Different Kinds of Transportation

You are going to learn:

Topic: Transport — Different kinds of transportation

Words: transportation, cheap, pollution, space shuttle

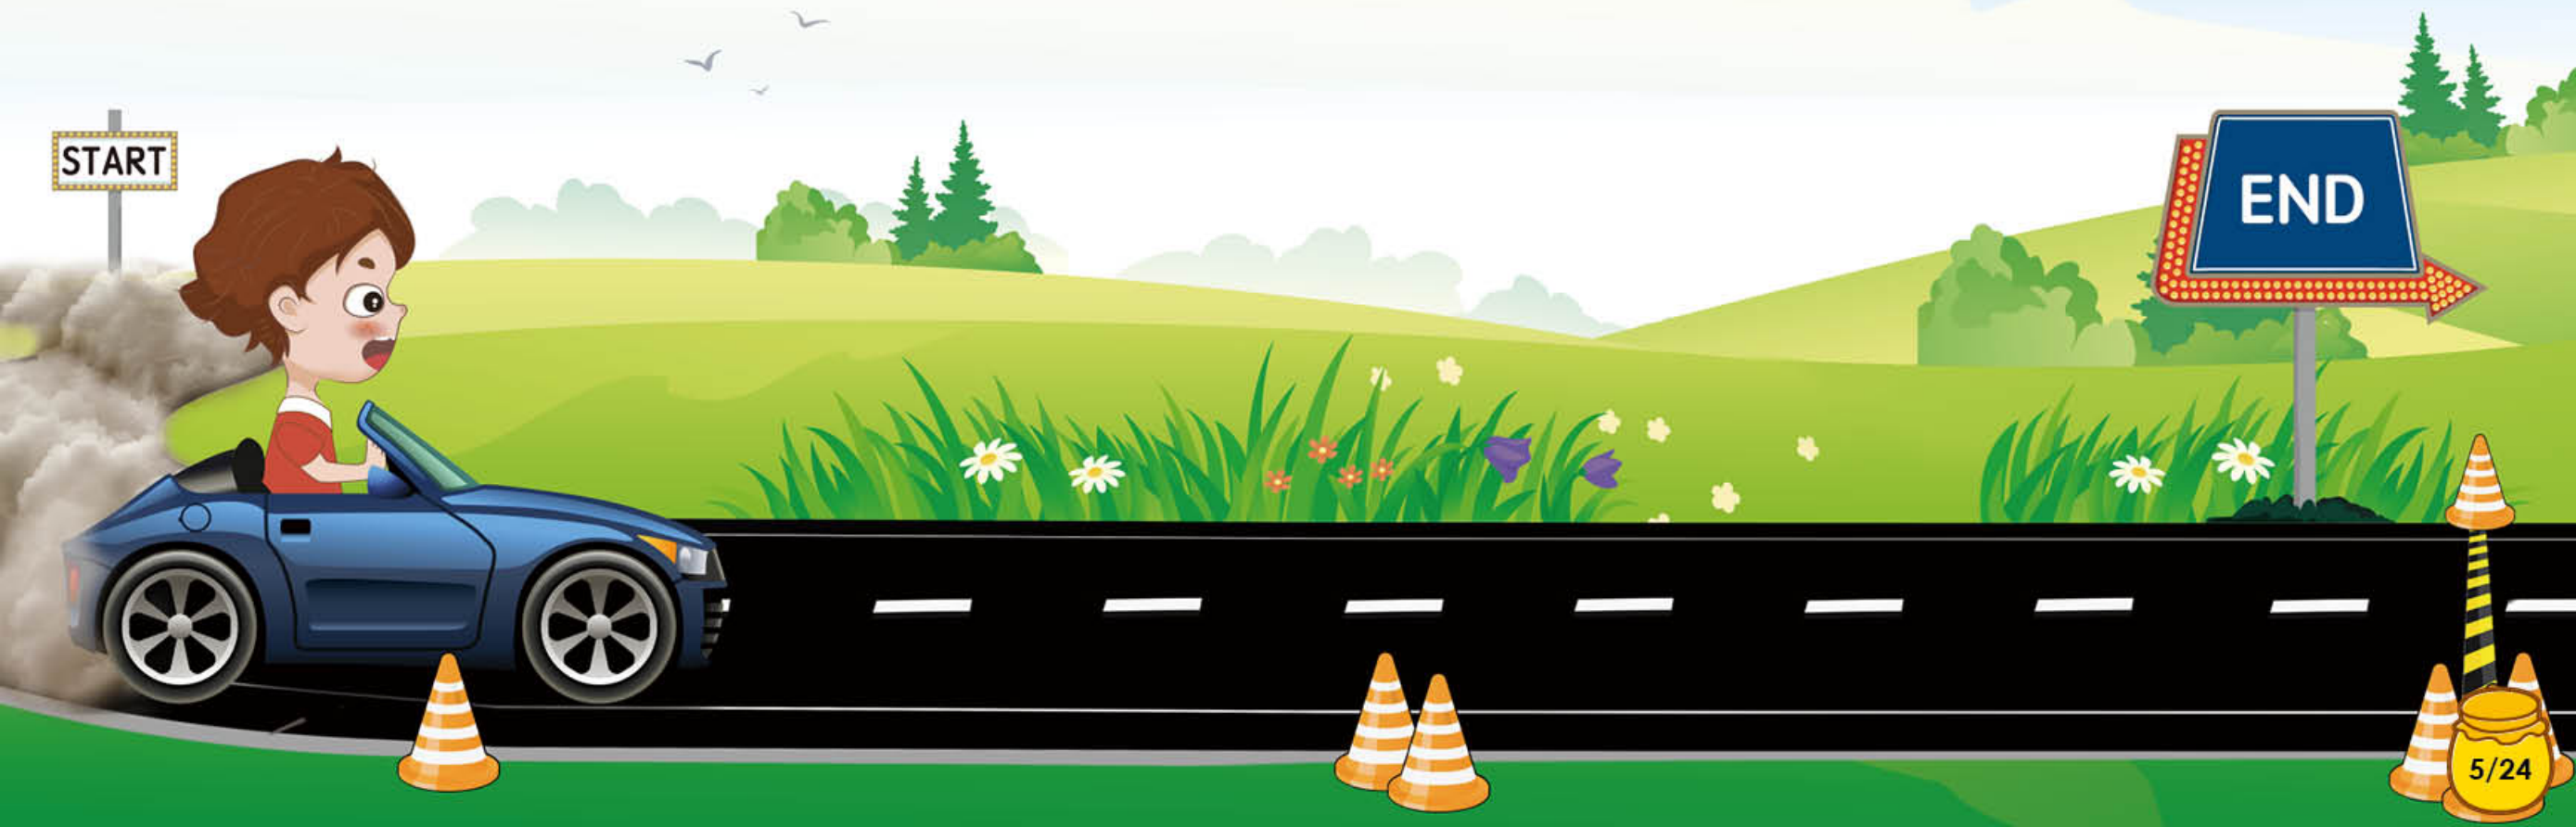

Grammar: Intransitive verb

Sing a Song

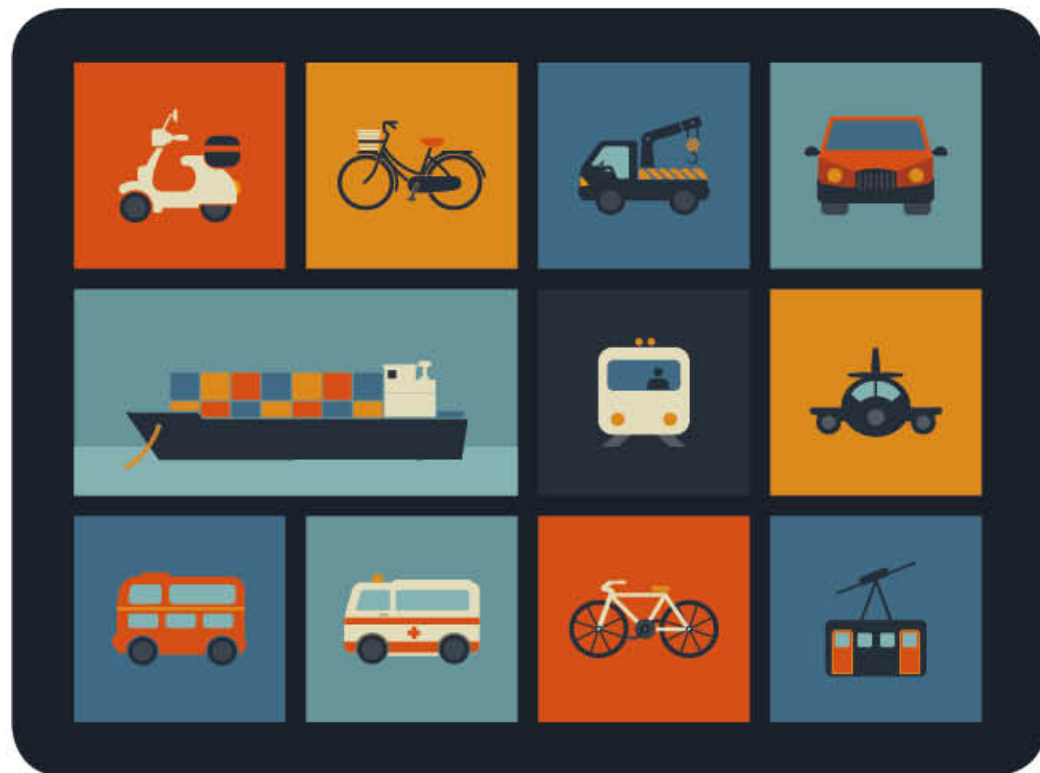

DOWN BY THE STATION

Down by the sta-tion, early in the morn-ing,
See the lit-tle puf-fer bel-lies all in a row.
See the en-gine dri-ver pull the lit-tle han-dle,
“Chug-chug, toot-toot!” Off we go!

Let's prepare!

Let's read!

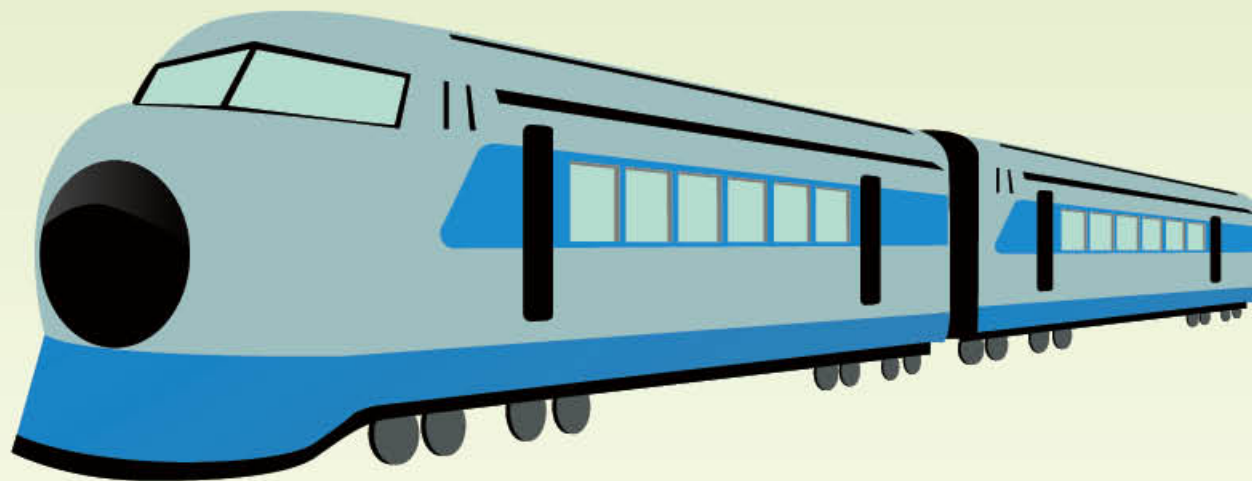

We need **transportation** to travel around.
It makes our lives much more convenient.
Boats are a very old kind of transport.
Some of the first boats were made from
trees, plants, and animal skins.

What kind of transport do you
think is the most convenient?

Modern trains were invented around 200 years ago. Trains are perfect for carrying people and other things over a long distance. Soon after, the bicycle was invented. It doesn't **go** very far, but it is a really **cheap** way to travel, and it's also good exercise!

Which transportation do you like, train or bicycle? Why?

Grammar

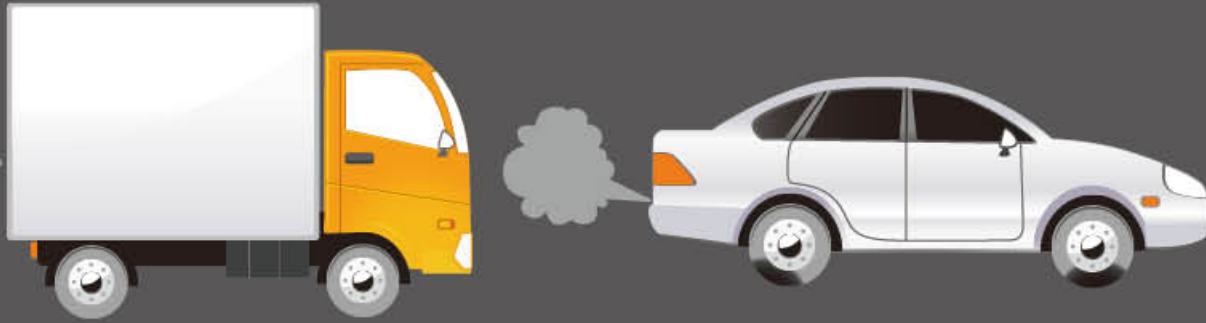

Intransitive verb

Intransitive verbs can be followed by a prepositional phrase or an adverb to add to the meaning being expressed, but they can never be followed by a noun.

She **plays** in the park.

Intransitive
verb

Prepositional
phrase

Cars were invented around 130 years ago. These days many people use a car to travel to work or go to the supermarket. Cars and buses are perhaps the most popular and convenient kind of transportation, but they also create a lot of **pollution**...

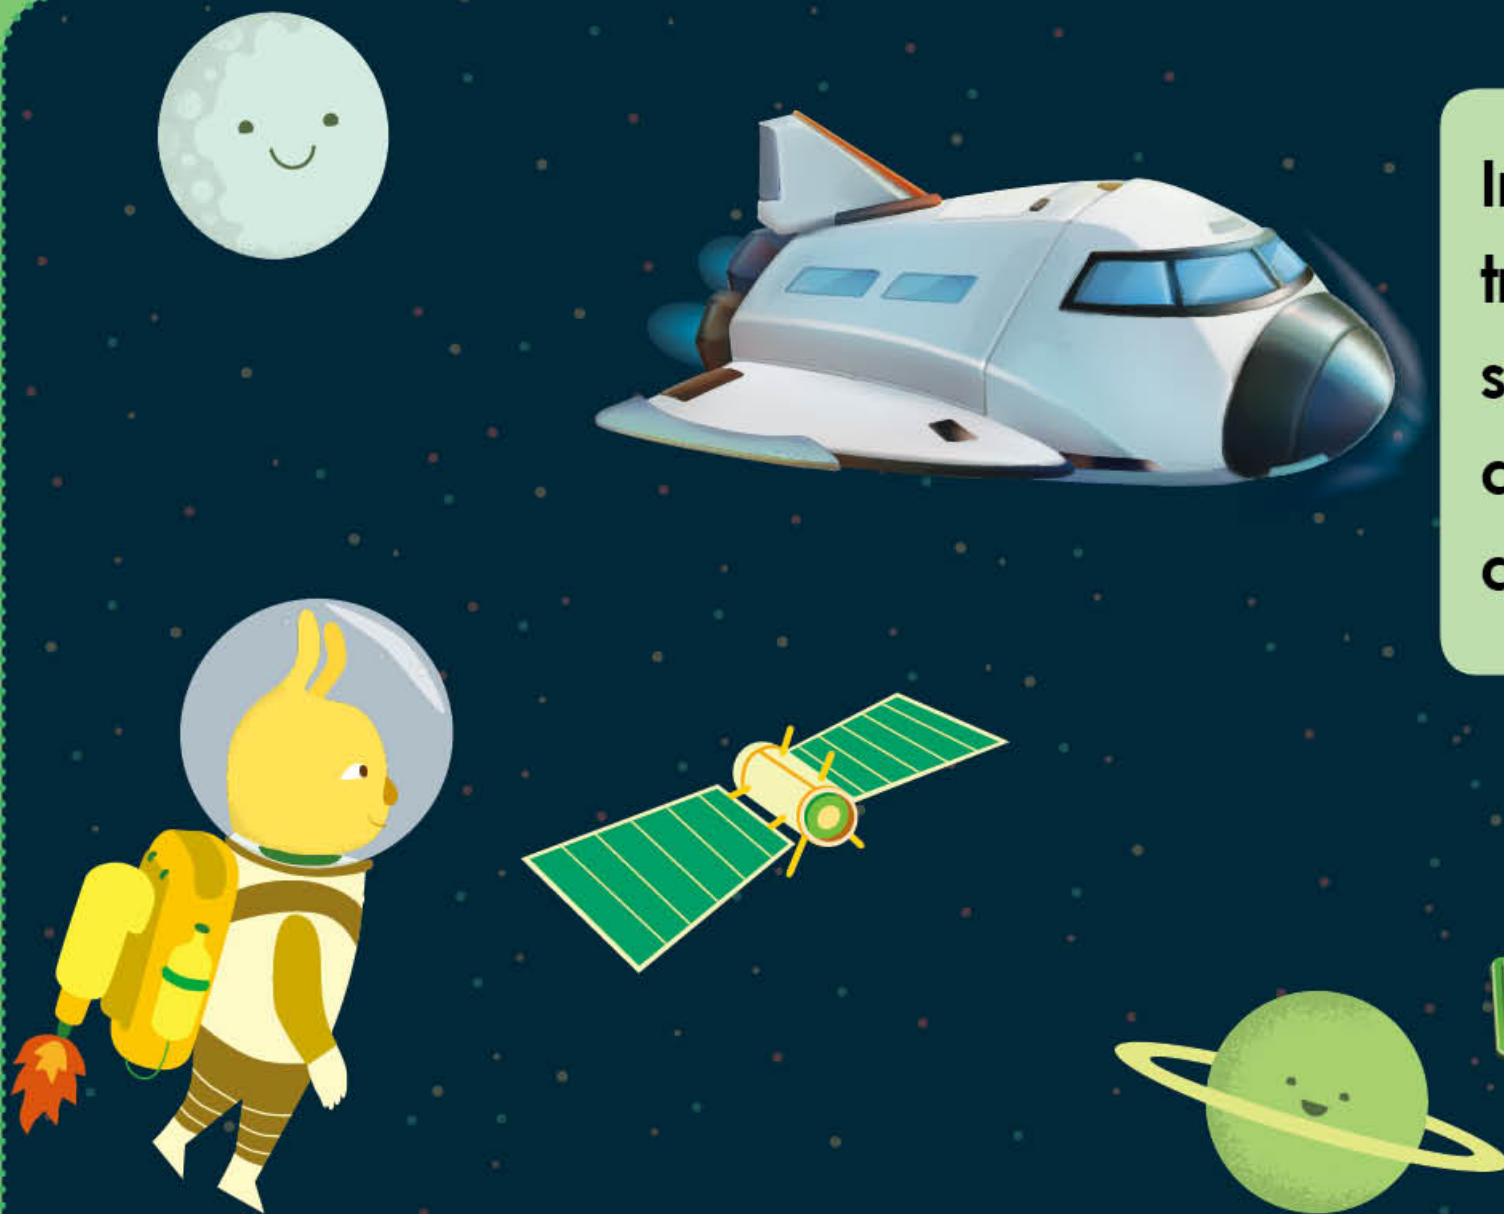

Is there a lot of pollution in your city?

Planes were invented around 110 years ago. Planes help us to fly over very long distances, both over land and sea. They are very fast and can take you anywhere you want to go.

What is the advantage of traveling by plane?

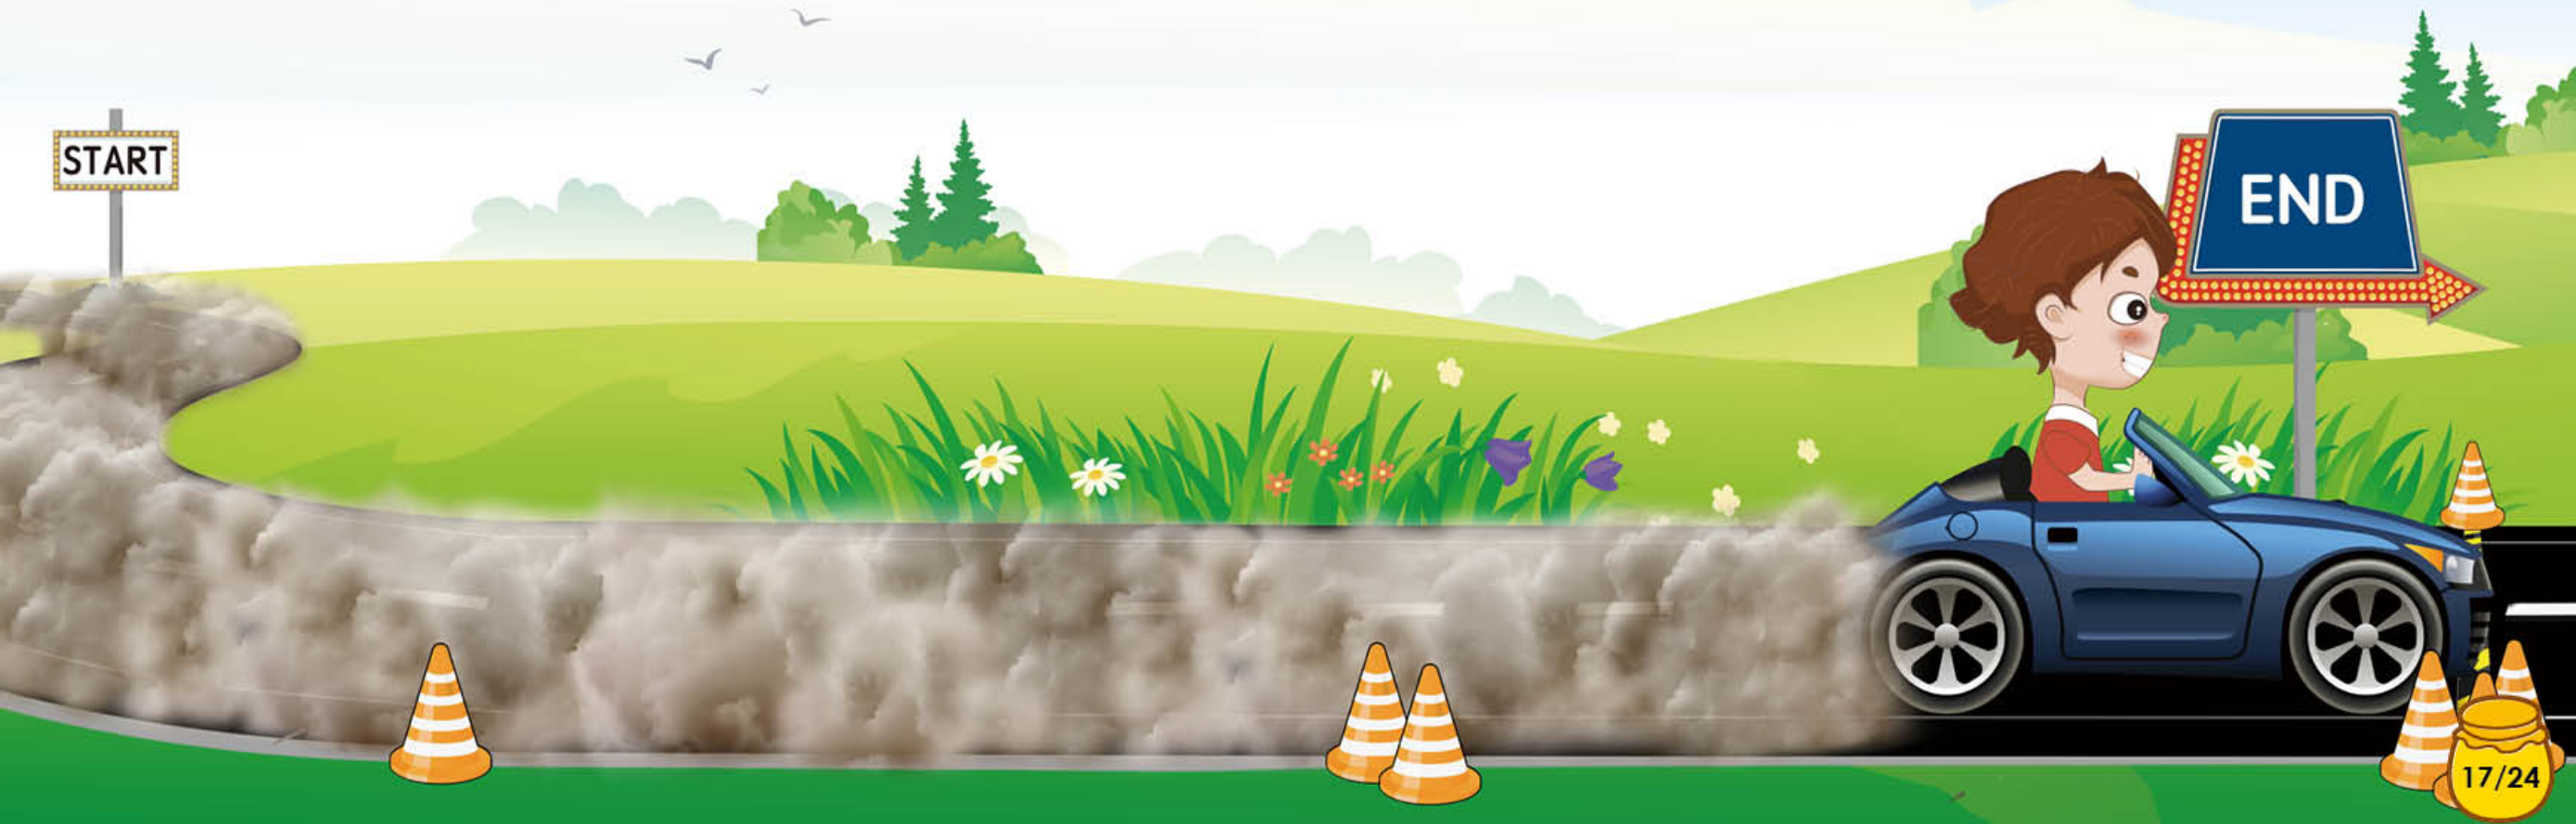

In the future, the next kind of transportation will probably involve space travel. Over the next few decades, perhaps we may even be able to buy tickets for a **space shuttle**!

What kind of transportation do you like for traveling? Why?
