Unit 6 Nature

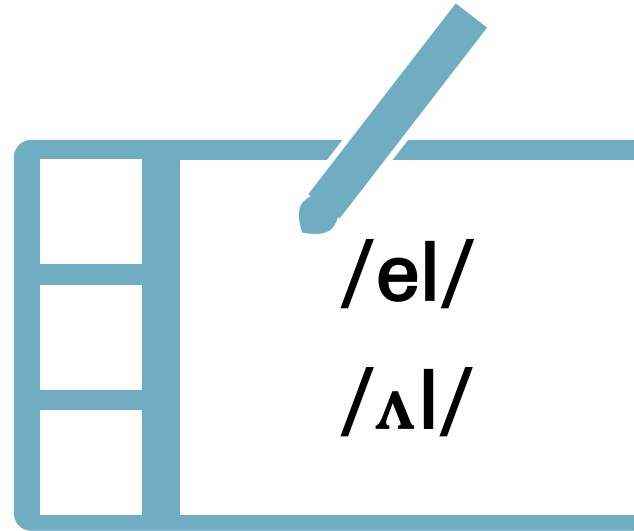

Topic 4—Lesson 1(上篇)

A thing that you can do to improve the environment

I. Pronunciation practice (5 mins)

Try to read the tongue twister as fast as you can.

It seems to be part of a cult; one has to wear a cluster of multi-type shells melted into the shape of a skull.

II. IELTS Speaking Part 1 (10 mins)

1. Read and learn the following key words and sentences for the IELTS Part1. You are suggested to apply these words in the following steps. (5 mins)

Key words and key sentences

significance

 Example: I personally love to travel. Traveling in general gives me the chance to explore my surroundings. I can visit a place of historical **significance** or simply visit a beautiful natural landmark such as a mountain. Whenever I start to travel, I can gain new insights into how people from other areas live, which can open me up to exciting adventures.

throughout

 Example: I have travelled to only a few places within China; I have been to Shanghai, Shenzhen, and Suzhou. My favorite area of China to visit so far is the South East city of Suzhou. It is an amazingly green city with magnificent parks located **throughout**, which is exactly to my liking.

exotic

 Example: The most recent trip that I have taken was to St. Petersburg in Russia. It was an exhilarating experience that included eating **exotic** food and meeting many intriguing contemporaries. I had the chance to experience the sensational white nights that the city is famous for, and I also had the chance to shop along the famous Nevsky Prospect Street.

Extend your answer to 3-4 sentences. It's easier to get 6.5.

2. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (5 mins)

Do you like travelling? Why or why not?

Where have you traveled in China? Which place did you like best? Why?

Tell me **something about your recent travelling?**

Tips for getting a higher score:

1. Answer directly
2. Give reasons

III. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe a thing that you can do to help improve the environment.

You should say:

what it is

how you do it

and explain what benefits it can bring.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Read and learn the following key words and sentences for the IELTS Part 2. You are suggested to apply these words in the following steps. (6 mins)

Key words and key sentences

switch

Example: She started studying English at college, but **switched** to Business Studies in her second year.

burden

Example: I'd hate to be a **burden** to you when I'm older.

degrade

Example: These chemicals quickly **degrade** into harmless compounds.

stick to

Example: We'd better **stick to** the main road, because the other roads are blocked with snow.

3.1 Here is a model for the IELTS Speaking Part 2. We will focus on the sentences highlighted below. (4 mins)

Model 1

What: I have just come across an idea for environmental protection, which is carpooling with friends or colleagues who share the same commute in order to cut the number of cars on the road. I suppose people would find it considerably profitable, and in the meantime, make a tremendous impact on our environment.

How: I plan to carpool with three other colleagues who live in the same community. We can meet at the parking lot of our community, and then all get into the same car and drive to work together, or if there is someone who gets up late, we can pick him up at the front door of his house. We would probably switch the driver every day so that it won't be the same person driving all the time.

What benefits: We can not only save money on fuel, but also reduce our carbon footprint by cutting down the carbon dioxide our cars produce when we drive separately. It can also help reduce traffic congestion, thus there will be less fuel and time wasted during traffic jams. Moreover, a decreased number of cars can also reduce the burden of producing, maintaining and recycling them.
