a doctor too.

What a coincidence! So
I guess she must do the
same as my dad, like
seeing **patients** every day.

Yes. She spends most of her time **looking after** patients.

My dad too. Doctors really help people. My dad is really proud of that, and I'm really proud of him too.

Every time she gets home,
she **has to** spend a lot of time

Just like my father!
He always says that
"Knowledge is power."
