Unit 8 Technology and invention

Topic 3—Lesson 2(下篇)

A useful technical skill

IV. IELTS Speaking Part 2 (20 mins)

1. Read the task card for 10 seconds and get a general idea of this topic. (1 min)

Describe a useful technical skill you learned.

You should say:

why you learned this skill

how (and when) you learned it

how difficult it was to learn

and explain how this technical skill is useful for you.

In the real examination, the examiner will ask you to prepare for 1 minute.

2. Here are the two models for the IELTS Part 2. We will focus on the sentences highlighted below. Students are required to recite these two models after class. (10 mins)

Model 1

Why: I'd like to describe a skill I learned, which is called **editing**. I love singing, so being able to edit songs is very practical and important for me.

When: One day, I was surfing the internet, online friend told me about this software and let me have a try.

How: I began to learn how to use it at once by taking many **online classes** on it.

How difficult: My major is Computer Application, so learning the skill of using this software was **a piece of cake** for me. Soon I was able to record my voice on the computer and edit many audio files perfectly.

How useful: Thanks to this technical skill, I made a lot of progress in improving my singing technically.

Model 2

Why: The computer skill I'd like to describe is the skill of making PPTs, which is very useful for me. Before, when I made a **presentation**, I wasn't able to express myself well by traditional ways, but then I realised how PPTs could help me make it up. Therefore, I made the decision to learn this skill well.

How: I took **a short course** in my university. In addition, I took some online classes to improve my skills.

How difficult: This was really a difficult skill to learn, because it required a lot of knowledge on computers. Fortunately, I overcame all the difficulties in learning this skill.

How useful: Honestly, it **impressed** me a lot not only because it developed my presentation skills, but also it let me feel more confident in working than before.

You are required to talk for the full 2 minutes.

3. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (9 mins)

Describe a useful technical skill you learned.

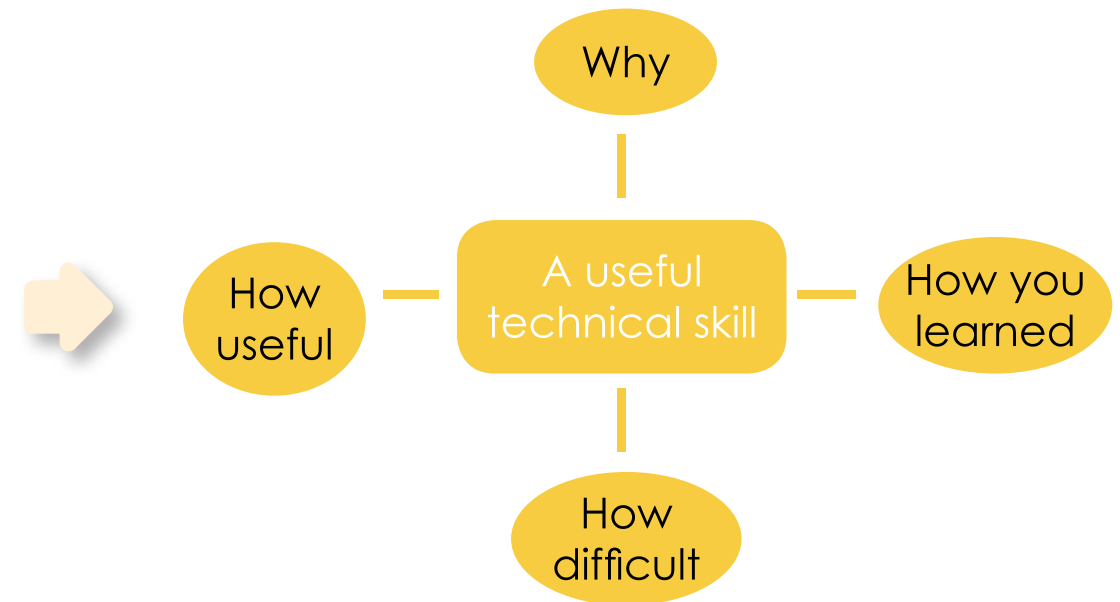

You should say:

why you learned this skill

how (and when) you learned it

how difficult it was to learn

and explain **how** this technical skill is useful for you.

Homework: please use the models further for these 2 topics after the lesson.

Describe a practical skill you have learned.
Describe a useful skill you recently learned (for example, driving a car or cooking).

IELTS Speaking Part 3 (Additional Practice for This Topic)

Which important skill do you think a student should learn?

Why do we need to learn some technical skills?

Do you think technical skills have changed the way we work?

V. Summary (5 mins)

Key words

must-dos

modern

smart

multi-functional

edit

online classes

a piece of cake

presentation

short course

impress

Key sentences

I love cell phones because they are portable and they enable me to contact anyone anywhere anytime.

I use my cell phone every single day. I check my email through my cell phone. It is one of my **must-dos** every day.

Modern cell phones are **smart**, thin, well-designed, responsive to touch, portable and **multi-functional**.

As my major had something to do with computers, learning this skill was **a piece of cake** for me.

If you want to make a **presentation**, you can't express yourself well by traditional ways.

I remember when I was a child being very **impressed** with how many toys she had.

The next lesson will be Unit 9 Topic 1 An important choice.
