Unit 7 Culture

Topic 2—Lesson 2(下篇)

A place you visited to learn another culture

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a place you visited to learn another culture.

You should say:

where you went

what you learned

how you learned it

and **explain how** you felt about the culture.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

Where: The most amazing experience I have had pertaining to a foreign culture was firsthand when I visited the Hermitage Museum in St. Petersburg, Russia. This specific museum is one of the largest and oldest in the world.

What: Like any museum of art and culture, the way to experience the wonderful antiquities is to walk through them only to stop and take in whatever **grabs your attention**. At this historic venue, I was able to **peer** into the mind of past Russians by using their art as a gateway. I was also able to ponder various time periods throughout Russian history and observe how their mysterious customs and unconceivable traditions have changed throughout the centuries.

How you learnt: Not only were the articles found inside telling, but the history behind the Hermitage was equally fascinating. The massive art collection began with around 300 paintings from famous artists such as Rembrandt and Monet, which were bought by Catherine the Great. The fact about this brilliant palace and now museum is that it has managed to **withstand** the test of time by remaining untouched during times of turmoil in Russia. It survived the Russian Revolution in 1917 and became a state museum that same year.

How you felt: Obviously, the Russian people value art and cherish their cultural heritage so much so that being in that magical place was an honour.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

Do you think that learning foreign languages can help us understand foreign cultures?

T: Learning a foreign language can help us **gain** valuable **insights into** another culture more easily.

S1: Without adequate knowledge of a foreign language, we may find it harder to utilise the primary sources of a different country. In other words, people who are proficient in a foreign language will be able to gain access to much first-hand material. This is extremely important for anyone studying or conducting research about a specific nation or a specific culture.

S2: Another reason why knowing a foreign language can help us comprehend a foreign culture is the simple fact that one could ask people from that culture questions directly and manage to understand it without using a translator.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

Do you think it's better to go overseas to study a foreign language, or is it better to study in your home country? Why?

 I believe that studying a foreign language in the country of origin is the optimal choice as it relates to one's foreign language studies. When you study overseas, you are totally absorbed in the language environment, so it's either **sink or swim**. Also, depending on how long you reside in the host country, you will have a far better understanding of how the language is used in real-world circumstances.

What is your understanding of the term "globalisation"? Is it good or bad?

 The way I see it is that globalisation is the man-made process of connecting the world through a series of technological advancements, such as the Internet, satellites, trains, and airplanes. For the most part this high level of interrelation has had beneficial effects on humanity, so it can be conceived as being good. It has allowed for the widespread trade of goods across the globe while at the same time deterring countries from engaging in wars, as wars now have **far-reaching** effects on the global economy and other nations' well-being.
