1. Please read and remember the answers for each question in the IELTS Part 1 if needed. (5 mins)

Cell phones, letters or emails, — which ones do you love most? Why?

I prefer cell phones to the other two. The reason is simple — I can **get in touch with** others quickly just by phoning or sending messages.

Why do you think some people are still addicted to writing letters?

I guess the main reason is that letters seem more personal because they are **handwritten** and they take longer to write. Therefore, the person who receives a letter may feel more special because someone took the time to write it for them.

How often do you usually use e-mails?

I use e-mails almost every day. I'm an **assistant manager**. I have to check e-mails to get information about my work. Also, I need to **inform** my colleagues of meetings by e-mail, so I can't do my work without e-mails.

Shorten your answer to 2-3 sentences. It's easier to get 5.5.
