Topic 5—Lesson 2(下篇)

A traffic jam

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a time when you were caught in a traffic jam.

You should say:

when and where it happened

how you passed the time

when you were waiting

and **explain how** you felt when you were in the traffic jam.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

When and where it happened: A few years ago I was caught in a terrible traffic jam. This was such an unhappy experience that it has **been ingrained in** my memory. It happened in December on a busy intersection in my hometown. Vehicles were backed up for miles. **There was a horrendous multiple car pile-up that caused the jam and various news vans added to the problem.**

How you passed the time while you were waiting: **The traffic jam lasted so long that I had plenty of time to kill.** I passed the time by playing a new mobile game I had just bought. The game I played is the one everyone is familiar with, the Angry Birds. I do not usually spend such a large amount of time playing games; however, my cell phone was the only thing I had with me at the time.

How you felt when you were in the traffic jam: To be honest, I felt as if I were a bird in the game. **I got very angry about having my precious time wasted in such a boring way.** The worst part about traffic jams was the other drivers. They were always **honking their horns** as if it could help the traffic move faster. In my eyes, they were complete **morons**. Just then I suddenly realised that a best way to conquer traffic jams was to ask people to avoid driving their own cars whenever possible!

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

What is the traffic situation like in your hometown?

I: The traffic situation in my hometown is quite horrendous.

P1: In fact, there are too many vehicles running on the busy streets, particularly during rush hours on week days. Thus, being trapped in traffic jams due to multiple car **pile-ups** has become a common issue for most working people.

P2: What's worse, poor **road maintenance** also contributes to other traffic problems here. The roads are in such terrible conditions that multiple accidents happen at least once a week. The accidents have caused many deaths and injuries , and therefore immediate measures must be taken by the government.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What is the advantage and disadvantage of riding a bike in your city?

The main advantage to riding bikes in China is ironic since the main disadvantage is directly related to it. The advantage is that you can be part of the green movement, which means you can help reduce the awful pollution that permeates throughout Beijing. The disadvantage is that now the pollution level is still dangerously high, so riding a bike in my city could lead to devastating health problems.

What major problems might a city have if the use of private cars continues to increase?

There are many problems that can occur due to a multitude of vehicles on the road. Issues are **exuberated** by the fact that these vehicles are normally on the road during peak commuting hours. There are issues with pollution and issues with traffic accidents that also lead to issues with overcrowded hospitals. Of all these issues, pollution is by far the worst. It does not only affect people, but it also has negative impacts on animals.
