Model 2

What when who: A favorite photograph of mine is a photo from my last vacation. I took this photo myself last year.

What you were doing: Normally, when I have a lot of time off I just prefer to stay at home, but last year I decided to treat myself and took an **exotic** vacation far away from where I work and live. I took my favorite photograph while I was walking along the beach. The sun had just begun to set, creating a beautiful array of colors. I took out my phone and snapped a picture of myself with the sunset in the background.

Why: This photograph is my favorite for many reasons. The first reason is that this was the first vacation that I had ever spent at an exotic location and far away from the urban life. Secondly, I really admire this picture because I was able to **capture** an intimate moment. I like to imagine that at that moment it was just me and the sunset, and that there was no one else on the beach.

You are required to talk for the full 2 minutes.

ruin

Example: In my opinion, a professional photographer needs to be patient. They should be willing to wait for any amount of time in order to capture the perfect photo. Also, a professional photographer needs to have a mind for details, as even the slightest difference in lighting can **ruin** an entire photo.

deserve

Example: I do recognize that being a good photographer requires skill, but I do not agree with governments giving scholarships for this type of skill. Also, since photography is such a widespread hobby, to me it means that giving a scholarship for it is wasteful.
