e·mer·gen·cy

Can you circle the picture that shows an emergency?

Vocabulary

Don't **disturb** him! He is tired!

dis·turb

What will you do if you don't want to be disturbed by others?

Grammar

Problem

The car **broke down**.

The printer **broke down**.

What happened to the truck?

Solution

We have to push it.

We need to find someone to fix it.

What should he do?

Let's read!

When we go to school or work, we often go by bus or car. To stay safe on the road, all **vehicles** must follow the traffic safety rules.

What do we need to do to stay safe on the road?

Cars must always follow the traffic lights safety rules. When the lights show green, it means cars can continue driving. However, when the lights show red, it means stop. If the lights are **flashing** orange, it means slow down and get ready for the red light.

What does a flashing orange light mean?

The speed limit is also very important. If cars are driving too fast, they may cause an accident. When driving along the road, it is easy to see many speed limit signs that are helping people to drive safely. They let everyone know when they can drive fast and when they need to slow down.

Why is the speed limit very important?

If your car **breaks down** on the road — don't worry. Turn on your **emergency** lights and place the emergency triangle behind your car. Then you can safely call for help.

emergency lights

emergency triangle

Grammar

Phrasal verb: break down

If something breaks down, it stops working.

e.g. The printer is always breaking down.

What should you do if your car breaks down on the road?

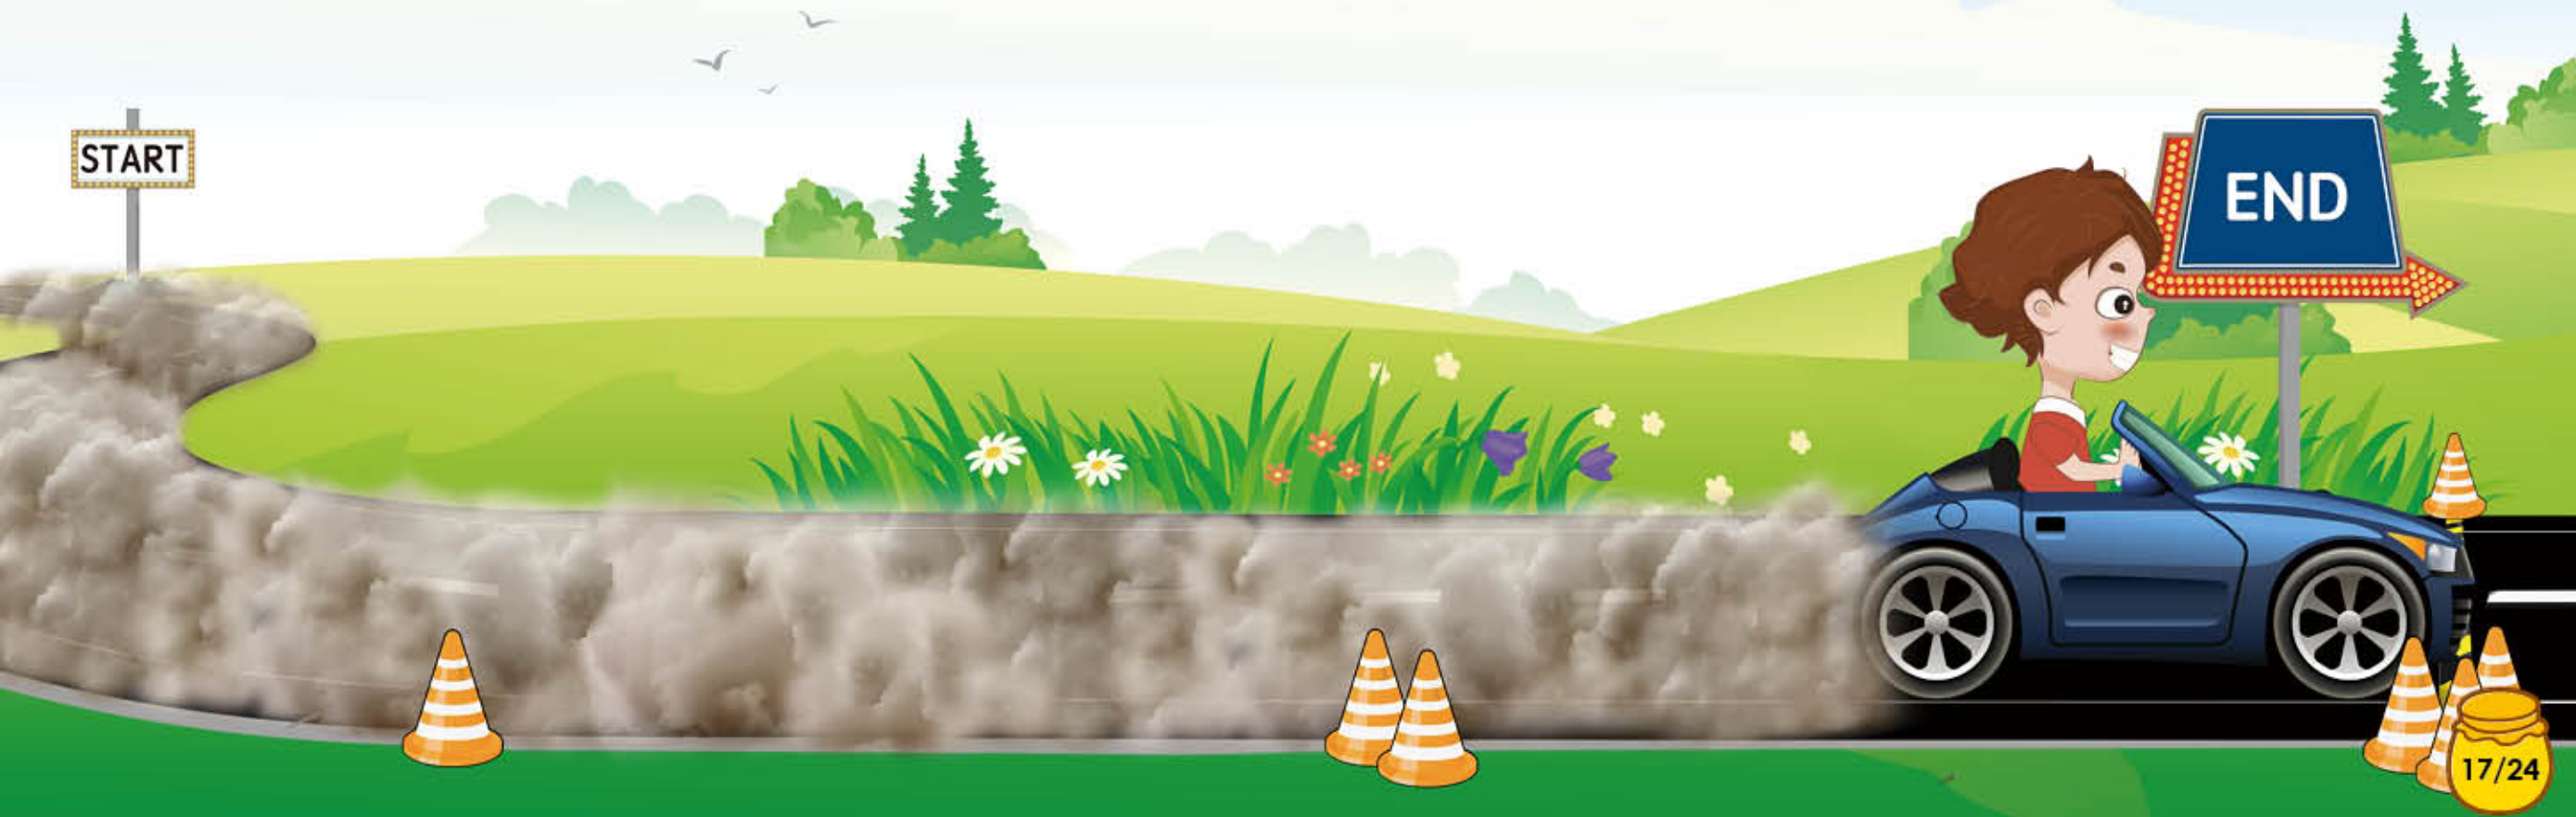

When sitting in a car, putting your head or hands out of the car is very dangerous. Everyone must also wear a seat belt. Talking loudly, moving around a lot, or playing games can all **disturb** the driver, so it is best that everyone keeps quiet.

What should you do and not do when you are sitting in a car?

Let's practice!

Activity

Complete the definitions and make sentences.

Make Your Own Vocabulary Book!

Words

-  vehicle
-  flash
