5	Writing Project
6	Wrap-up

You are going to:

Review the article called

The Animal Kingdom II

Learn the comprehension skill

Main idea and details

Warm-up

02:00

Sort the animals.

Reptiles

Birds

Mammals

Let's Go!

Comprehension Skill

02:00

Main idea

Main idea is what the story or article is mainly about.

Details

Details give important information about the main idea.

Example:

Main idea

Different monkeys have different ways of eating bananas.

Detail

The very greedy ones eat the bananas whole, skin and all.

Detail

Others will peel off the skin and only eat the soft fruit inside.

Detail

Some monkeys roll the banana really hard until the soft part squeezes out of the ends.

Intensive Reading—Comprehension

03:00

Read the passage and answer the question.

Reptiles

Reptiles are a group of cold-blooded animals with **scaly** skin. Their body temperature changes according to the temperature around them. And they usually lay eggs to have babies. Most of them have short legs or no legs at all.

Snakes, lizards, crocodiles, and turtles are all reptiles. The saltwater crocodile is thought to be the largest living reptile. An adult saltwater crocodile can grow up to 7 meters long and **weigh** up to 1 600 kilograms.

What is the main idea of the first passage?

The main idea is ...

Intensive Reading—Comprehension

03:00

Read the passage and do the activities.

Birds

Birds are warm-blooded vertebrates and are the only animals with feathers. Feathers keep them warm and help them fly.

They use their **beak** and **claws** to catch food and to eat. Many birds sing and build nests. All mother birds lay eggs and then the hatchlings come out. The hatchlings grow up to be adult birds.

- Name the body parts of the bird.
- Say the use of these body parts.

Intensive Reading—Comprehension

02:00

Read the passage and answer the question.

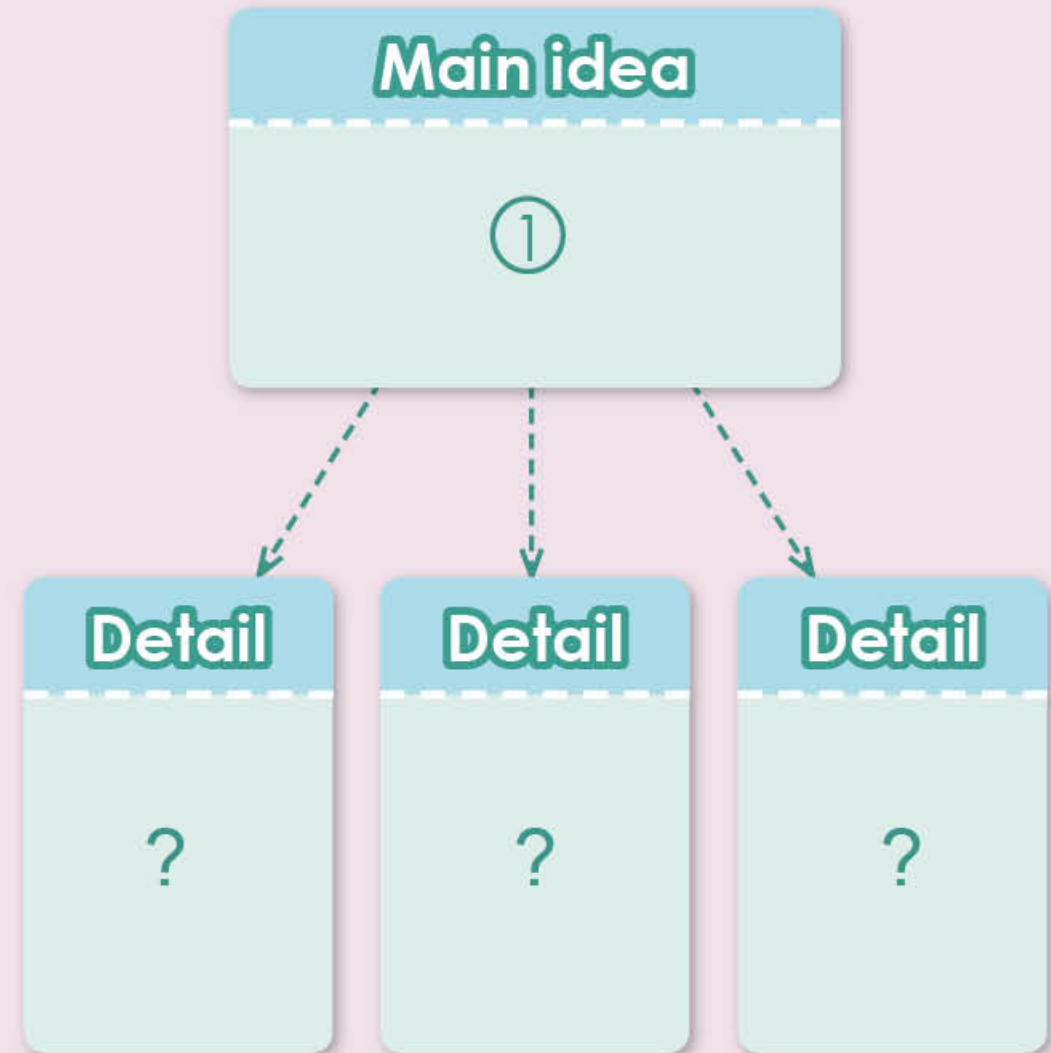

①Although all birds have wings, a few species can't fly. ②The ostrich is a very large African bird with a long neck and long legs. ③It cannot fly but can run very fast. ④An adult male ostrich can reach running speeds of up to 70 kilometers an hour.

What are the three details for the main idea?

The details are ...

Intensive Reading—Comprehension

03:00

Read the passage and do the activity.

Mammals

A **mammal** is a type of animal that is born from its mother's body, not from an egg. They feed their young with milk and have a larger, more well-developed brain than other types of animals. Human beings **are considered** mammals.

Grammar

be considered

to think of someone or something in a particular way or to have a particular opinion

e.g. Liz was considered an excellent teacher.

Make a sentence using "be considered".

Intensive Reading—Comprehension

03:00

Read the passage and answer the question.

Mammals are warm-blooded vertebrates. They have **backbones** and their body temperature does not change with their environment. All mammals have fur or hair which helps their bodies stay warm, so they can be very **active** in cold weather. Pigs, dolphins, bats, and elephants are all mammals.

Which one of the following does not belong to mammals?

... does not belong to mammals.

Activity Time!

Practice

Writing Project—Preparation
