Unit 11 Education

Topic 4—Lesson 2(下篇)

A subject that you like/dislike

IV. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe a subject that you like/dislike in your high school.

You should say:

what the subject is

who taught that subject

and explain why you like/dislike that subject.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

What: I dislike history the most. It was the only subject which usually made me sleepy.

Who: My high school history teacher was a middle-aged woman who was very serious. She never smiled in front of us. She taught us through reading books so her classes were always boring. In addition, she often gave us too much homework, which made most students in my class hate history.

Why: I dislike history because it was really a difficult subject for me. There was too much information to remember. As a person who has a bad memory, it was really a big challenge for me. Although I studied very hard, I still couldn't get passing scores on the history exams. In my school days, I dozed through class. Now, I hope to make up some of that lost knowledge by reading these history books.

Model 2

What: My favourite subject in high school was chemistry.

Who: My chemistry teacher was a nice young man. He always wore a smile on his face. He was very **passionate** about education. He believed that interest is the best teacher, so he tried his best to make us become interested in chemistry. He explained **chemical** principles through performing interesting experiments. Besides, he also taught us how to make use of chemistry in our daily life. We all enjoyed his class.

Why: I like chemistry very much. The main reason is that I enjoyed doing chemistry experiments. I could create some wonderful new things or some bright colour through doing chemistry experiments. In addition, I was quite good at chemistry. I often got high marks on chemistry exams. Lastly, I like my chemistry teacher. He was very **creative** at making his class interesting.

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)

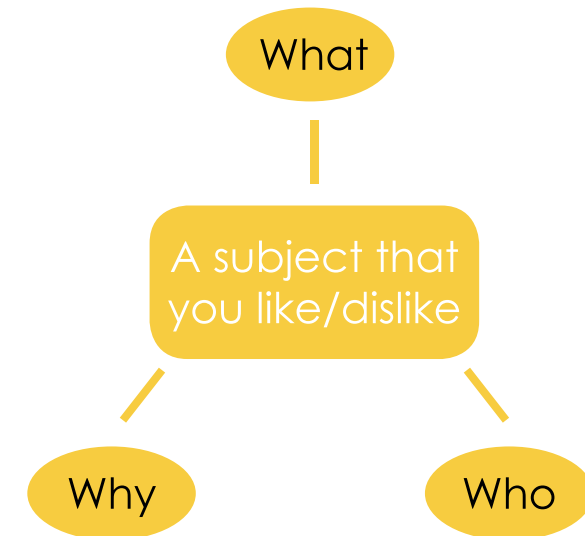

Describe a subject that you like/dislike in your high school.

You should say:

what the subject is

who taught that subject

and explain **why** you like/dislike that subject.

Homework: please use the models further for these 2 topics after the lesson.

Describe a subject you are good at.

Describe a subject you didn't like before but like now.

IELTS Speaking Part 3 (Additional Practice for This Topic)

Are teachers important in students' learning?

Does interest play an important role in learning?

Do you know a more interesting way of learning a language?

V. Summary (5 mins)

Key words

fall in love with
pronunciation
a big fortunate
password
middle-aged
challenge
passing scores
passionate
chemical
creative

Key sentences

My lucky number is five. I met my boyfriend on the 5th of May and we **fell in love with** each other that day.

In our country, 8 has the same **pronunciation** with the Chinese character “fa”, which means **a big fortune**, so most people like it.

There are a lot of numbers I need to remember. For example, my computer's **password**, my ID number, and my parents' birthday.

My history teacher was a **middle-aged** woman who was very serious. She never smiled in front of us.

He explained **chemical** principles through performing interesting experiments.

I could create some wonderful new things or some bright colour through doing chemistry experiments.

The next lesson will be Unit 11 Topic5 An education trip.
