

Warm-up

Are you living in a town or city?

How many floors are there in your building?

Is there a garden in your building?

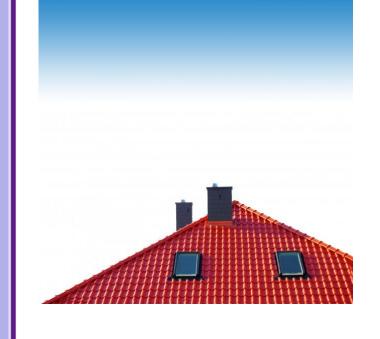

_

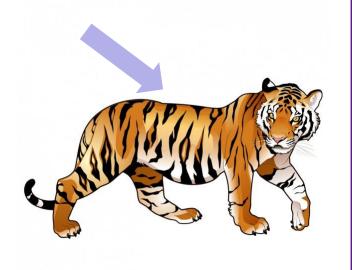

roof

tent

fur

4

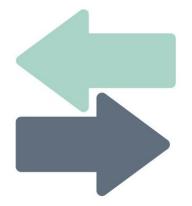

entrance

plant

change

outside inside

3

Classify the words.

balcony basement elevator entrance exit front door garden gate roof stairs grass

inside	outside	between
basement	roof	entrance

3

Classify the words.

balcony basement elevator entrance exit front door garden gate roof stairs grass

inside	outside	between
basement elevator stair	roof balcony gate garden grass	entrance exit front door

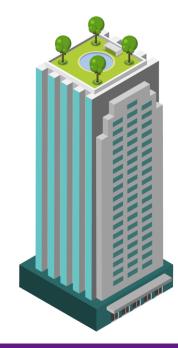

Answer the questions.

What are the differences between buildings thousands of years ago and buildings today?

Talk about the differences such as floors, door, window, entrance,

elevator

11

Read and choose the words to complete the text.

Thous	ands of	years	(1) <u>ago</u>	(sinc	e/for/a	go), p	people o	didn't	stay in	the
same place because they had to travel (2) (for/to/with)										
find	food.	They	lived	in	caves	or	slept	in	tents	(3)
(which/who/what) were made from animal fur. They cooked										
their food on the fire that also kept them warm (4)										
(past/until/during) the long, cold and wet winters.										
Fire	kept	р	eople	S	afe	too	(5)		
(so/but/because) animals are afraid of fire.										

Read and choose the words to complete the text.

Thousands of years (1) ago (since/for/ago), people didn't stay in the same place because they had to travel (2) ______ (for/to/with) find food. They lived in caves or slept in tents (3) which (which/who/what) were made from animal fur. They cooked their food on the fire that also kept them warm (4) <u>during</u> (past/until/during) the long, cold and wet winters. Fire kept people safe too because (so/but/because) animals are afraid of fire.

Our homes (6) ____(has/had/have) changed a lot since then! Most people now live in warm, dry and safe buildings. In some big cities you can find new buildings that might have more (7) _(than/much/many) a hundred floors. These are called skyscrapers. Some skyscrapers have gardens on (8) _____(theirs/their/its) roofs.

Our homes (6) have (has/had/have) changed a lot since then! Most people now live in warm, dry and safe buildings. In some big cities you can find new buildings that might have more than (than/much/many) a hundred floors. These are called skyscrapers. Some skyscrapers have gardens on (8) their (theirs/their/its) roofs.

You can make a 'green roof' by planting different kinds (9) ____ (off/of/for) grass there. On some city buildings, you can also see 'green walls'. In big cities, (10) _____ (makes/making/made) green roofs and walls is a really good idea. The leaves of the plants help clean the air and make our environment much (11) _(better/good/best).

You can make a 'green roof' by planting different kinds (9) of (off/of/for) grass there. On some city buildings, you can also see 'green walls'. In big cities, (10) making (makes/making/made) green roofs and walls is a really good idea. The leaves of the plants help clean the air and make our environment much (11) <u>better</u> (better/good/best).

Read the passage again to answer the questions.

- 1. Why did people often move to different places thousands of years ago?
- 2. Where did people live thousands of years ago?
- 3. What can people do with fire?
- 4. What is a skyscraper according to the text?
- 5. How can we make our environment much better?

There are lots of words in this text that start with the letter 't'. Can you find words in the text beginning with 't'? Circle out them.

Thousands of years ago, people didn't stay in the same place because they had to travel to find food. They lived in caves or slept in tents which were made from animal fur. They cooked their food on the fire that also kept them warm during the long, cold and wet winters. Fire kept people safe too because animals are afraid of fire.

Our homes have changed a lot since then! Most people now live in warm, dry and safe buildings.
