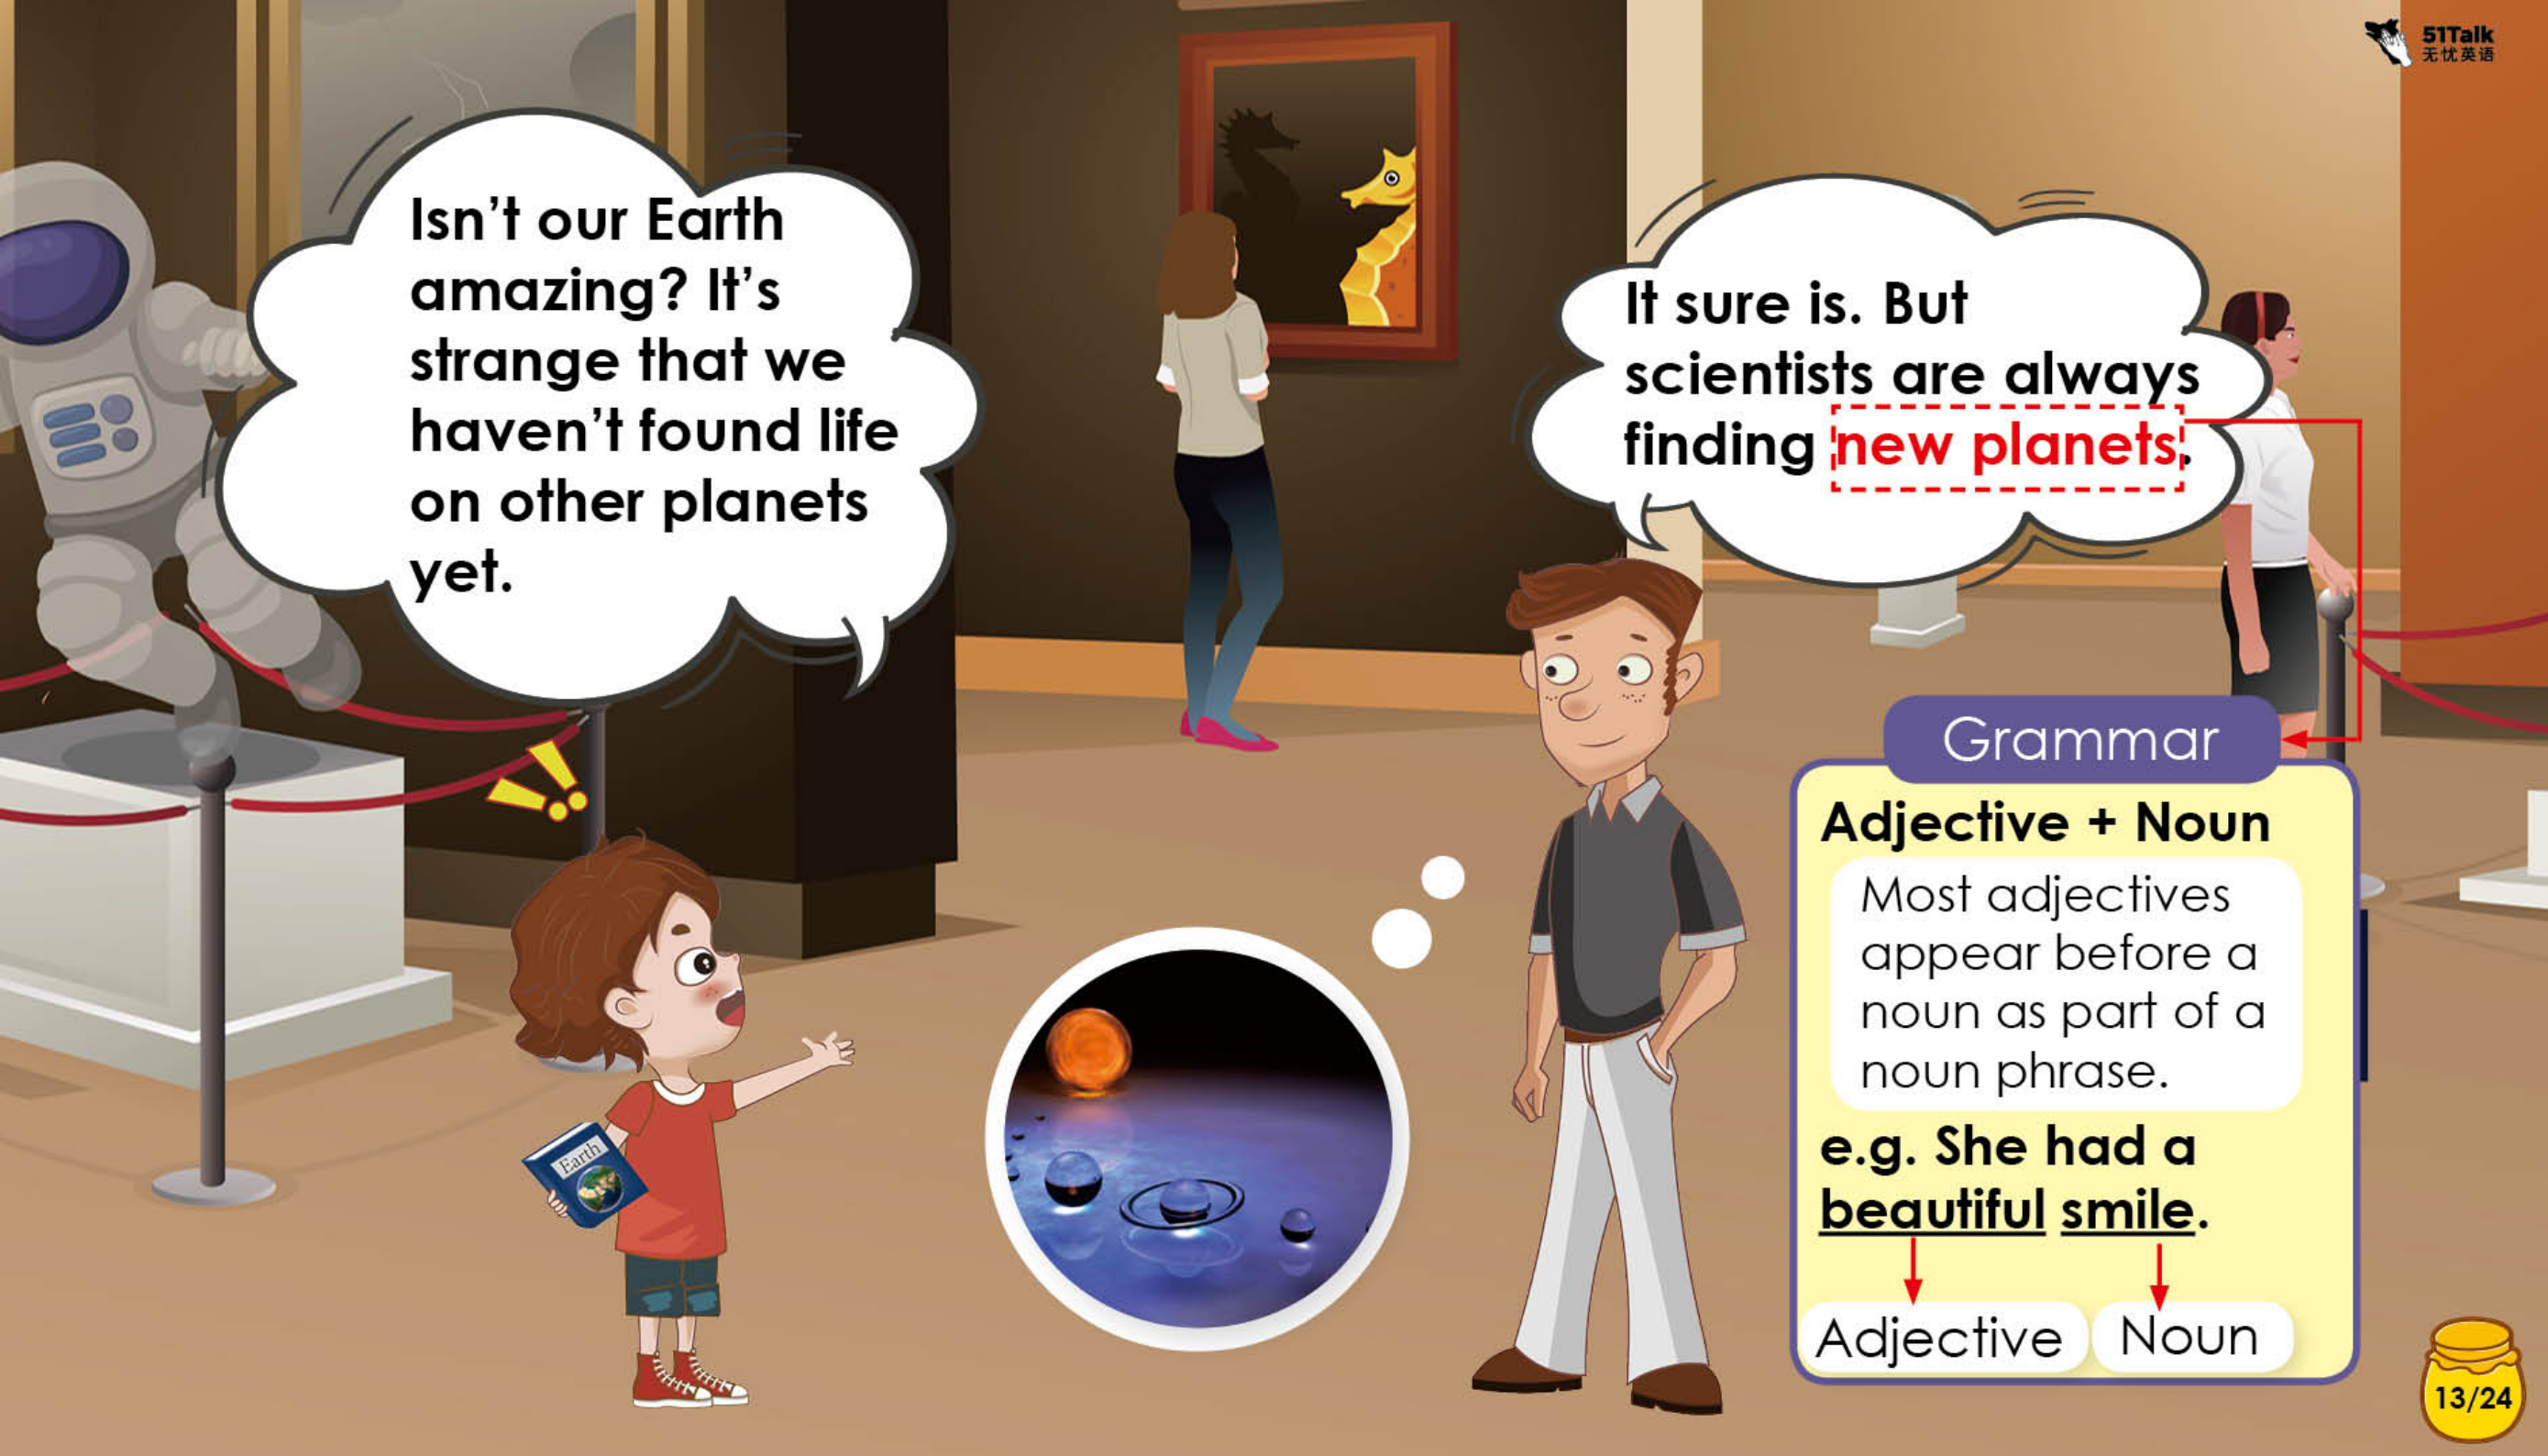

Let's talk!

Introduction

Timmy and his father
are talking about Earth.

Isn't our Earth amazing? It's strange that we haven't found life on other planets yet.

It sure is. But scientists are always finding **new planets**.

Grammar

Adjective + Noun

Most adjectives appear before a noun as part of a noun phrase.

e.g. She had a beautiful smile.

Adjective

Noun

So how is Earth
able to support
life?

Well, Earth is like a
giant blue ball of
water. And that water
helps support life.

But most of that is **salty** water, right?
We can't survive on salt water.

Yes. But there is also a very small amount of **fresh** water that we can drink.

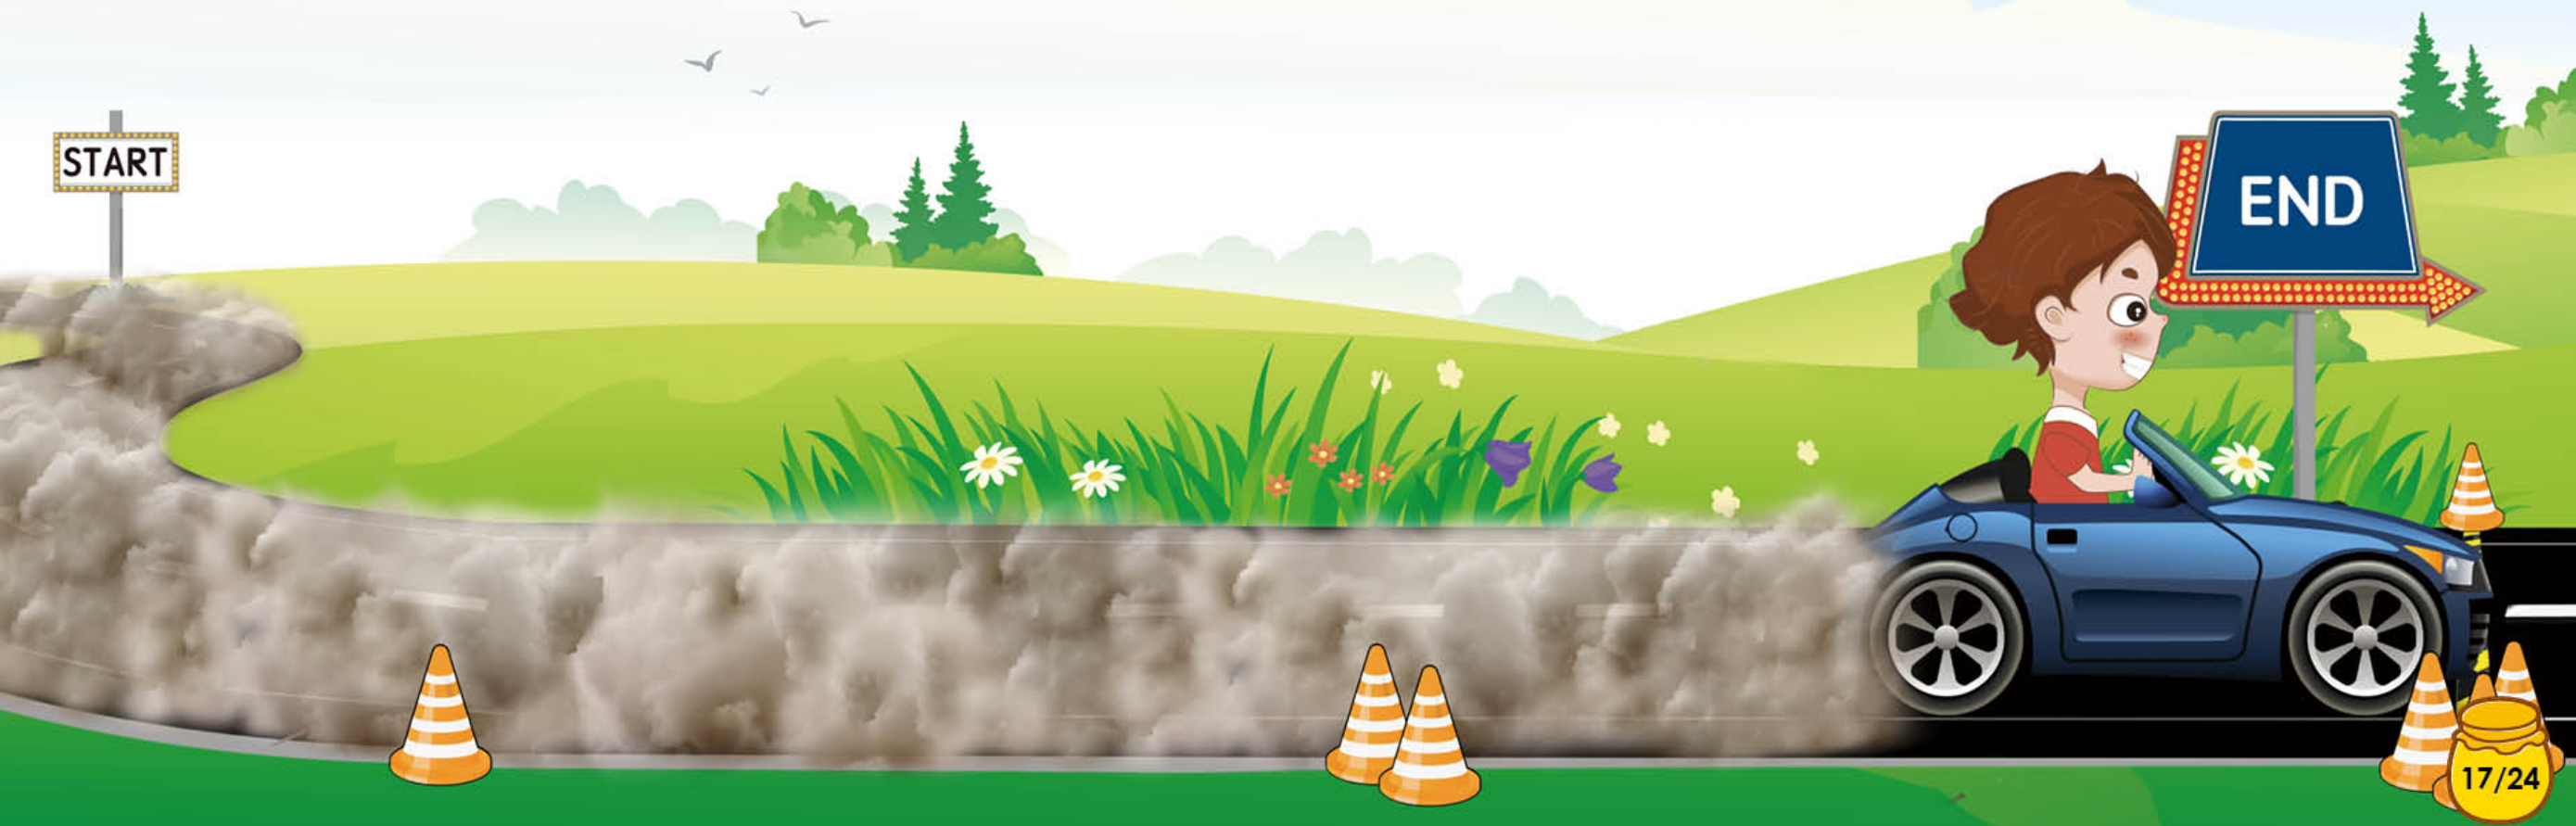

Wow. Isn't it amazing
that we live on a giant
"water ball" but we
have so few water
resources?

Yep. And that's why
we need to save
water.

Let's practice!

Activity

Help the animals find their words and make sentences.

Earth is like a giant blue ball of water.

salty

resource

giant

fresh

Activity

Match the nouns with the adjectives and make sentences.

planets

salty

water ball

new

water

giant

Blank yellow area for writing sentences.

Activity

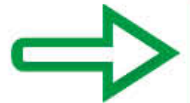

Look at the picture and answer the questions.

Mom, how is Earth able to support life?

Earth is like... And... helps support life.

Hints: giant water

Continued on
next page.

Activity

Continued...

But most of Earth's water is salty water.

Yes. We can only drink...

Hint: fresh

Continued on
next page.

Activity

Continued...

So we need to
save water.

That's right! Because
we have so few...

Hint: resource
