Unit 6 Nature

Topic 1—Lesson 2(下篇)

Your favourite season

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe your favourite season.

You should say:

what the season is

what features this season has

why you love this season

and **explain** the special thing about this season.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What season it is & special thing about it: To me, it's not just about the season, but rather about what the season symbolises that is important. Spring symbolises life, and this could have come from Christianity and the associated holiday Easter. But rather I think it was **the other way around**, with Easter springing forth from the nature of animals themselves.

What features this season has: You see, spring is the season when new life is usually brought forth. We see swarms of ducklings in the rivers and the flowers are in full blossom, and this is what perhaps sparked the imagination of ancient biblical scholars into writing tales of Easter and the rest of that.

Why you love this season: More personally speaking, I like spring since the weather at that time of the year is rather mild. Besides, there is something **on the horizon** people are looking forward to, which is the summer holiday. To be honest, one **downside** is that I am unfortunately one of the many individuals who suffer from hay fever, and spring then leads to a series of uncontrollable fits of sneezing for me, thus making life slightly annoying. In spite of this, it doesn't change my decision when you question me about my best-loved season.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

Have you heard of global warming?

I: Yes. I have heard about global warming through a variety of venues.

P1: My first encounter with this issue was through watching a documentary called *An Inconvenient Truth*. From this video I grasped the basic concepts behind this global phenomenon.

P2: After gaining insight into the general notion behind global warming, I followed up by researching it further online. I conducted my own research on the causes and effects of global warming and even interviewed several prominent scientists.

P3: My last **foray into** the idea of global warming was by direct observation. Last year I took a trip to the northern regions of China and experienced a rather warm winter in comparison to previous years.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What causes global warming?

 According to my understanding, global warming is caused by the greenhouse effect. When our atmosphere becomes loaded with carbon dioxide, it ends up trapping heat, which in turn causes the Earth's arctic regions to begin to melt, causing sea levels to rise. Many scientists agree that due to human activities, such as farming, industrialisation, and driving carbon-emitting vehicles, global warming unless curbed will cause catastrophic consequences in the near future.

Do you think people today are more green conscious and environmentally aware?

 As the impacts of the warming climate are felt across the globe, many governments have begun education campaigns to better teach their citizens on how to conserve the Earth's natural resources. Thanks to the efforts of both governments and private organisations, more and more people are aware of their negative actions that have a damaging effect on the natural environment. People in record numbers are recycling and protesting big companies unchecked destruction of our world's forests.

V. Summary (5 minutes)

Key Words & Expressions

the other way around

on the horizon

downside

foray into

greenhouse effect

conserve

Key Sentences

Spring symbolises life, and this could have come from Christianity and the associated holiday Easter. But rather I think it was **the other way around**, with Easter springing forth from the nature of animals themselves.

More personally speaking, I like spring since the weather at that time of the year is rather mild. Besides, there is something **on the horizon** people are looking forward to, which is the summer holiday.

To be honest, one **downside** is that I am unfortunately one of the many individuals who suffer from hay fever, and spring then leads to a series of uncontrollable fits of sneezing for me, thus making life slightly annoying.

My last **foray into** the idea of global warming was by direct observation.

According to my understanding, global warming is caused by the **greenhouse effect**.

As the impacts of the warming climate are felt across the globe, many governments have begun education campaigns to better teach their citizens on how to **conserve** the Earth's natural resources.

The next lesson will be **Unit 6 Topic 2 An animal**.
