Unit 6 Nature

Topic 2—Lesson 2(下篇)

An animal

IV. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe an animal.

You should say:

what the animal is

where it can be found

what is special about it

and explain how people feel about it.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

What the animal is: Sea lions are friendly-looking animals. Their round faces remind people of the faces of small dogs. Sea lions behave like playful children. They push each other off rocks.

Where it can be found: Sea lions can be found in most marine parks. If you have been there, you may have watched sea lions.

What is special about it: The special thing about sea lions is that the almond shape of their eyes gives them a look of intelligence. Whether it is true or not, sea lions often look as though they are thinking. In addition, sea lions can be taught many tricks. They can balance balls on their noses, and they can jump through hoops. Their trainers give them fish to reward them for doing tricks. Sea lions look very pleased with themselves when they perform.

How people feel about it: Unfortunately, sea lions are also endangered animals. It is important that we protect endangered animals, otherwise we may never see those animals again.

Model 2

What: The lion is one of the five big cats existing on the planet. It is the second largest living alive cat after the tiger.

The special thing: Lions live in groups. Adult females take care of their children and hunt. Adult males defend their **hunting grounds**, and sometimes challenge other adult males from other groups. If the adult males are defeated, their cubs will be killed by the other lions that attacked.

How people feel about it: The lion has been an **icon** of strength and royalty for thousands of years, appearing in cultures across Europe, Asia, and Africa. Despite **incidents** of attacks on humans, lions are positively depicted in cultures as strong and noble. I like lions not really because they are strong and noble, but because my girlfriend is a Leo. So it's kind of "love me, love my sign."

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)

Describe an animal.

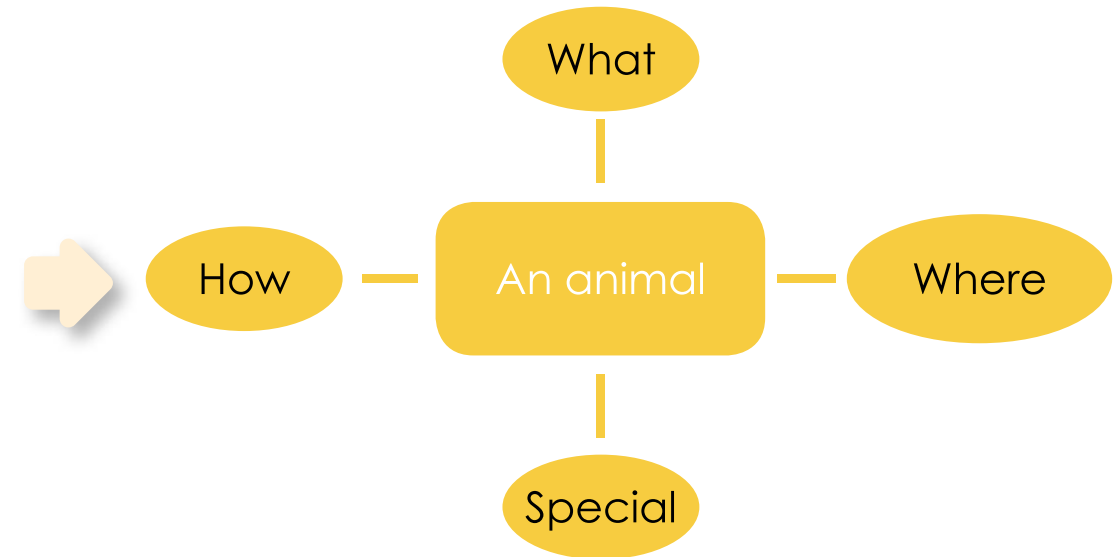

You should say:

what the animal is

where it can be found

what is special about it

and explain **how people feel** about it.

Homework: please use the models further for these 2 topics after the lesson.

Describe a wild animal.

Describe a pet you would like to own.

IELTS Speaking Part 3 (Additional Practice for This Topic)

Do you think the ecosystem in China is quite balanced?

What do you think causes serious wildlife extinction?

What should the government and the individual do to protect wild animals?

V. Summary (5 mins)

Key words

flat

improve

automatic

intelligent

playful

almond

endangered animal

hunting ground

icon

incident

Key sentences

Some young people live in **flats**, and some people live in houses. It depends on if they are living in the city or countryside.

Actually, nothing needs to be **improved** now. It is cozy and warm.

I think they will be designed with **automatic** and **intelligent** devices.

The special thing about sea lions is the **almond** shape of their eyes gives them a look of intelligence.

The lion is one of the five big cats existing on the planet. It is the second largest living cat alive after tiger.

Despite **incidents** of attacks on humans, lions are positively depicted in cultures as strong and noble.

The next lesson will be Unit 6 Topic 3 A natural environment.
