Unit 8 Technology and invention

Topic 5—Lesson 2(下篇)

An app you think is useful

IV. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe an app that you think is useful.

You should say:

what app it is

what contents it has

how you use it

and explain why you think this app is useful.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

What: I am a big fan of cooking, so I **installed** *Cooking With Me*, which I think is the most useful app.

What content: This app is designed to teach people how to cook. It offers users detailed recipes from around the world. Users can easily learn to cook a dish either by watching its short video or reading the recipe. In addition, this app contains the tips on what and how much people should eat for a meal, which helps users to make a healthy eating decision.

How you use it: I usually learn to make dishes by watching short videos because they are much easier to follow than the written recipes. Also, I design my daily menu according to the tips from this app.

Why: This is a useful app for me. It offers me detailed **guidance** on how to cook and what to cook. Now I can make 15 kinds of **nutritious** dishes. All my family members like the dishes I cook and this makes me feel quite proud.

Model 2

What: I have installed many useful apps on my phone, but the one I'm quite familiar with is *AroundMe*, so I would like to talk about it.

What content: *AroundMe* is a free app that allows you to quickly find out information about your surroundings. This app not only identifies your location, but also offers you detailed directions on how to get to the places you are looking for. Besides, it offers users group buying information on the nearest places of entertainment and restaurants.

How to use it: Since I usually travel around by car, I often use this app to find gas stations or parking lots nearby. Apart from that, I use this app to download group coupons.

Why: I like this app because it offers me a lot of convenience. It points me to the nearest gas station and the most convenient place to park my car, which saves me time in finding a place by myself. This is really a useful app to me.

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)

Describe an app that you think is useful.

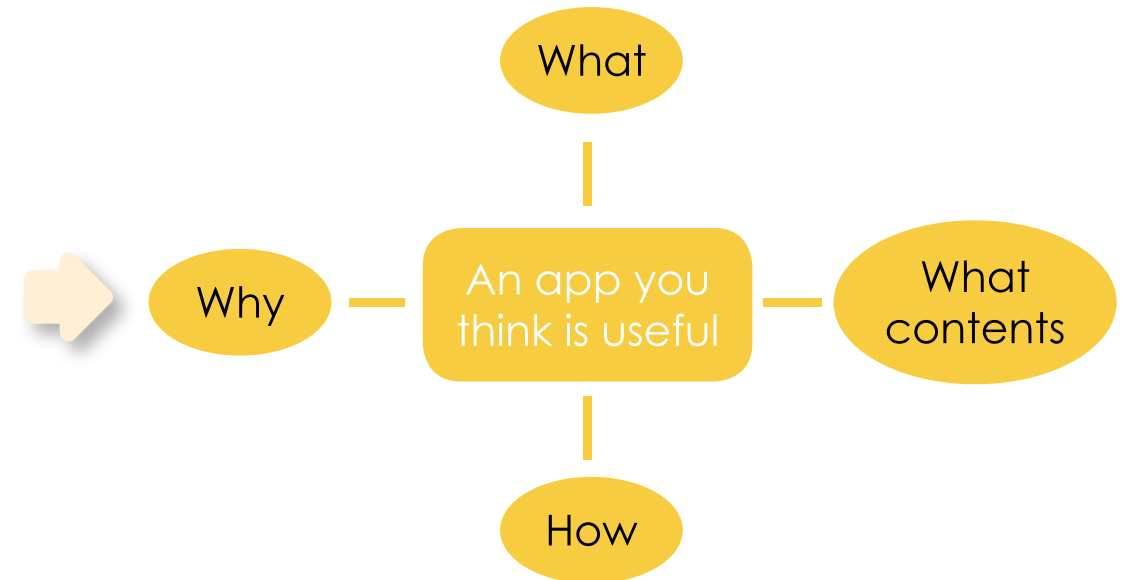

You should say:

what app it is

what contents it has

how you use it

and explain **why** you think this app is useful.

Homework: please use the models further for these 2 topics after the lesson.

Describe a thing that you can't live without.

Describe a thing you think is useful.

IELTS Speaking Part 3 (Additional Practice for This Topic)

Do you think the cost of phones is reasonable in china? Is the fee for international phone calls very high?

Do you think landlines will be replaced by cell phones one day? **Why or why not?**

Do you think cell phones will be replaced by some other unknown high-tech stuff some day?

V. Summary (5 mins)

Key words

get in touch with

handwritten

assistant manager

inform

install

guidance

nutritious

group buying

coupon

convenience

Key sentences

I prefer cell phones to the other two. The reason is simple — I can **get in touch with** others quickly just by phoning or sending messages.

I guess the main reason is that letters seem more personal because they are **handwritten** and they take longer to write. Therefore, the person who receives a letter may feel more special because someone took the time to write it for them.

I use e-mails almost every day. I'm an **assistant manager**. I have to check e-mails to get information about my work. Also, I need to **inform** my colleagues of the meetings by e-mail, so I can't do my work without e-mails.

I usually learn to make dishes by watching short videos because they are much easier to follow than the written recipes.

This app not only identifies your location, but also offers you detailed directions on how to get to the places you are looking for.

It points me to the nearest gas station and the most convenient place to park my car, which saves me time in finding a place by myself.

The next lesson will be Unit 8 Topic 6 An item of technology you couldn't be without.
