**Save Money When Shopping**

In order to save money, you have to shop smart. One way to shop smart is to pay with cash because there is a possibility that you are going to spend more than you should with credit cards. It's also wise to shop alone to avoid getting influenced by friends or other people to overspend. You should also set a time frame while shopping. Staying too long in shopping centers or malls might make you buy more things than you need to! You should try doing these things the next time you go shopping if you want to save money!
