VOCABULARY STRATEGY

Plural: nouns ending in a consonant + y

We use the plural form of a noun to show that there is more than one of something.

With nouns ending in a consonant + y, we drop the "y" and add "ies."

Example:

city – cities

baby – babies

Change the following nouns to their plural forms.

1. butterfly

2. lady

3. puppy

4. candy

5. family

ACTIVITY

Read the passage and answer the questions that follow.

Penguin dads must be the best dads in the animal kingdom. After the mommy penguin lays the egg, it needs to feed in the ocean for two months. The daddy penguin spends two months holding the egg carefully between the top of his feet to keep it warm. He does this without eating.

1. What's the genre of this passage?

☐ fantasy

☐ informational text

2. What's the purpose of this passage?

☐ to inform

☐ to persuade

ACTIVITY

Read the passages to answer the questions.

1. What will the daddy penguin do if the mommy penguin doesn't return in time for the egg to hatch?

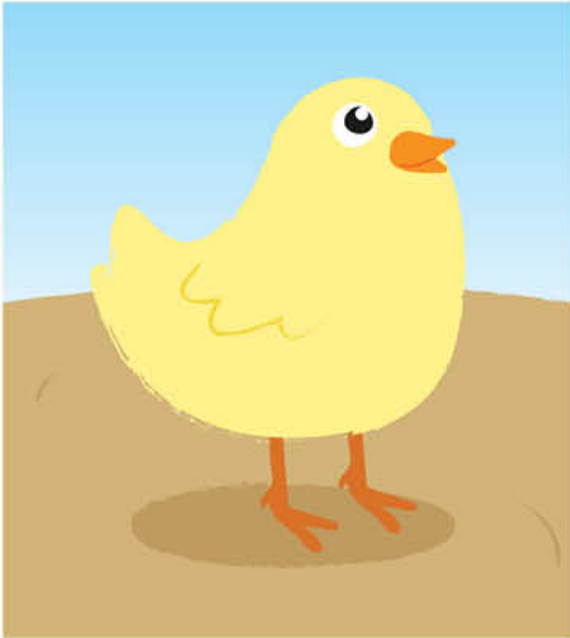

The daddy penguin keeps the egg warm for two months. He doesn't move because the egg might fall down. If the mommy penguin doesn't return in time for the egg to hatch, the daddy penguin will feed the baby penguin.

-
2. Is there any difference if you hatch eggs in incubators instead of under hens?

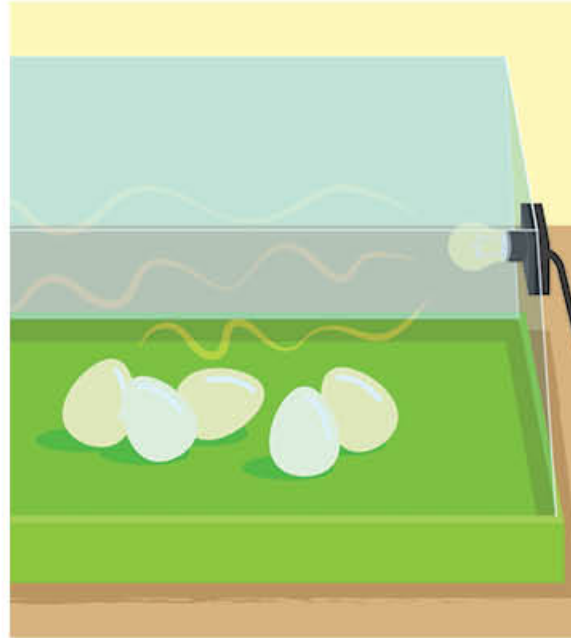

Chicken eggs normally hatch after 21 days. It doesn't make any difference if they were hatched in an incubator or under a hen. There are some occasions when eggs take longer than 21 days to hatch, but this is very unusual.
