Unit 7 Culture

Topic 5—Lesson 2(下篇)

A foreign culture you are interested in

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe a foreign culture you are interested in.

You should say:

what this culture is

how you knew about this culture

what you know about this culture

and **explain why** you are interested in it.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What this culture is: A foreign culture I would love to learn is Buddhism, which originated in India. Perhaps this may not **amount to** a culture but a religion. Nevertheless, the **thinly veiled** distinctions escape me.

How you knew about this culture: This culture is really common knowledge; I am not entirely sure where along the way I picked up such knowledge, but most probably I learnt about this in primary school.

What you know about this culture: I know that Buddhism is one of the five major religions around the globe. According to the Buddhist tradition, the Buddha lived and taught in the eastern part of the Indian subcontinent sometime between the 6th and 4th centuries BCE. He is recognised by Buddhists as an enlightened teacher who shared his insights to help sentient beings end their suffering. I am well aware of some of the basic teachings, such as losing the desire for **material objects** and other values and pursuing a peace of mind instead.

Why you are interested in it: I am interested in the Buddhist culture, because this particular philosophy differs from all others in that it doesn't lead us to realising there is a greater being. Instead, we are instructed to find peace within ourselves. This seems an honest pursuit. In other words, it can help us become more decent people no longer driven by endless wants and needs.

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

I: Introduction Sentence + P: Points (Point1, Point2...)

What do you think people will learn from traveling to other countries? Why?

I: As far as I am concerned, there is much to be learned from travelling abroad, and this depends on whether or not the person **is receptive to** new customs or ideas.

P1: When travelling overseas, some people will naturally observe different customs or habits that can be applied to their daily routines. Impressed by those local practices, they tend to either consciously or subconsciously adopt those that suit their needs.

P2: Moreover, if people are open to new things, they can also learn from other cultures new ways to think about the world and become more broadminded.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

In the future, do you think that different cultures will come together or remain distinct?

 I think if present observations are any indication, then the answer is a combination of both. Many cultural practices around the world are being spread due to globalisation and other cultures are slowly absorbing traditions and customs that already fit into their ideas and belief systems. However, many deep-seeded beliefs and traditions can never be conquered by foreign ideas, because they are fundamental to that culture, such as individualism versus collectivism.

How do you think foreign cultures are influencing life in your country?

 Foreign cultures have had profound influences on Chinese culture over the last thirty years. For example, twenty years ago you never would have seen Christmas decorations in December, but now all over China people are celebrating Christmas in the same way that westerners are. I have also observed that more and more Chinese people are **imitating** western clothing and hairstyles.

V. Summary (5 minutes)

Key Words & Expressions

amount to

thinly veiled

material object

be receptive to

indication

imitate

Key Sentences

Perhaps this may not **amount to** a culture but a religion.

Nevertheless, the **thinly veiled** distinctions escape me.

I am well aware of some of the basic teachings, such as losing the desire for **material objects** and other values and pursuing a peace of mind instead.

And this depends on whether or not the person **is receptive to** new customs or ideas.

As far as I am concerned, if present observations are any **indication**, then the answer is a combination of both.

I have also observed that more and more Chinese people are **imitating** western clothing and hairstyles.

The next lesson will be **Unit 7 Topic 6 A foreign language you would like to learn (not English).**
