

Lesson 31

Different planets

Warm-up

Talk about our planet.

What is the name of the planet where we live?

What does our planet look like from space?

01

Knowledge Learning

Words

Learn words and expressions.

Earth

spaceship

Words

move around

take photos/pictures

Words

difference

What is the **difference** between the two things?

twentieth

In the **twentieth** century, we didn't have good maps of our planet.

look like

Earth often **looks like** a big blue and white ball.

02

Practice

Read and choose

Read the text. Choose the right words and tell the teacher your answers.

Our planet

The planet we live on is called (1) _____.

A. Earth B. Sun C. Moon

Earth is one of the eight planets that move (2) _____ the sun.

A. around B. round C. away

Until the (3) _____ century, we didn't have (4) _____ good maps of our planet.

A. twentieth B. twenty C. twelve

A. some B. lot C. any

But now, special cameras in space can (5) _____ pictures of Earth. So making maps is easy!

A. give B. take C. move

Read and choose

Our planet

The planet we live on is called (1) Earth.

- A. Earth B. Sun C. Moon

Earth is one of the eight planets that move (2) around the sun.

- A. around B. round C. away

Until the (3) twentieth century, we didn't have (4) any good maps of our planet.

- A. twentieth B. twenty C. twelve

- A. some B. lot C. any

But now, special cameras in space can (5) take pictures of Earth. So making maps is easy!

- A. give B. take C. move

Read and choose

Most of our planet has water on it so, in pictures, the Earth often (6) _____ like a big blue and white ball!

A. takes

B. looks

C. gives

But pictures of Earth do not only help us to make maps. When we look at them, we can also learn a (7) _____ about the Earth's environment and weather.

A. too

B. some

C. lot

Travelling in (8) _____ and exploring other planets teach us more about Earth, too.

A. spaceships

B. astronaut

C. space

(9) _____ you like to design (10) _____ or to be an astronaut one day?

A. Want

B. Would

C. What

A. astronaut

B. space

C. spaceships

Read and choose

Most of our planet has water on it so, in pictures, the Earth often (6) looks like a big blue and white ball!

A. takes

B. looks

C. gives

But pictures of Earth do not only help us to make maps. When we look at them, we can also learn a (7) lot about the Earth's environment and weather.

A. too

B. some

C. lot

Travelling in (8) space and exploring other planets teach us more about Earth, too.

A. spaceships

B. astronaut

C. space

(9) Would you like to design (10) spaceships or to be an astronaut one day?

A. Want

B. Would

C. What

A. astronaut

B. space

C. spaceships

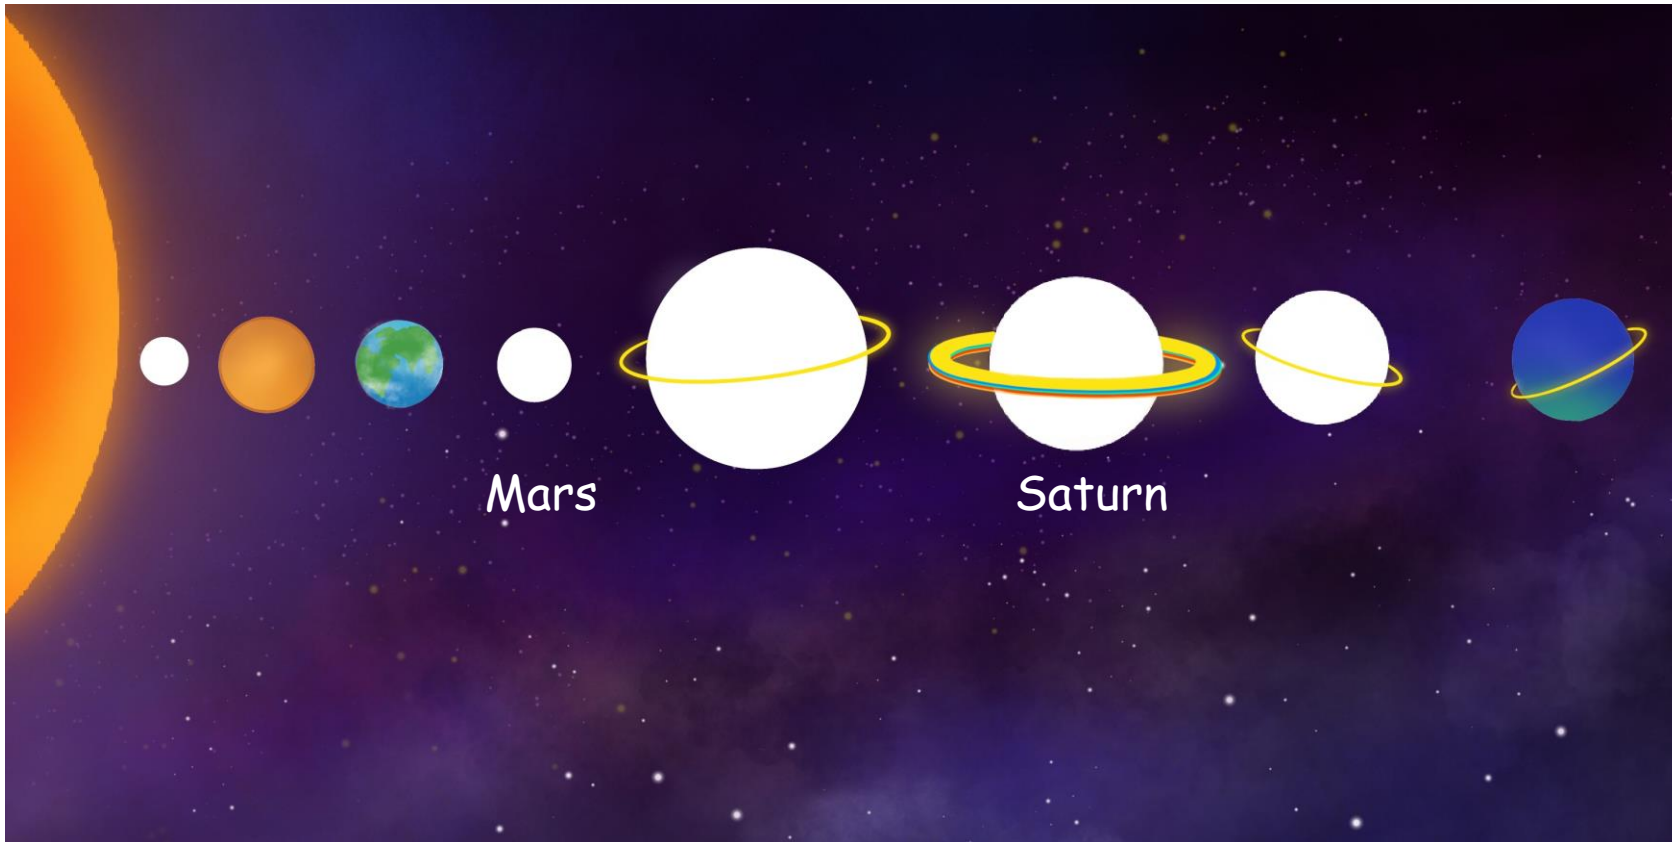

Listen and color

Listen to the teacher and color the related areas. You will listen twice.

Q1: How many planets move around the sun?

Q2: What do the planets look like?

12

Teaching notes: Point to this picture and lead the student to read the words: “Mars” and “Saturn”. 2. Read every transcript twice and lead him/her to color in the related areas.

03

Conclusion

Conclusion

In this lesson, you've learnt

Words

Earth, spaceship, difference, twentieth, look like, move around
take photos/pictures

Sentences

Earth is one of the eight planets that move around the sun.
Look at the planet that is between Saturn and the planet that is
farthest from the sun!
It is the same color as the planet that is farthest from the sun.
There are four of the planets have rings round them.

Grammar

present and past simple, prepositions

See you next class!
