How many sections
are there in this
book? What are
they?

...

Activity 6—Comprehension Skill

02:00

Read and fill in the blanks.

Smelling starts with the two holes at the bottom of your nose called nostrils. ____ After those receptors notice a smell, they send signals to your brain. ____

- 1 When air stays inside the nasal cavity, special receptors notice and recognize smells.
- 2 It is said that your brain can recognize more than one trillion different smells.
- 3 Air goes in the nostrils and then moves into a big open space called the nasal cavity.

Activity 7—Writing Preparation

01:00

Sequence the pictures and talk with your teacher.

The correct order is

What's the first step if you want to make a sandwich?

First ...

What will you do then?

...

Activity 7—Writing
