Let's read!

It's year 2088. The world's **climate** is so bad that little Mindy and her family have to move to an underwater city. Mindy was sad to leave her home. However, she enjoyed taking the submarine down to the city.

Why did Mindy and her family have to move to an underwater city?

The city looked massive from above. There was a large glass dome with lots of buildings **surrounding** it. It was very busy when Mindy arrived. She enjoyed chasing the signs to their new home. It was like an underwater treasure hunt!

What did the underwater city look like from above?

Mindy's new home was smaller than her old apartment. Mindy was sad at first, but then she saw the special garden room. It had special **artificial** light that was like sunlight. But Mindy's favorite part was her new pet sea turtle!

What was special about Mindy's garden?

Inside the large glass dome was a really big park. The roof looked like blue sky and it was very bright and warm. There were lots of **exotic** plants and animals. Mindy had fun swimming in the dolphin swimming pool.

What was the park like, and what was in it?

Finally, Mindy went to her new school. Mindy was worried about the school food, because she hated eating seafood! However, the cook was really nice and said: "Don't worry! Everyone here hates eating seafood now. So **we're eating noodles and pizza** this week!"

Why was Mindy worried about the school food?
