Unit 6 Nature

Topic 4—Lesson 2(下篇)

A thing that you can do to improve the environment

IV. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe a thing that you can do to help improve the environment.

You should say:

what it is

how you do it

and explain what benefits it can bring.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

What: As far as I know, there are many people who still lack clean drinking water around the world. As an **environmentalist**, I try to protect the environment by saving water.

How: I mainly do two things to save water at home. One thing is that I don't allow water to run while I wash my hands or face. Normally, I turn the tap off. The second thing I do to save water is to use waste water from washing and bathing to **flush** the toilet and **water** the garden. That is a good way to reduce wasting water and use it effectively.

What benefits: The benefits are obvious to see. For example, if everyone starts to save water at home, more clean drinking water can be available for people who are suffering from water shortages. What's more, saving water can reduce water bills in general.

Model 2

What: I do not have the ability to protect the environment in a major role like in a political way, but there are things **within my ability** that I can do. For instance, I **mainly recycle and reuse** products in daily life.

How: After I finish bottled beverages, I always keep the empty bottles for other uses, such as a water bottle or a trash can. **Apart from that, I often recycle old plastic shopping bags or reuse them in bagging my groceries.** What's more, I try not to accept new ones.

Benefits: **There are a great number of benefits in doing this.** The major one is that it saves **landfill** space. Also, it allows plastics to be reused in different ways. As a result, it reduces the amount of waste to some extent. Perhaps, **what I do is just a drop in the ocean, but I believe every small deed matters.**

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)

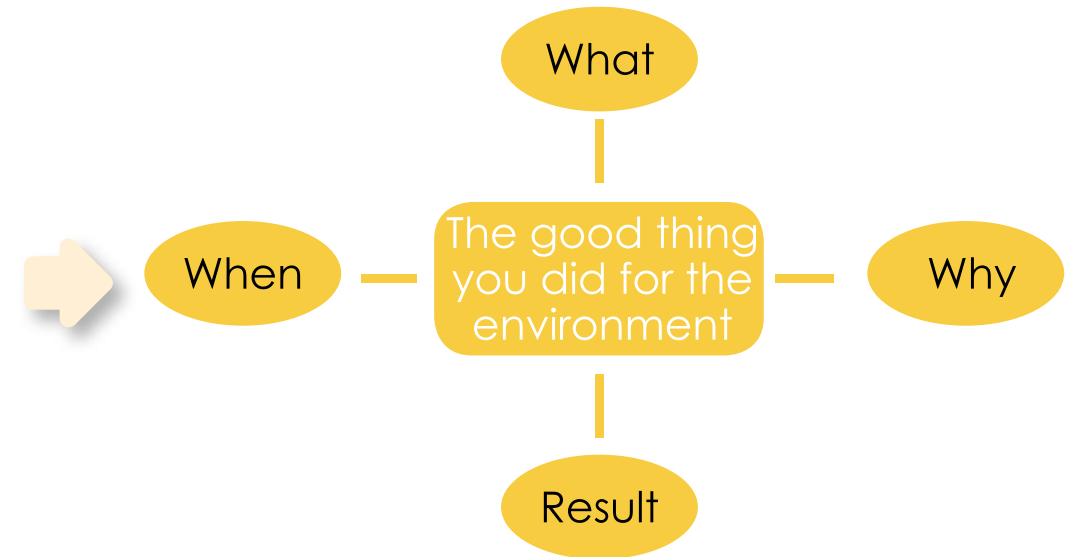

Describe a thing that you can do to help improve the environment.

You should say:

what it is

how you do it

and explain **what benefits** it can bring.

Homework: please use the models further for these 2 topics after the lesson.

Describe something we need to do to for our environment.

Describe a good habit to protect environment.

IELTS Speaking Part 3 (Additional Practice for This Topic)

What suggestions would you make to solve the pollution problem?

What role do you think the government should play?

What can individuals do to help?

V. Summary (5 mins)

Key words

landscape

relaxation

Labour Day

completely

environmentalist

water

landfill

flush

within my ability

reuse

Key sentences

Yes, I do. I like to experience different cultures and see other people and the **landscapes** in other countries!

I've travelled to a majority of the places in China. My favourite place is Dali in Yunnan Province. The slow pace of life there gives me a sense of **relaxation**.

I went to Mt. Huashan on **Labour Day** with my family. We climbed around the mountain one night when the tourists were all gone. Going there during the nighttime is **completely** different from going there during the daytime.

I don't allow water to run while I wash my hands or face. Normally, I turn the tap off.

I mainly recycle and **reuse** products in daily life.

What I do is just a drop in the ocean, but I believe every small deed matters.

The next lesson will be Unit 6 Topic 5 The worst weather you have experienced in your life.
