Key Words and Models

in disarray

Example: Personally, I love to travel to exotic locations. I always travel when my life is **in disarray**, and I need to take a few steps back to pull myself together. The time between destinations always leaves me just enough time to meditate and break down problems into smaller parts that are to solve. For me this has always been a beneficial strategy for improving my life and accomplishing difficult goals.

pleasurable

Example: I've travelled all over China. The place that I absolutely loved the most was Zhanjiajie National Forest Park in Hunan Province. This is the most beautiful natural scenery that can be found in China. The film Avatar was actually filmed at this location, which goes to show just how amazing this park is. Hiking through this majestic park is a **pleasurable** memory that I will always cherish.

cruise ship

Example: My most recent adventure includes me and a **cruise ship** across the South China Sea. It was an amazing experience because it was the first time I had ever spent the night in a cabin aboard a ship. It was the best sleep I have ever got due to the gentle rocking of the waves.

III. IELTS Speaking Part 2 (12 minutes)

1. *Brainstorm. Plan your answers based on the given questions. (1 minute)*

Describe a thing you did that is good for the environment.

- What was it about?
- When did you do it?
- How did you do it?
- Why did you do that thing and what result did it lead to?

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.1 Here is a model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (8 minutes)

Model 1

What it was about: Undeniably, we are all obliged to do something conducive to the environment. One of such things I have managed to do consistently for years is the **recycling drive** in my hometown.

When you did it: This particular event takes place once a year. I have had the pleasure of participating in this event every year since I was a primary school student. If memory serves me well, I have taken part in it for at least seven times.

How you did it: Basically, these environmentally friendly drives last from the early morning hours until dusk. It starts by individuals **being partitioned into** groups, which usually consist of close friends; and then we are given a map that covers specific sections of our city. We continue by going from door to door to collect people's recyclable materials. By the end of the day we finish by unloading our bounty to the recycling centre.

Why you did it and what the result was: According to my own personal beliefs, it is important to do everything you can to protect the environment. We only have one planet, so we should do everything possible to keep it a decent place to live. The end result of our **yearly** recycling campaign is always the reduced garbage on the streets, which provides a better living environment all year long. We also get the privilege of adding these experiences to our school transcripts and our future resumes.

You are required to talk for the full 2 minutes.

2.2 Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (3 minutes)

You should say:

what it was about

how you did it

and **explain why** you did that thing and **what** result it led to.

Homework: Please use the model for these two topics for further practice.
