Unit 6 Nature

Topic 6—Lesson 2(下篇)

An important plant in your country

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe an important plant in your country.

You should say:

what the plant is

what you know about it

whether you like it

and **explain why** it is important in your country.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What the plant is: A plant that is widely famous in China is the **sweet osmanthus**, which is also known as the sweet live.

What you know about it: The flowers grow on 3-to-12-metre tall **evergreen shrubs** of sweet osmanthus. This plant is found in China and also in the Himalayas. It comes in a variety of colours, such as orange, yellow, and white.

Whether you like it: Personally, I love this flower due to its fragrant smell. The smell of this particular plant and its blossoming flowers is similar to apricots or ripe peaches. I always try to fill my house with as many of these plants as possible, because they really **freshen up** a household with their strong odour. In addition, since the sweet osmanthus has so many different types, you can always match these flowers to their optimal corresponding rooms in any house. This adds to the merits of this graceful plant.

Why it's important to your country: The reason why this plant is important to China is rather evident. As far as I am concerned, the sweet osmanthus is important to my country simply because it is native here and not very common anywhere else in the world.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

Are you interested in visiting extreme environments, such as deserts or high mountains? Why or why not?

T: I am rather bland when it comes to trying new things, such as food or drinks; however, I love travelling to extreme environments

S1: Extreme environments are able to push our limits and test our characters, which I find appealing. Such experiences make me more fearless when I encounter difficulties in life.

S2: I also love the feeling of travelling to these mountainous areas and climbing as many high peaks as possible. This gives me a sense of accomplishment that is unparalleled in everyday life. I would suggest that everyone visit an extreme environment at least once.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

Why do you think people like to visit extreme environments?

 I think many people travel to extreme environments for the same reason I do. Surviving in such harsh conditions as deserts or mountain summits presents you with challenges that cannot be experienced in normal situations. Extreme vacations seem to be on the rise, so it appears that more and more people are **subjecting themselves to** these types of adverse conditions. In my opinion, it is also due to people's daily routines being so boring that they need adventures to spice things up.

When you travel, do you adapt easily to new climates?

 When I travel, I always come prepared, which means I adapt fairly easily to new climates. Thanks to advances in modern clothing, I always buy the best gear for every environment. Take my recent vacation to the Himalayas as an example; I wore special clothing that trapped heat while **deflecting** moisture, which gave me an awesome advantage in acclimating to the harsh climate in the mountains.

V. Summary (5 minutes)

Key Words & Expressions

sweet osmanthus

evergreen shrub

freshen up

unparalleled

subject oneself to

deflect

Key Sentences

A plant that is widely famous in China is the **sweet osmanthus**, which is also known as the sweet live.

The flowers grow on three-to-twelve-metre tall **evergreen shrubs** of sweet osmanthus.

I always try to fill my house with as many of these plants as possible, because they really **freshen up** a household with their strong odour.

This gives me a sense of accomplishment that is **unparalleled** in everyday life.

Extreme vacations seem to be on the rise, so it appears that more and more people are **subjecting themselves to** these types of adverse conditions.

I wore special clothing that trapped heat while **deflecting** moisture, which gave me an awesome advantage in acclimating to the harsh climate in the mountains.

The next lesson will be **Unit 7 Topic 1 A festival that is important in your country.**
