Model 2

What and where: A language I would like to learn is French. Personally, I think learning in the classroom is the best method. I prefer to have a structured learning environment as opposed to self-learning.

How you would learn it: As far as I'm concerned, the best way to learn a foreign language is to have a native instructor of that language teach you. The first and final thing I would need to do is find a famous school where I could study French for however long it takes me to reach a high enough level of fluency in both speaking and listening.

Why: I have always admired French culture, but have yet to visit France due to my fear of the unknown. If I could understand French, I would finally start planning my trip independently, which is what I have been longing for. Armed with my newly found language skills, I'd enjoy my visit to France even more. Traversing throughout the French countryside and speaking with locals in their native tongue would be the very definition of self-reliance that I feel I need in order to be satisfied with my life.

You are required to talk for the full 2 minutes.
