雅思口语高级

——冲刺 7.5 分

Unit 8 Technology and invention

Topic 1—Lesson 1(上篇)

A piece of electronic equipment that you find useful

I. Pronunciation Practice (2 minutes)

Verb Tenses and Intonation: (the words in bold should be stressed, and note that in the word **them**, **th** doesn't make sound, and the sound **t** should be linked to the sound **em**.)

They **eat** them.

They **ate** them.

They'**d eaten** them.

They **should eat** them.

Read the following sentences and circle the words that need to be stressed.

1. They ought to eat them.

2. They shouldn't eat them.

3. They could've eaten them.

II. IELTS Speaking Part 1 (8 minutes)

Extend your answer to 3-4 sentences. It's easier to get 7.5.

1. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (4 minutes)

How do you usually travel to work or school?

Have you always travelled to work/school in the same way?
Why/why not?

What changes would improve the travel to work/school? **Why?**

The examiner will score your answer from the following aspects:

1. How good you are at **keeping talking** at the right speed and **connecting your ideas together**;
2. **How much vocabulary** you have and **how well** you use it;
3. **How many structures** you have and **how well** you use them;
4. How well you **pronounce** the language.

2. Read and learn the following key words and models for the IELTS Part 1. You are suggested to apply these words in the following steps. (4 minutes)

Key Words and Models

the best thing since sliced bread

 Example: I use the form of transportation that I consider **the best thing since sliced bread**, which is the train, or to be more specific to my case, the underground train. I live in a major urban city with an extremely dense population, which means that the most convenient mode of travel for the working class is the subway.

cry over spilt milk

 Example: I have only recently had to travel by subway to get to my destinations. In the past I lived in a rural area so I actually drove my own car everywhere. Whist I ride the subway I often recollect just how convenient it was to be in your own personal bubble travelling to and fro. I do my best not to **cry over spilt milk** though even when riding the tube during the rush hour, which is a sweaty smelly nightmare in Beijing.

from point A to point B

 Example: The only changes that could be made to my travelling arrangements would be faster trains and wider train cars. However, I would suggest higher fares to reduce the amount of foot traffic, but they already tried that to no avail as the trains are still overcrowded. If faster trains were implemented, at least time between stops could be reduced and thus get me **from point A to point B** much easier.

III. IELTS Speaking Part 2 (12 minutes)

1. *Brainstorm. Plan your answers based on the given questions. (1 minute)*

Describe a piece of electronic equipment that you find useful.

- What is it?
- How did you learn to use it?
- How long have you had it?
- Why do you find this piece of electronic equipment useful?

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.1 Here is a model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (8 minutes)

Model 1

What it is & how long you have had it: An electronic device that I have grown to rely on over the last couple of years is my electric tooth brush.

How you learned to use it: After visiting the dentist's office one day in late July, I was advised that I should **refine** the method in which I scrubbed my teeth. Alternately, the dentist gave me the option of using an electric tooth brush as it simulated the perfect brushing technique. Up until then my brushing routine was dominated by the traditional tooth brush, so when adopting this new complex tool that resembled the past one, I was beside myself as it seemed like **overkill** to use this device for such a simple task.

Why you find it useful: I quickly found out that there is a reason why these devices sell so well and are highly recommended by people in the dentistry profession. Not only does the motorised circular motion of the brush head allow for **optimal** brushing, this tooth brush also has an automated counter that tells you for how long you should brush your teeth. After using this new electronic tooth brush for over a week, I saw a noticeable difference in my smile. Since this piece of electronic equipment could provide so many benefits and reduce the amount of cavities, I consider it to be the most useful device I have ever owned.

You are required to talk for the full 2 minutes.

2.2 Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (3 minutes)

Describe a piece of electronic equipment that you find useful.

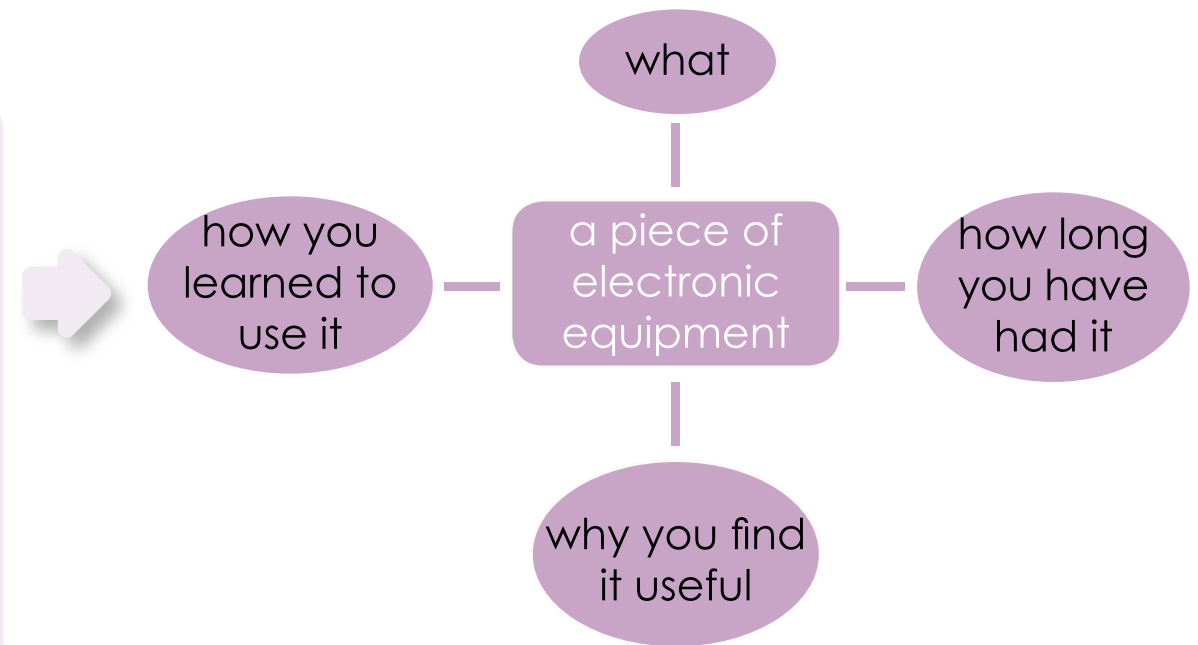

You should say:

what it is

how you learned to use it

how long you have had it

and **explain why** you find this piece of electronic equipment useful.

Homework: Please use the model for these two topics for further practice.

Describe a gift you received.

Describe a household appliance.

Review (2 minutes)

Key Words & Expressions

the best thing since sliced bread

cry over spilt milk

from point A to point B

refine

overkill

optimal

Key Sentences

I use the form of transportation that I consider **the best thing since sliced bread**, which is the train, or to be more specific to my case, the underground train.

I do my best not to **cry over spilt milk** though even when riding the tube during the rush hour, which is a sweaty smelly nightmare in Beijing.

If faster trains were implemented, at least time between stops could be reduced and thus get me **from point A to point B** much easier.

After visiting the dentist's office one day in late July, I was advised that I should **refine** the method in which I scrubbed my teeth.

So when adopting this new complex tool that resembled the past one, I was beside myself as it seemed like **overkill** to use this device for such a simple task.

Not only does the motorised circular motion of the brush head allow for **optimal** brushing, this tooth brush also has an automated counter that tells you for how long you should brush your teeth.

You will learn more about this topic in Lesson 2.
