A positive change in your life

IV. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe a positive change in your life.

You should say:

when this change happened

what this change was

why it was positive

and explain how this change has influenced your life.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

What: The most important change in my life is that I have **developed a habit** of getting up early. I used to sleep late at night and get up late in the morning. I felt tired easily and I could not focus my mind on my studies.

When: I realised it was a bad start of **daily routine**, so I decided to make a positive change at the beginning of this year. I decided to get up at 7 o'clock in the morning and sleep at 10 o'clock every day. I felt quite uncomfortable at first but I got used to it finally.

Why and how: Now, I am energetic and **in** a very positive **mood** all day long. Most importantly, I can focus my mind on my studies and my learning efficiency improves, which is really great.

Model 2

What and when: A few months ago, a huge change happened in my life—I graduated from my university and I was employed by a big company as a secretary.

Why: I have been a staff member rather than a student since then. Everyday, I need to deal with many things, for example, booking plane tickets for my boss and reserving a meeting room for him. Sometimes, my work is **challenging**, but I am happy with it. It gives me the opportunity to improve my communication skills and problem-solving skills. Now, I become more sociable and **efficient** than before.

How: Now, with the money I make every month, I can support my own life. That is to say, I can **stand on my own feet**. I doesn't need economic help from my parents, which is really cool.

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)

Describe a positive change in your life.

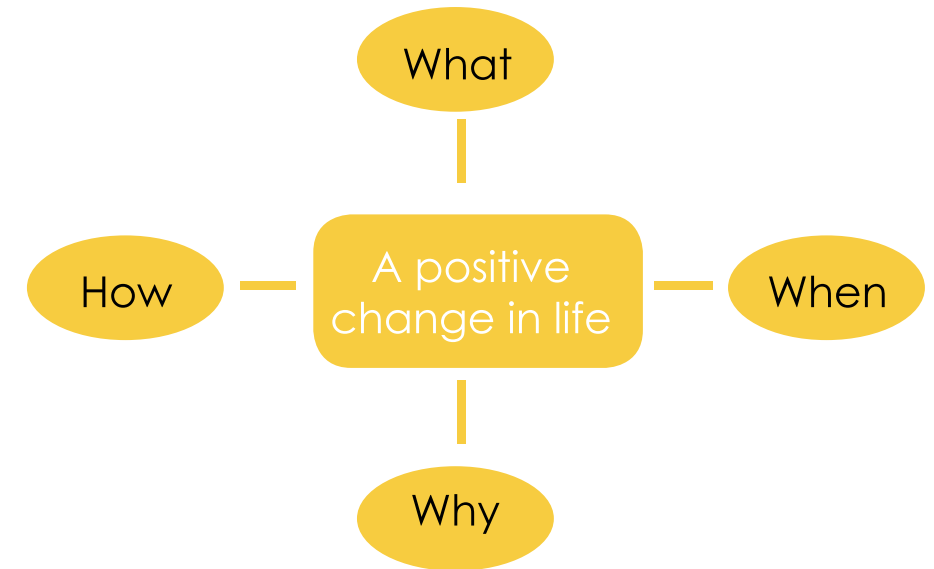

You should say:

what this change was

when this change happened

why it was positive

and explain **how** this change has influenced your life.

Homework: please use the models further for these 2 topics after the lesson.

Describe a choice you made in your life.

Describe an important stage in your life.

I prefer to live in the countryside, because life in the countryside is much **cosier** than that in the city.

Cities have a **large population** and limited space, that is to say, there is no extra room for pets.

We can do many things to protect our environment, for example, **recycling** rubbish, **reducing pollution** and planting more trees.

The most positive change in my life is that I have **developed the habit** of getting up early.

Now, I am energetic and **in** a very positive **mood** all day long.

This job gives me the opportunity to improve my communication skills and makes me become more **efficient**.
