2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

When: Only two years ago, I chose to study at Beijing University of Chinese medicine, which was really an important choice in my life.

Why and how: It was a difficult choice because I wanted to be a doctor as well as a teacher at that time. I felt quite **unsure** about which one I should choose at that moment. After taking my **strengths** and interest into consideration, I decided to go to study at Beijing University of Chinese medicine and become a doctor.

Whether: Now as a medical school student, I am busy with my courses every day. It is tough sometimes because there are so many things to remember and so many experiments to do. However, I believe that I made the right choice because all the things I do are meaningful and will **pay off** one day.

Model 2

What and When: I guess the most important choice I made was to study abroad. I made the choice last year, once I graduated from my university.

Why: Actually, it had been my dream to further my education in Britain. On the other hand, I had received a job offer from a great company.

How you felt: It was really a difficult choice, so I asked my parents and friends for advice. All of them suggested that I should study abroad. They believed that studying abroad was really eye-opening and it would help my future career.

Whether: Based on their advice and my own interest, I made the choice to study abroad. Although it's still hard to say whether it is a good choice or not, I feel pleased that I had the opportunity to make my dream come true.

You are required to talk for the full 2 minutes.
