# Introduction

Timmy and Grandpa  
are walking in the park,  
looking at the falling  
leaves.

Grandpa, look at the  
falling leaves!  
Isn't it beautiful?

It sure is, Timmy.  
Fall is coming  
again.

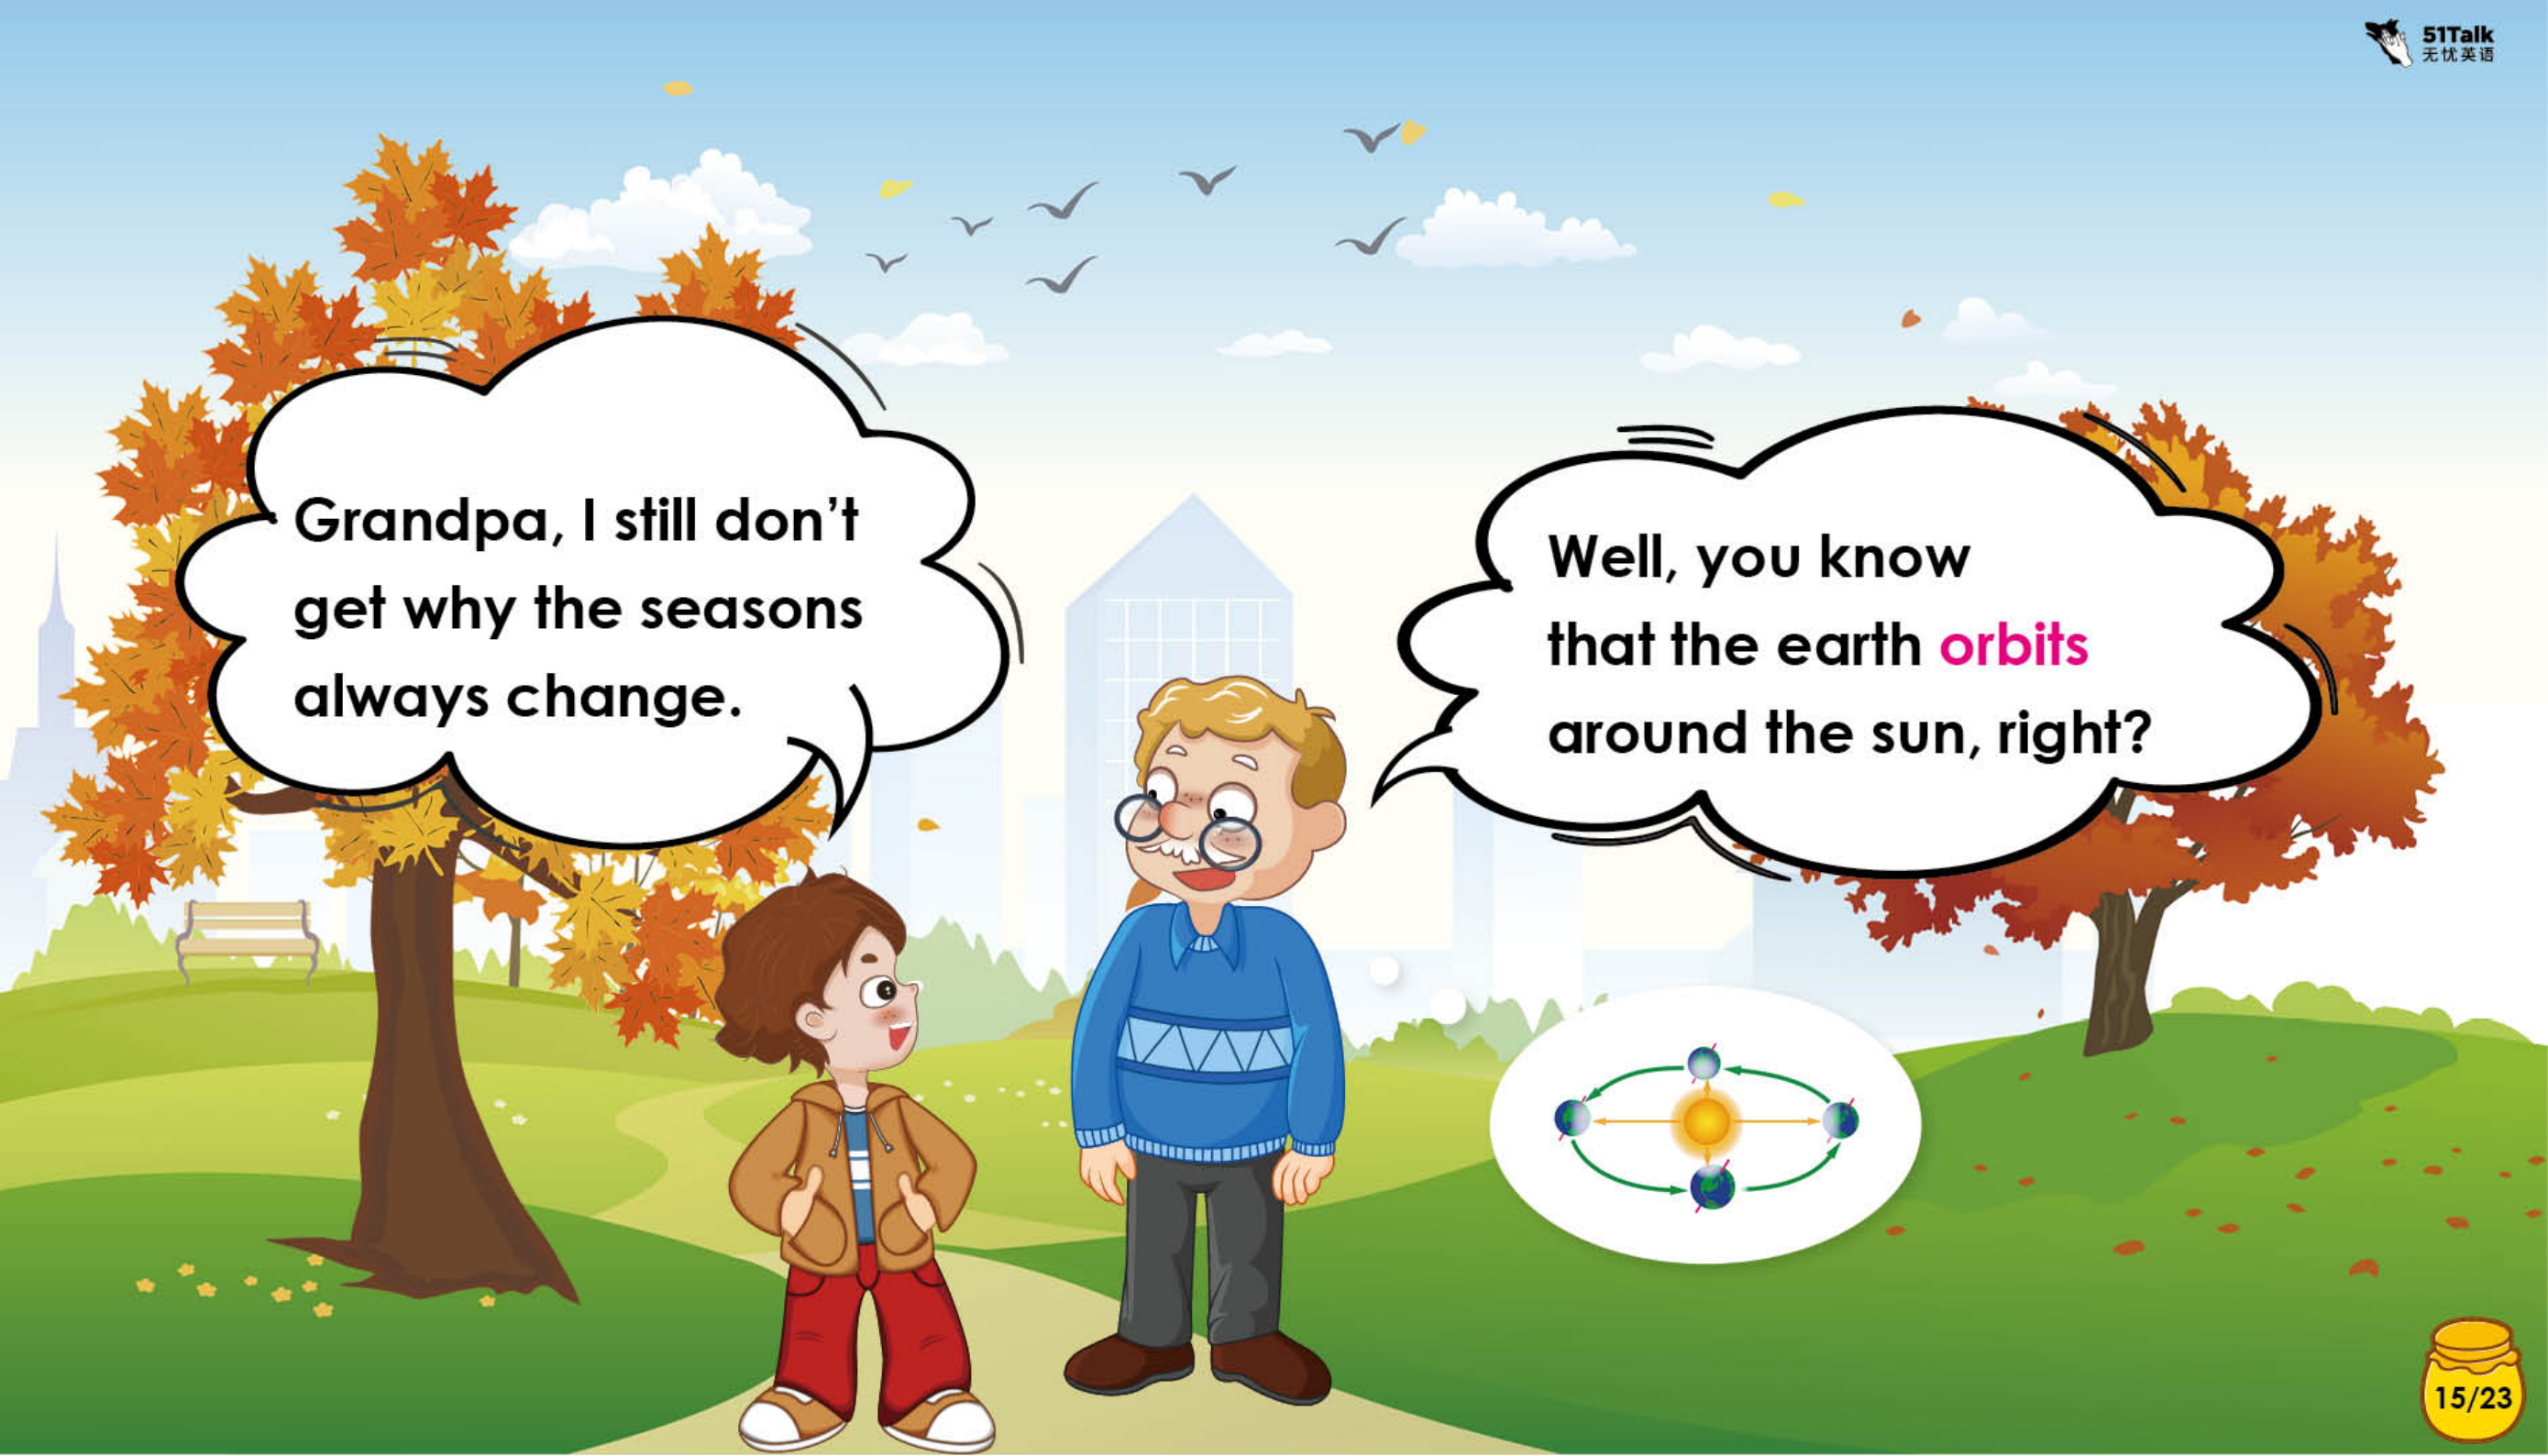

Which is your favorite season, Grandpa? **I like** seeing the leaves in fall, and also the long, hot days in summer.

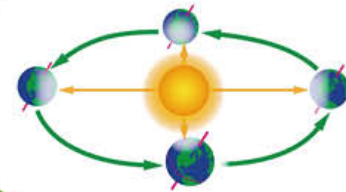

Well, I have some different ideas, Timmy. **I love** seeing the flowers **bloom** in spring. Winter is good too, especially when everywhere is **covered with** snow.

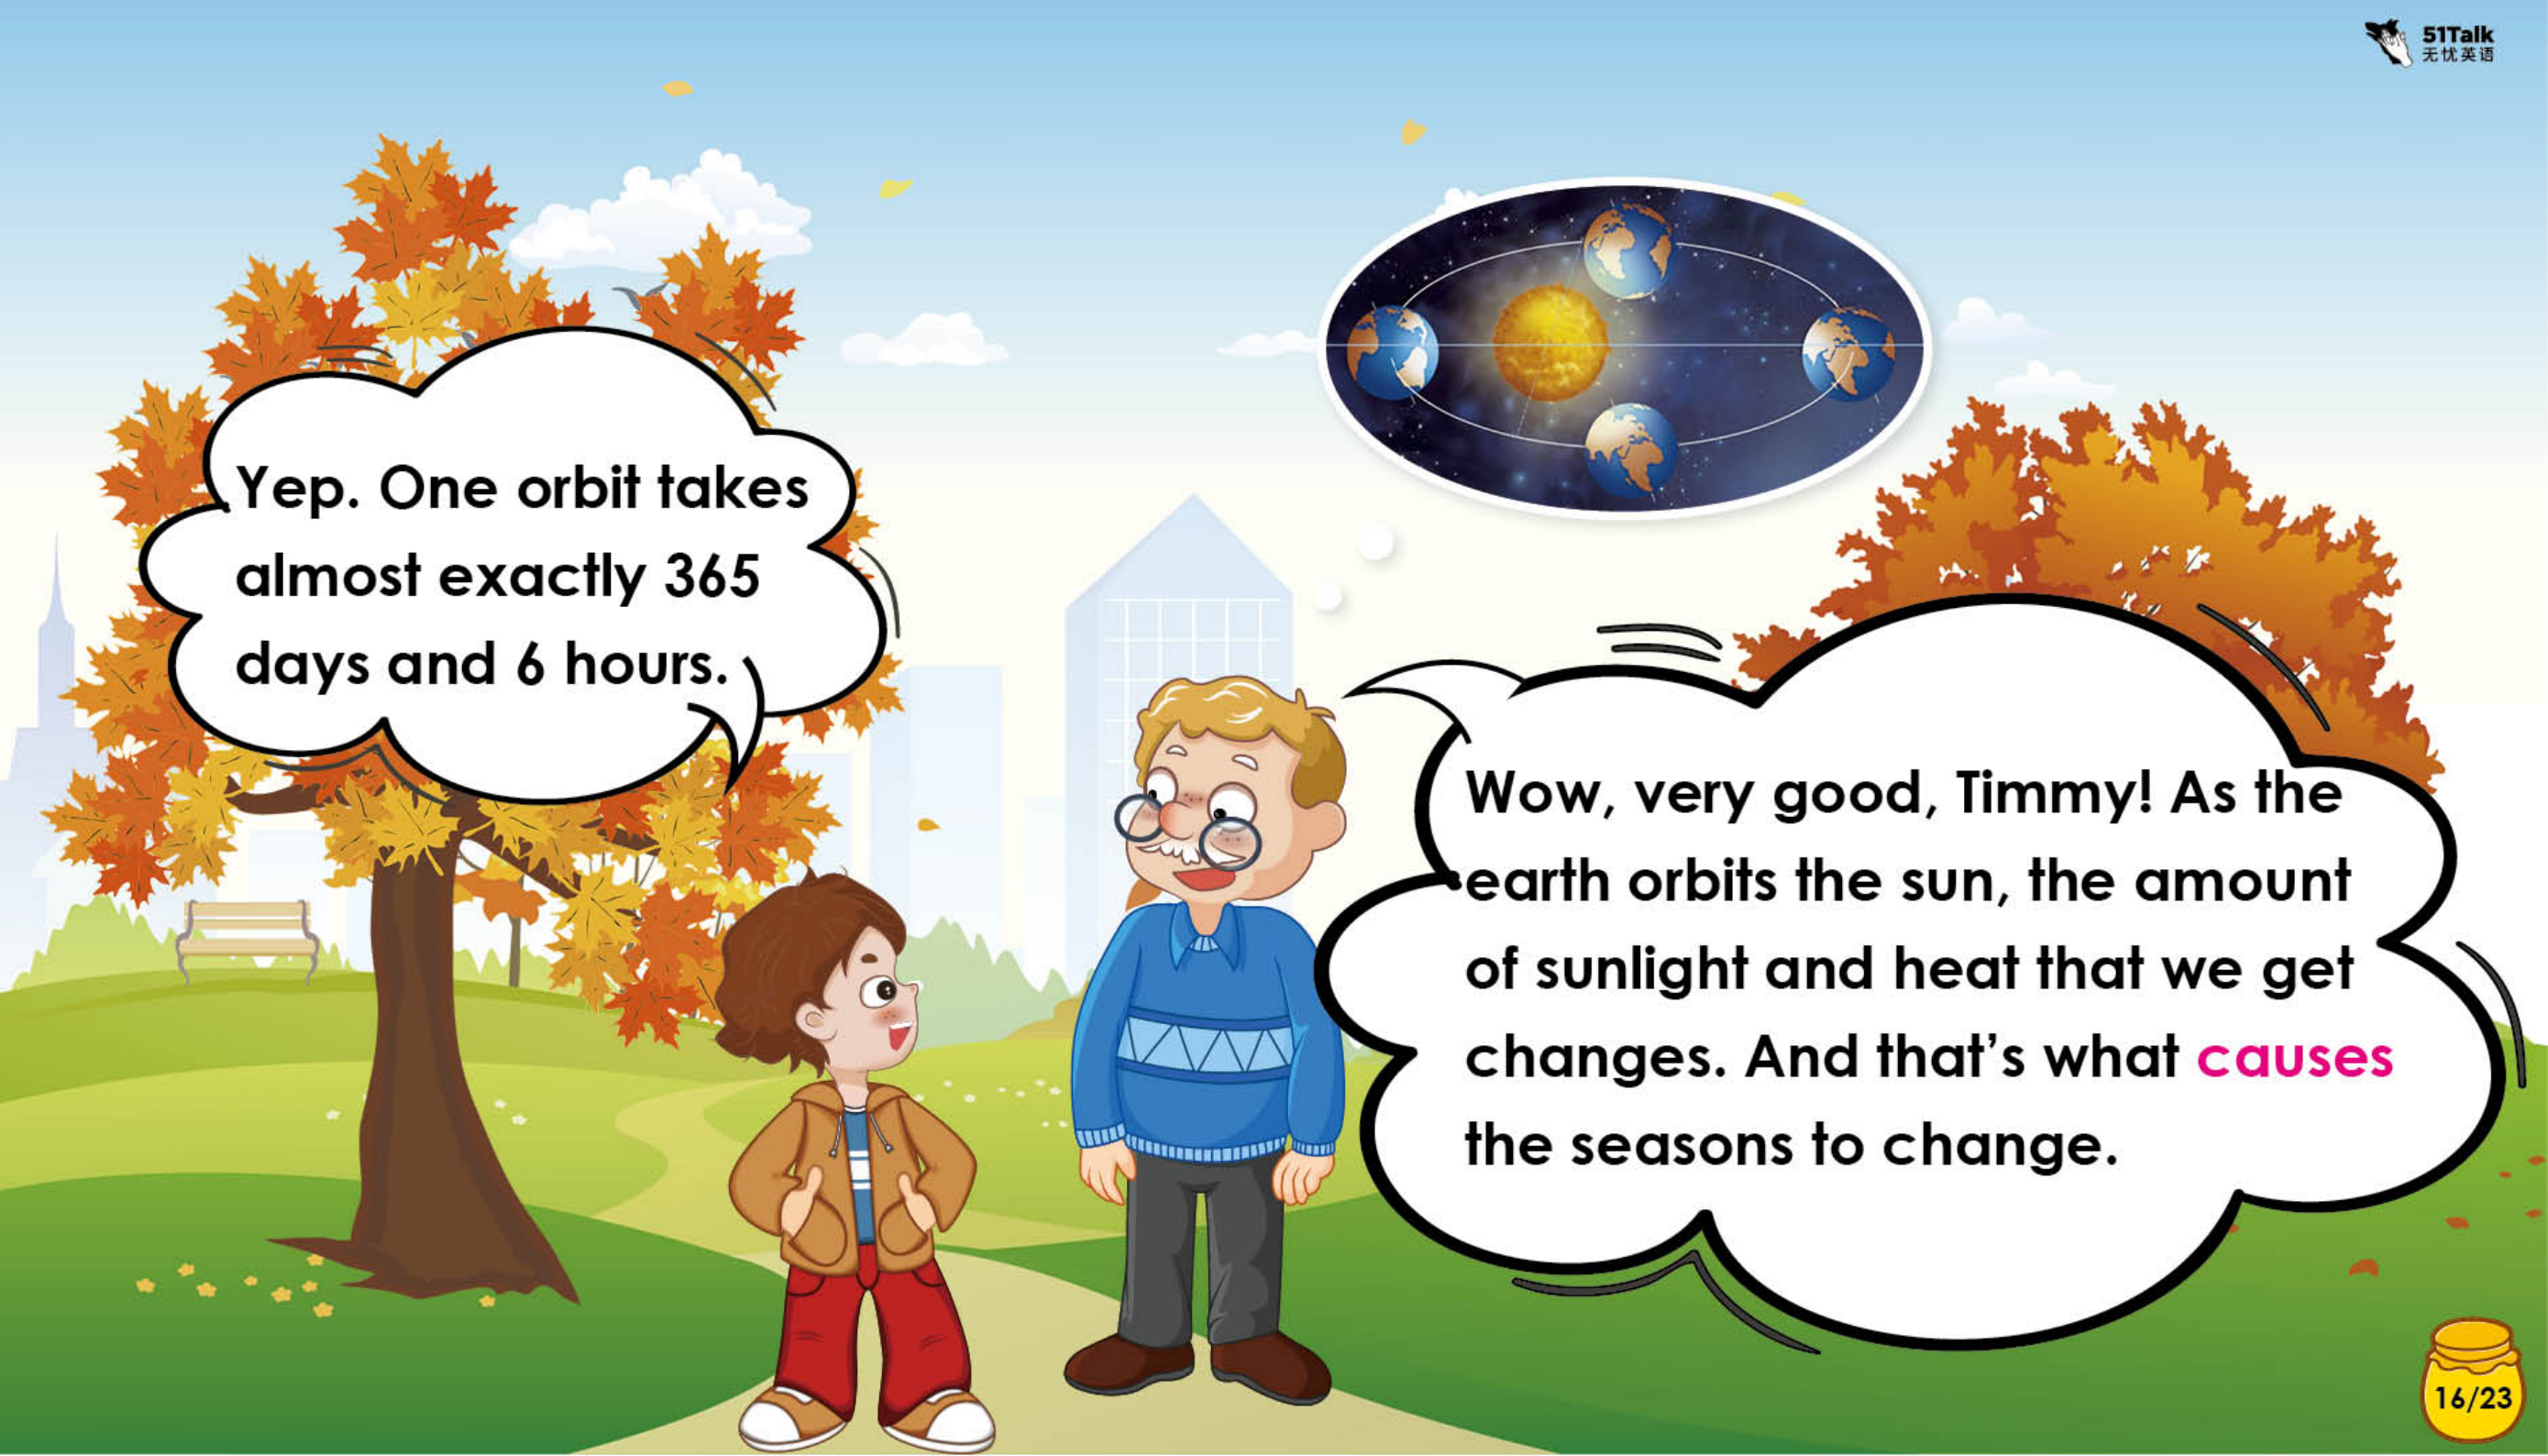

Grandpa, I still don't get why the seasons always change.

Well, you know that the earth **orbits** around the sun, right?

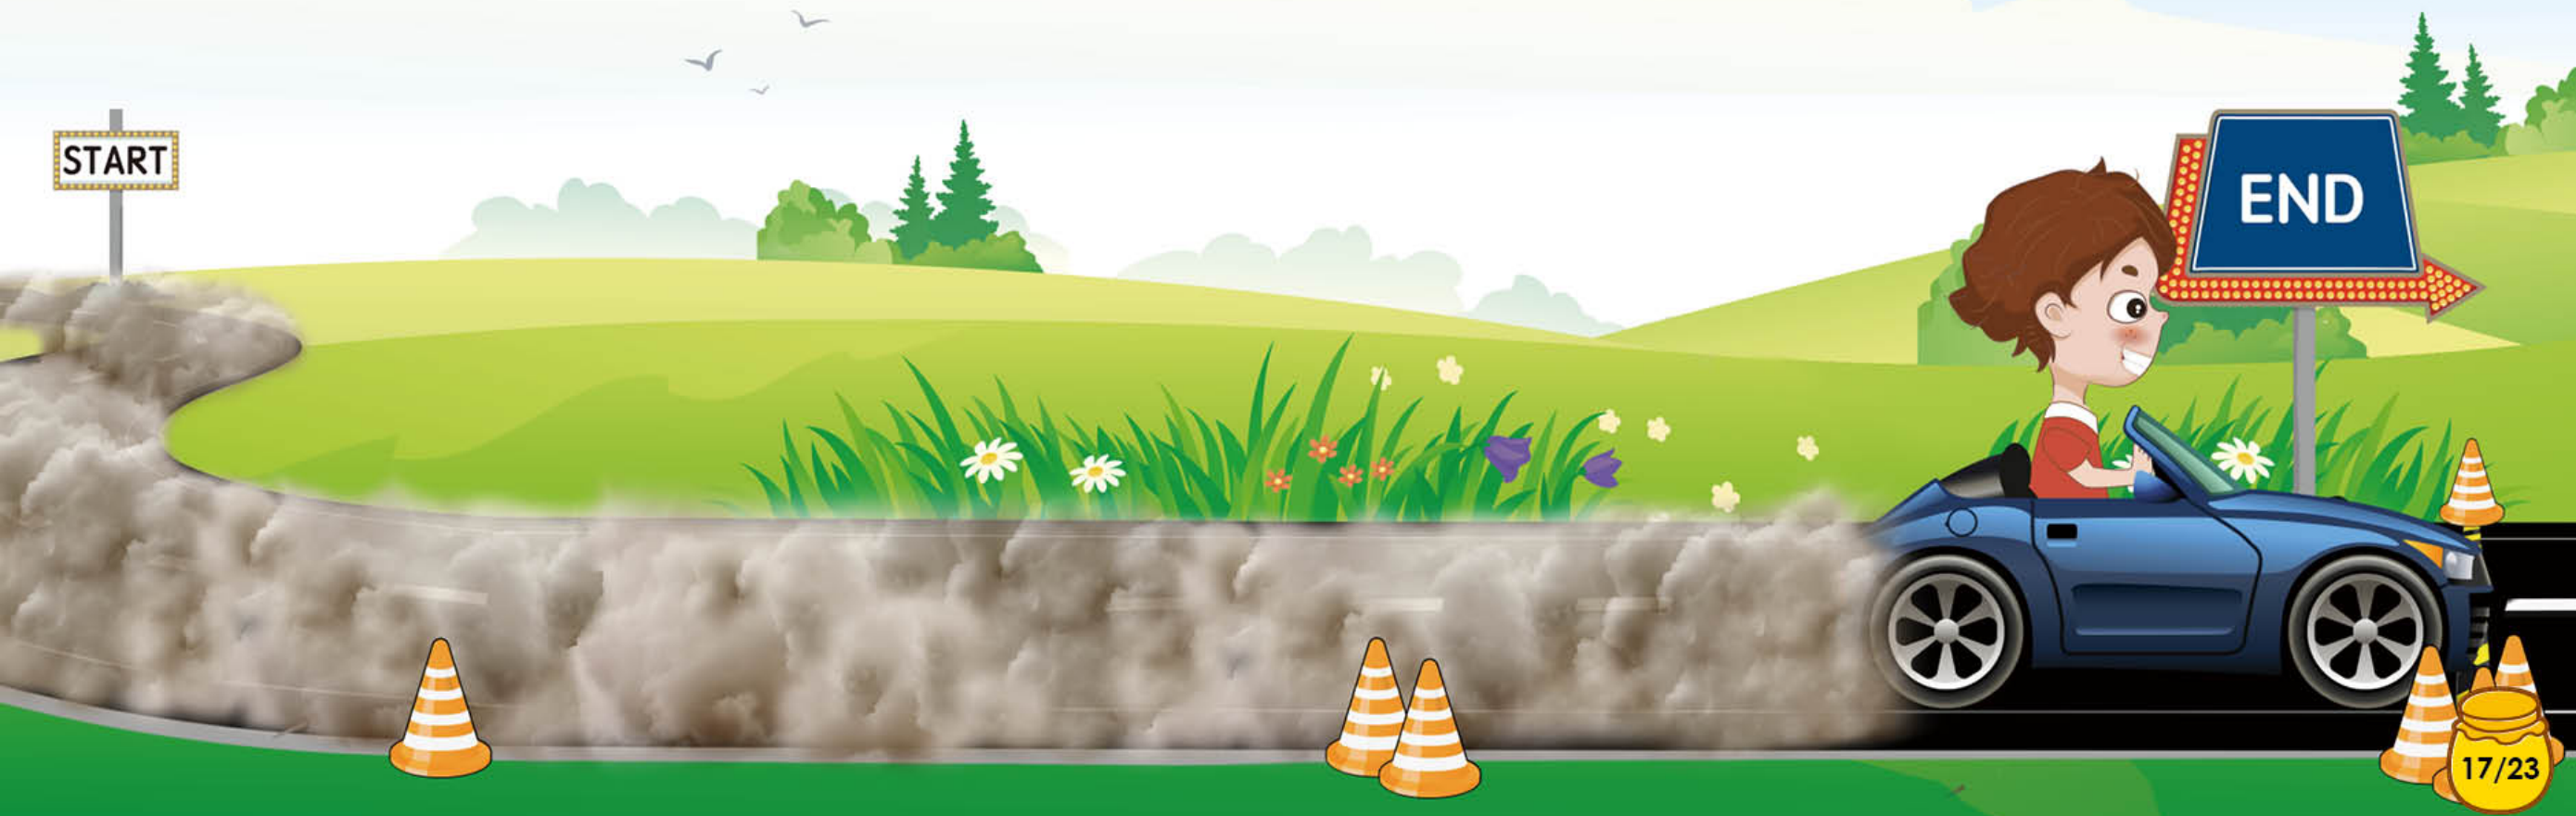

Yep. One orbit takes almost exactly 365 days and 6 hours.

Wow, very good, Timmy! As the earth orbits the sun, the amount of sunlight and heat that we get changes. And that's what **causes** the seasons to change.
