Who is polite?

Sentence Pattern

You **need to** be very careful when you're taking the elevator.

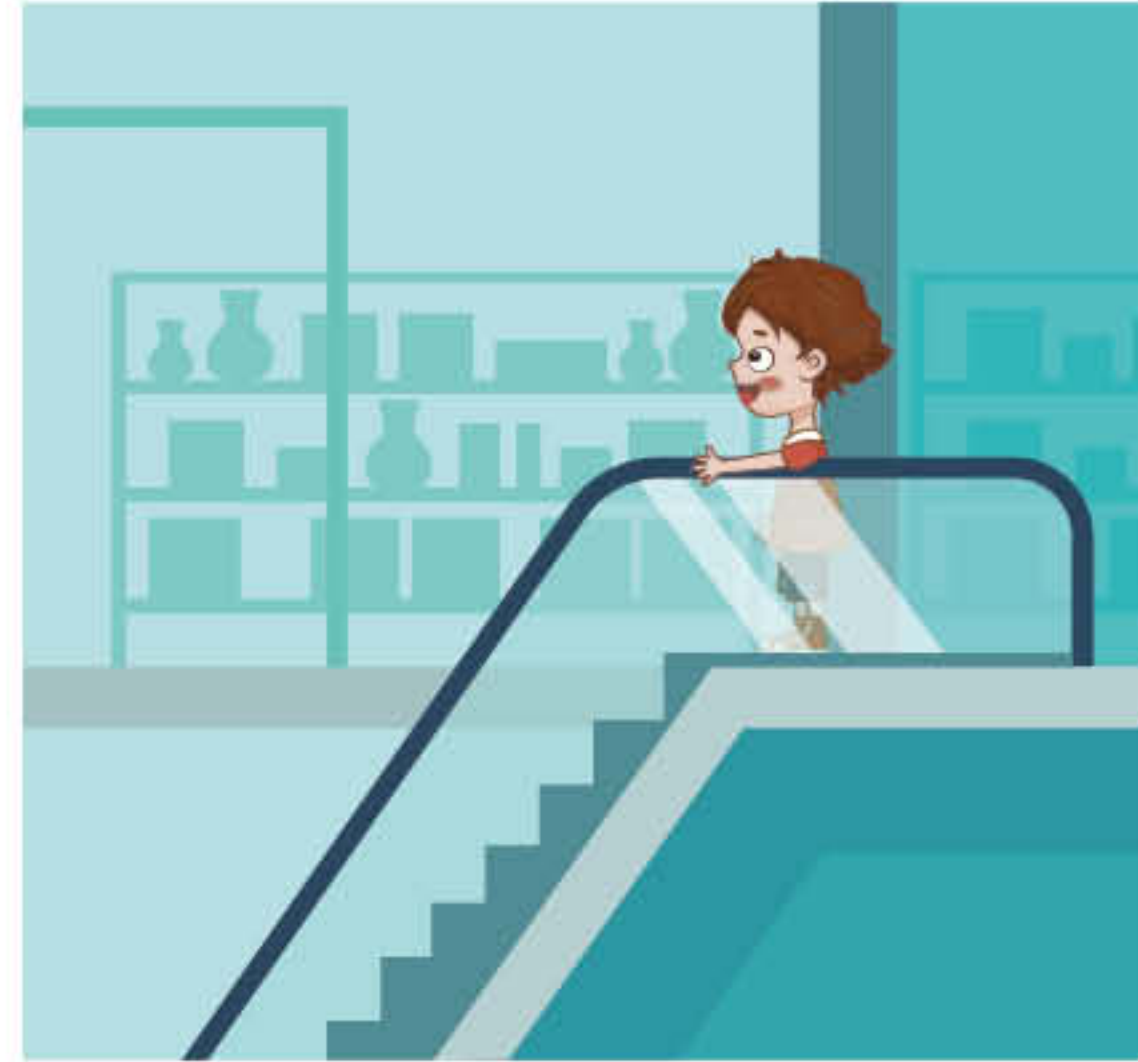

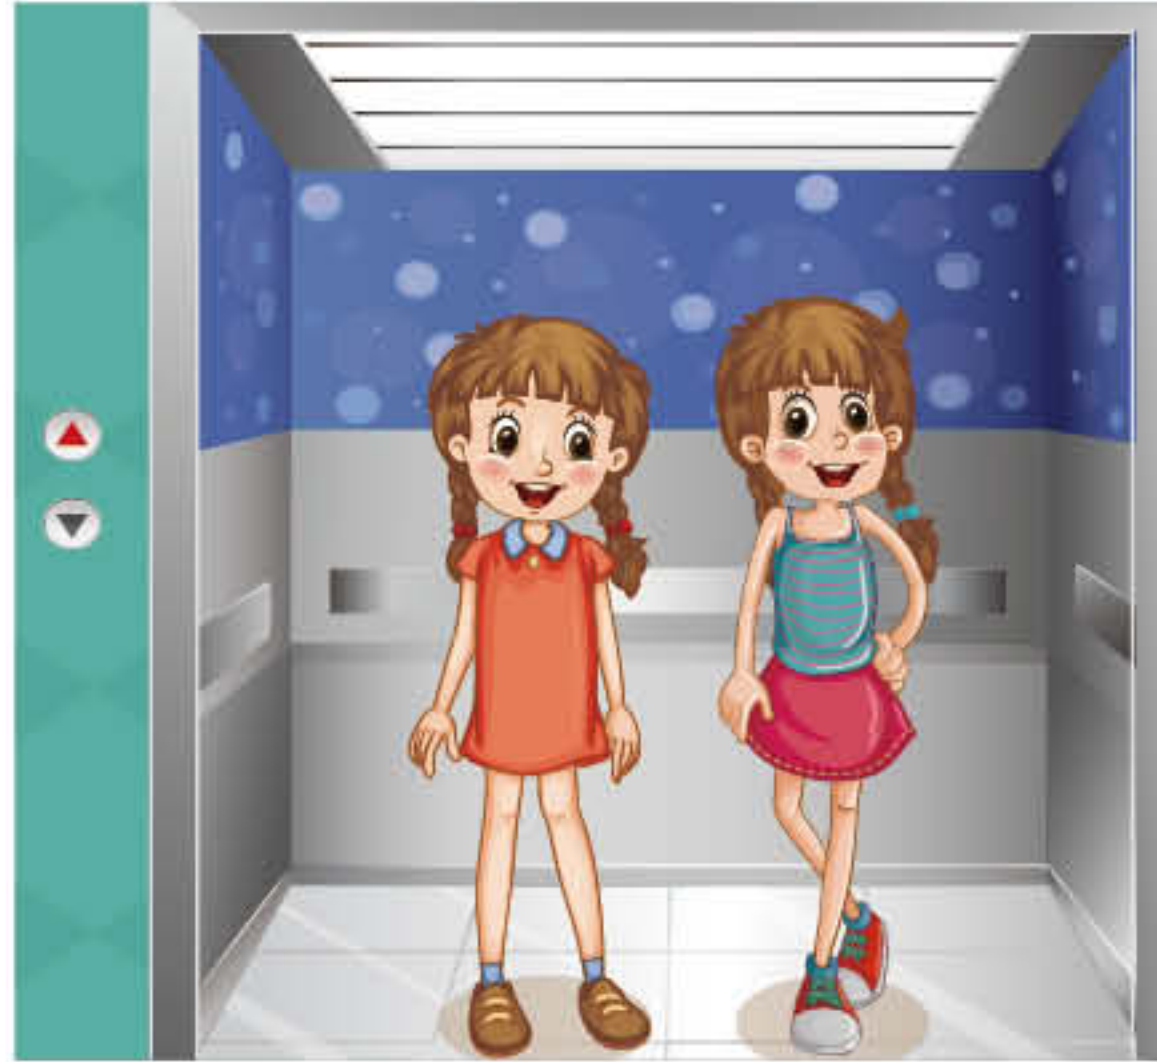

I **need to** finish my homework after school.

I **need to** take medicine when I have a fever.

Let's read!

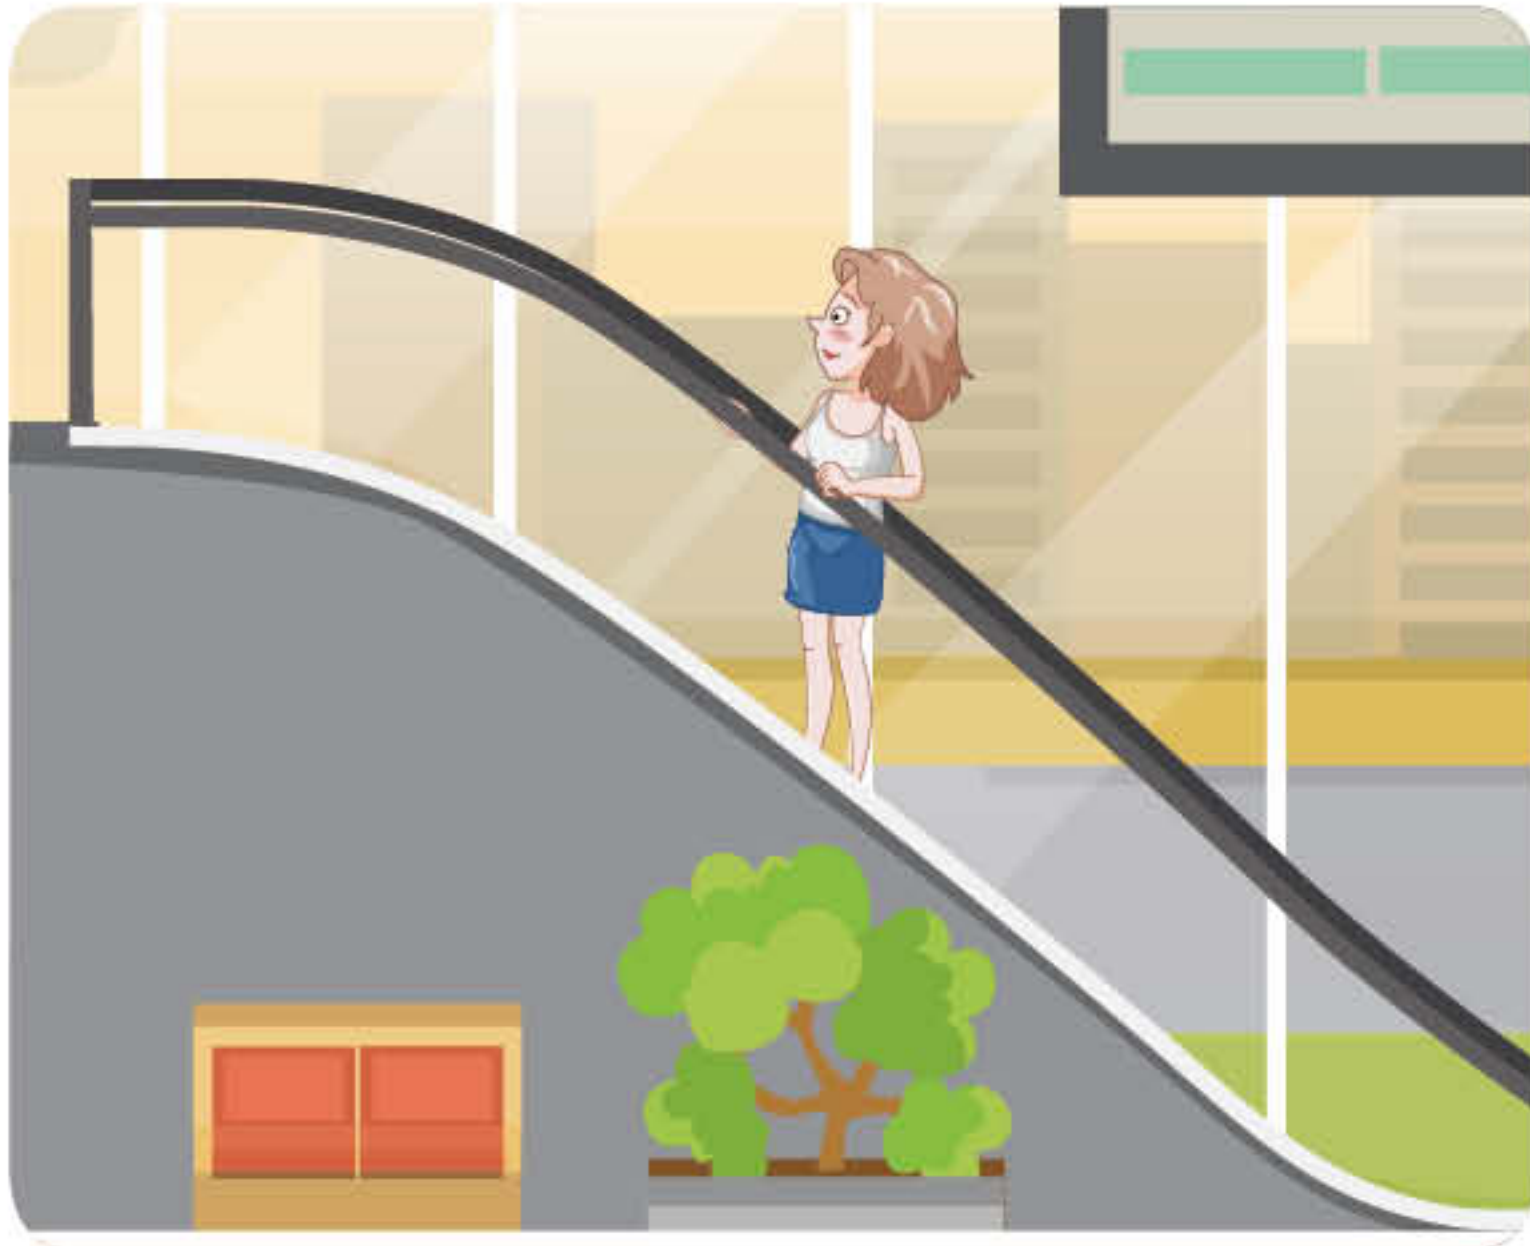

It's very convenient to take an **escalator** or an elevator when we want to go upstairs or downstairs. However, do you know how to safely take escalators and elevators?

How can we go upstairs?

Before stepping on an escalator, always check to make sure your **shoelaces** are tied. On the escalator, you should stand up straight, face forward, and hold the **handrail**. After stepping off the escalator, always move away so others can get off safely.

What should you check before stepping on an escalator?

There are also some rules for taking elevators. Before you get on the elevator, you **need to** let other people get off first. Inside the elevator, you always need to be quiet and **polite**. Don't jump, run, or play with the elevator's buttons.

Is it polite for us to speak loudly inside the elevator?

Here are some more safety tips:

- 1. Press the alarm button if you need help.**
- 2. Do not take the elevator if there is a fire.**

What should we do if we need help in the elevator?

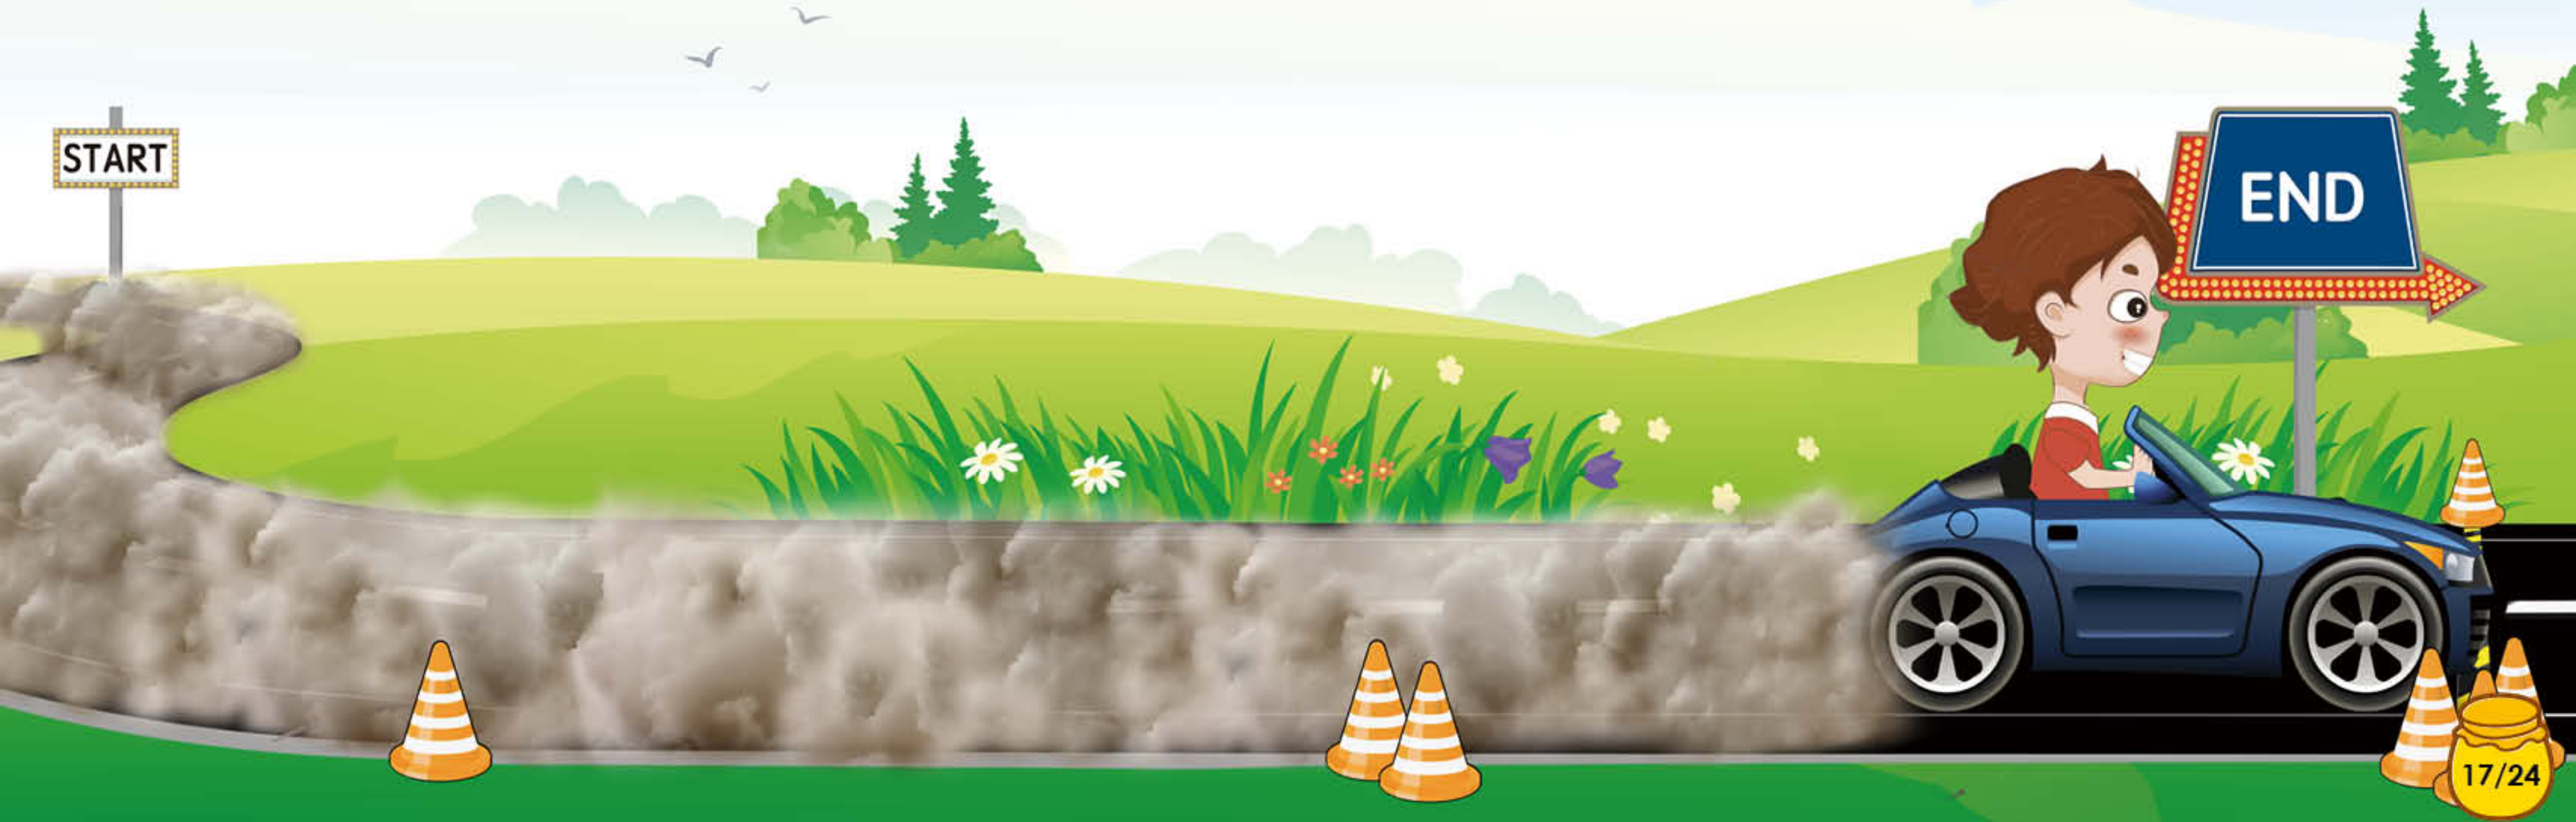

Taking an escalator or an elevator is really easy, but you need to be very careful. Remember: Safety first.

What is the most important thing when we take an escalator or an elevator?

Let's practice !

Activity

Complete sentences with the words in the Word Bank.

Word Bank
