Unit 3 Places

Topic 2—Lesson 2(下篇)

A historical place

IV. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe an interesting historical place.

You should say:

what it is

where it is located

what you can see there now

and explain why this place is interesting.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

What: The most famous historical place in China is the **Palace** Museum, which was also called the Forbidden City.

Where: The Forbidden City is located in the centre of Beijing. It was the palace for **royal families** during the Ming Dynasty and Qing Dynasty.

What you can see: Twenty-four emperors lived in the Forbidden City. Some of the buildings were offices for the emperors, and some were for the family members, such as wives, children and so on. There are many **treasures** and beautiful gardens, too.

Why it is interesting: The Forbidden City is interesting because it shows us what an emperor's life was like. Before it was open to the public, we could only know what it looked like on TV. At the same time, the Forbidden City is not "forbidden" any more. Before, ordinary people were forbidden to walk inside it without permission from the emperor. That's why it was called the Forbidden City. However, now everyone can walk inside freely.

Model 2

What: I always want to visit the Terracotta Warriors.

Where: The Terracotta Warriors were made more than two thousand years ago during the Qin Dynasty. The "warriors" were buried with the First Emperor of China. They are found in the Shanxi Province in China.

What you can see: There is a museum now for both experts and tourists alike. Not all warriors are open to the public yet. We can see hundreds of statues of warriors. They wear the same uniform with different gestures. There are so many warriors that it's like they are really protecting the dead emperor.

Why it is interesting: The Terracotta Warriors were made as an army for the First Emperor. It is interesting that the emperor believed that he could take his clay army into another world with him. They were also great works of art in Chinese history.

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)
