Describe a time when you were caught in a traffic jam.

You should say:

when and where it happened

how you passed the time when you were waiting

and explain how you felt when you were in the traffic jam.

3.2 Here is another model for the IELTS Speaking Part 2. We will focus on the sentences highlighted below. (4 mins)

Model 2

When: A traffic jam is the last thing anybody wants to experience. On the first day of last National Holiday, I came across a traffic jam which was an absolute nightmare.

Where and how you felt: I took a bus to a friend's birthday party that day. As I knew there might be more traffic on the road than usual during the holidays, I set off early in the morning to avoid potential traffic jams. The traffic was quite smooth until the bus entered a tunnel. I was very surprised to find that the traffic in the tunnel was bumper to bumper. All the vehicles hardly moved. I got really anxious and annoyed while being stuck in the bus. My friend's birthday party would start in two hours. It seemed that I would probably miss the party.

How you passed the time: While waiting in the traffic jam, I made a phone call to my friend and she kindly comforted me. Then I watched a movie on my iPad to kill time. After I had been stuck in a uncomfortably small place for two hours, the traffic finally became smooth. When I arrived at my friend's home, the party was already over. That day, I felt really unblessed.

You are required to talk for the full 2 minutes.

IV. IELTS Speaking Part 3 (10 mins)

1. Read and learn the following key words and sentences for the IELTS Part 3. You are suggested to apply these words in the following steps. (5 mins)

Key words and key sentences

abundant

 *Example:* I live in a city with a dense population, so the traffic issues in my area are **abundant**. The first issue is that every day during rush hour, there is so much traffic, often caused by accidents. At the same time, due to the heavy traffic, air pollution is always a major concern in my city.

commute

 *Example:* The traffic problem in my city mainly affects how I **commute** to work. Because of the heavy traffic, I usually have to take the subway to work. The subway is always crowded, so by the end of the trip I am stressed out and wet from sweat. Another effect is that the heavy traffic causes a large amount of pollution, so I have to wear a mask while travelling to work.

implement

 *Example:* In my opinion, the government should limit the amount of vehicles that can be driven on weekdays. For example, the government should **implement** a lottery program to reduce the traffic. Also, they should build better organised highway systems that would reduce traffic on popular routes. By cutting down on the number of vehicles, the amount of pollution in the air could also be reduced, thus improving both related issues in my city.

2. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (5 mins)

Please give two supporting ideas at least for each question.

What traffic problems are in your area?

How do traffic problems affect you?

How can the traffic problems be reduced in your area?

Tips for getting a higher score:

1. Answer directly
2. Give reasons

Key sentences

Definitely, I find art to be a fascinating pastime and field of study. When I visit an art museum, I can see a large variety of different forms of art which are a **feast** for my eyes.

As a child, my only **exposure to** art was through school field trips. Every year we would visit a place of cultural significance or a place that includes both learning and fun.

I think art in school serves as an **irreplaceable** function for children and young adults. Art appreciation allows students to analyse art and have deeper thoughts about their lives and how it relates to the past.

I live in a city with a dense population, so the traffic issues in my area are **abundant**. The first issue is that every day during rush hour, there is so much traffic, often caused by accidents.

The traffic problem in my city mainly affects how I **commute** to work. Because of the heavy traffic, I usually have to take the subway to work. The subway is always crowded, so by the end of the trip I am stressed out and wet from sweat.
