Unit 8 Technology and invention

Topic 3—Lesson 2(下篇)

A useful technical skill

Read the task card for 10 seconds and get a general idea of this topic.

Describe a useful technical skill you learned.

You should say:

why you learned this skill

how (and when) you learned it

how difficult it was to learn

and explain how this technical skill is useful for you.

In the real examination, the examiner will ask you to prepare for 1 minute.

3.2 Here is another model for the IELTS Speaking Part 2. We will focus on the sentences highlighted below. (4 mins)

Model 2

What and why: I really wanted to give my mother a big surprise on her 50th birthday, so I thought a video edited by myself that recorded some moments of her life would be the best choice. Therefore, I began to learn how to edit my own videos in detail one year ahead.

How difficult: As far as I know, video editing is the art, technique, and practice of assembling shots into a **coherent** sequence. It's far more than just sticking pieces of video together. I took a 3-month course on editing, and spent numerous hours in practicing. Finally, I spent almost one month on editing my 30-minute video for my mom. The hardest part of the process is matching the video and the sound tape well with each other.

How it is useful: I have to say this is really a useful skill. It has helped me give my mother the best surprise. It also helps me make my own ideas come to life and it gives me complete freedom to arrange and **optimise** large projects quickly and easily.

You are required to talk for the full 2 minutes.

4. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please describe the topic below with what you have learned to make your description better. (5 mins)
