Classic English Junior Level 7 - Unit 6 - Lesson 7

The Smartest

We are going to learn about some of the smartest animals in the world.

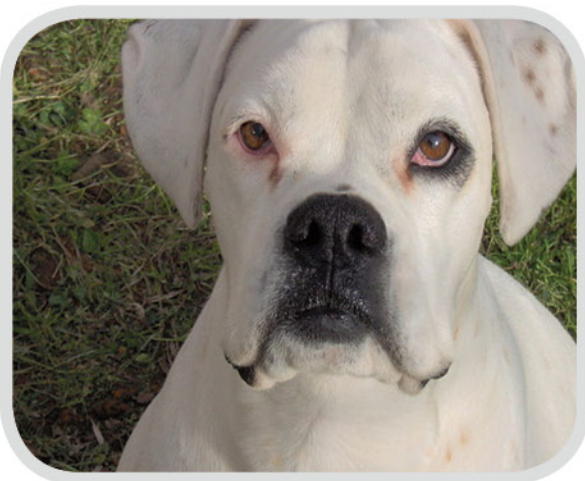

**Warm-up****2** min

Which person do you think is smarter? Why?

**Reading****3** min

Read with the teacher and then answer the question below.

There are quite a number of animals in the world. **Although** they are not as clever as humans, some animals are smarter than others. Do you know which animals are the **smartest** in the world?

What animals do you think are the smartest?

To be continued... >>

**Reading****3** min

Read with the teacher and then move to the Word Focus.

The dolphin is one of the smartest animals in the world. It can **communicate** with others and remember the sounds of other dolphins for twenty years. The dolphin sometimes warns other fish who are in danger by **slapping** its tail hard against the water.

Word Focus

- I can **communicate** well with people who speak the same language as me.
- What languages can you **communicate** in?

To be continued... >>

**Reading****4** min

Read with the teacher and then answer the question below.

The cockatoo is a very smart bird. It can figure out how to open the locks on cages. If one cockatoo opens the lock, other cockatoos that watch it can quickly repeat it.

Why are cockatoos smart birds?

To be continued... >>

Reading

4 min

Read with the teacher and then move to the Word Focus.

The dog, man's best friend, is also one of the smartest animals in the world. It can learn how to **fetch**. Some can even learn how to count. A dog can also read human facial expressions, like a smile or a **frown**.

Word Focus

- My dog can **fetch** a ball.
- What other things do you think a dog could **fetch**?

Let's practice. >>

**Task****4** min
