

JOURNEY to the WEST 106

The Question

Guanyin looked at the messenger in surprise.

“What is the problem?” she asked.

“We’ re moving so fast!”

said the Tang Monk, smiling.

The messenger whispered something in the guard's ear.

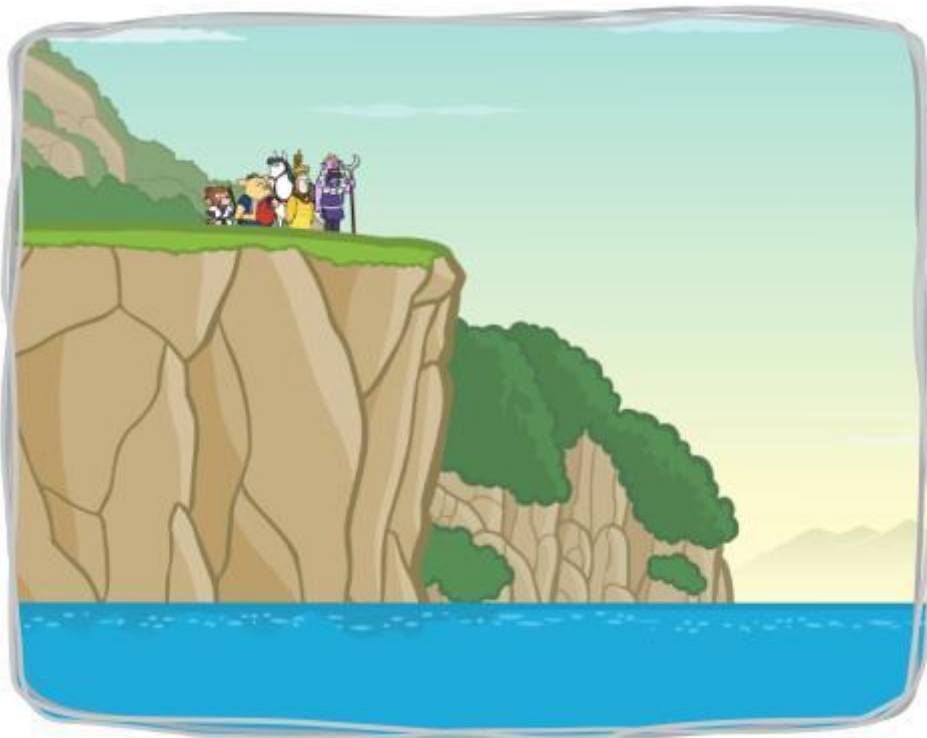

Instantly the spell broke,
and the travelers fell from the sky.

Wukong turned slowly to the Tang Monk.

“I think I know why he dropped us, Master.

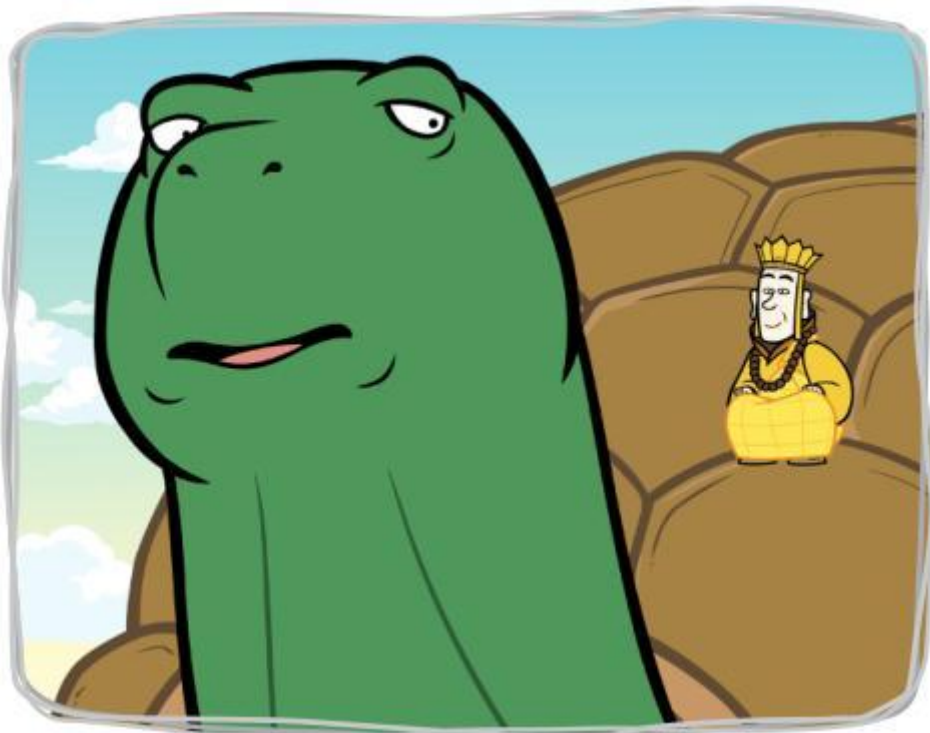

“The first problem is crossing this river,”
said Wujing.

Suddenly a large form rose from the river.

It was an enormous turtle.

The travelers climbed on,
and the turtle started across the river.

The turtle suddenly dived under the water,
dumping everyone off his back.

“Help!” yelled the monk.

“The True Scriptures!” cried the Tang Monk.

“They’ re ruined!”
