Model 2

What: I would like to describe a rule which has caused many changes at my school. This rule requires every student to do physical activity after school for at least 30 minutes.

Why: As an increasing number of students complained that they did not have enough time to play sports and felt **pressured** in school, teachers decided to enforce this rule. Most parents speak highly of this rule. In their opinion, the declining level of health among students is mainly caused by their lack of exercise.

How: Every day, the gym and playground are open to all students after school. If students don't exercise regularly, he or she may fail in the final PE examination.

Why you agree or disagree: We **basically** supported this rule because after school we can participate in some sports and have a break rather than give way to studies. After this rule was enforced, many students became healthier than before because of regular exercise.

You are required to talk for the full 2 minutes.

4. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please describe the topic below with what you have learned to make your description better. (5 mins)
