Model 2

Who and How old: The oldest person I am familiar with is my great grandfather, who is in his late 80s.

What kind of person: My grandfather is a retired businessman who built a small fortune in the **real estate** market. Due to his business wisdom many people respected him in the past and still do to this day. It is in his nature to be quite frank and **forthcoming**, yet he always manages to end any unpleasantness in conversation with a joke or parable.

What's interesting: He is most known for his ability to recite epic tales from Greek mythology by memory alone. He acquired this ability thanks to years upon years of self-study of Greek literature, which he says he developed a passion for in his youth.

What kind of life this person has now: Currently, my grandfather is enjoying his golden years in a retirement villa on an island. He spends many of his days walking up and down the beach collecting seashells and making bracelets for tourists that visit the island. Each year, he sends special, handmade postcards to his friends and relatives.

IV. IELTS Speaking Part 3 (10 mins)

1. Read and learn the following key words and sentences for the IELTS Part 3. You are suggested to apply these words in the following steps. (5 mins)

Key words and key sentences

retiree

Example: Retirement in China offers the elderly several opportunities and possibilities. Many **retirees** often meet their friends outside for a friendly game of cards or they get together and perform Tai Chi. The options are only limited to their personal tastes and habits.

youngster

Example: In Chinese traditional culture, it is believed that adults should support their parents and grandparents mentally and financially. However, in my view, it is mainly the government's responsibility to provide social insurance and care for the elderly, instead of the **youngsters** having to pay the bill for their parents.

financial burden

Example: I guess the major problems that the elderly are facing are financial and psychological. The health care system in China is not that advanced, which results in a **financial burden** to the elderly when they need to visit doctors frequently. Another problem is a lack of company. Most elder citizens' children are too busy to take good care of their elderly parents because of the present fast-paced lifestyle. This means that the elderly often spend most of their time alone.

2. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (5 mins)

Please give two supporting ideas at least for each question.

What do old people in China do in their retirement years?

Is it the responsibility of families to support old people?

What are some of the main problems that the elderly are facing in China today?
