In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

What the website was: Well, the first website that came to mind when I saw this topic was Taobao.com, the first advanced **personal e-trade platform** in China, which is financed by Alibaba.

What the website contains: The main things you can buy are mobile phones, **digital equipment**, cosmetic products, clothes, furniture ,books ,food and so on. I mainly go on it to buy digital equipment and books.

Why it was useful for you: One of the best things about this website is that the products are cheap and have good quality. We trust each other and this website makes the world seem so small. You can buy something made in another country without going to that country. What's more, we can easily communicate with sellers and pay safely for its **payment** system. At the same time, I can sell things I don't need any more and get some money back to purchase another thing I want. This is really my favourite website.

Model 2

What the website was: My favourite website is Sina. It is as successful a website as Baidu and Renren in China.

How you found the address for this website: I **accidentally** found this website online. I can still remember the first time I visited this website, which was way back in junior high. Now, I visit it every day. I have to say I'm **addicted** to it nowadays.

What the website contains and why it was useful to you: I like this website so much because it's very informative and entertaining. It offers **loads of** information like the latest world news, changes in the financial market and reports about sporting events. Also, it gives us the latest news about movie stars, famous singers and TV programs. The layout of the web pages is very organized and user-friendly. Another reason I really adore Sina is its founder Wang Zhidong is a hero to young folks. So we can say, Sina is more than a leading website, it's also an inspiring successful story to us.

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)

You should say:

what the website was

how you found the address for this website

what the website contained

and explain **why** it was useful to you.

Homework: please use the models further for these 2 topics after the lesson.
