3.1 Here is a model for the IELTS Speaking Part 2. We will focus on the sentences highlighted below. (4 mins)

Model 1

When: Like most Chinese students in China, I began to learn English at a very young age. I think the exact time is when I was 7.

What equipment or books: I was very much exposed to English. I read some simple stories written in English, which helped me acquire excellent reading and writing skills.

What successes and troubles: I was always the top student in my English class and I barely met any troubles in learning English. Many friends praise that I have a gift for learning foreign languages, however, the key is **diligence** rather than giftedness.

Whether: Basically speaking, I really enjoy learning English and it is not difficult for me at all. I guess, what makes English difficult is that, people sometimes tend to give up when they meet difficulties. Just because something is hard to learn doesn't necessarily mean it can't be done. You just have to be **observant** and make your mistakes a learning opportunity.
