Unit 6 Nature

Topic 4—Lesson 2(下篇)

A thing that you can do to improve the environment

Read the task card for 10 seconds and get a general idea of this topic.

Describe a thing that you can do to help improve the environment.

You should say:

what it is

how you do it

and explain what benefits it can bring.

In the real examination, the examiner will ask you to prepare for 1 minute.

3.2 Here is another model for the IELTS Speaking Part 2. We will focus on the sentences highlighted below. (4 mins)

Model 2

What: One thing I do intentionally to protect the environment and live more sustainably is buy biodegradable household chemicals.

How: Whenever I buy household chemicals, I always pay attention to the label in order to make sure that there are no parabens in them and that it is completely biodegradable. If I find my families or friends using chemicals that cannot be degraded naturally, I will stop them and tell them how those chemicals will affect the environment, and share my choice of household chemicals with them.

What benefits: I suppose it can reduce the pollution to the environment and also be of benefit to our health. If we can reject those products which are not environmentally friendly, we may make those companies produce cleaner products, thus cutting the pollution. Furthermore, some ingredients, such as parabens, are bad for people's health. If we can stick to biodegradable household chemicals, we can both protect ourselves as well as our natural surroundings. So I think it is important that we use environmentally friendly biodegradable household chemicals.

注：parabens 对羟基苯甲酸酯 biodegradable 可生物降解的

You are required to talk for the full 2 minutes.

4. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please describe the topic below with what you have learned to make your description better. (5 mins)

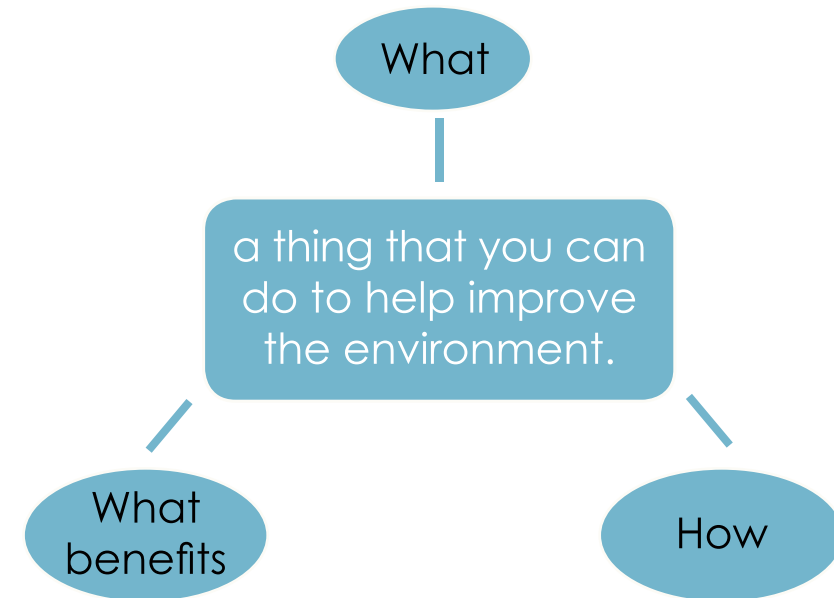

Describe a thing that you can do to help improve the environment.

IV. IELTS Speaking Part 3 (10 mins)

1. Read and learn the following key words and sentences for the IELTS Part 3. You are suggested to apply these words in the following steps. (5 mins)

Key words and key sentences

citizens

 *Example:* Many parts of the world have issues with pollution. My suggestions to solve the problems are simple. Governments should encourage its **citizens** to recycle reusable items and governments should regulate the amount of harmful substances that are used in factories, which cause most of the pollution.

crucial

 *Example:* Governments should play a major and **crucial** role in protecting our natural environment. It is their job to manage natural resources and to reduce deadly pollutants that are released into the air as a result of human processes. I think that without the government's involvement, pollution will continue to increase and as a result, so will pollution related illnesses.

monitor

 *Example:* The best way for an individual to help solve the pollution problem is to aggressively campaign to their government. It's my belief that with enough people spreading the word and demanding stricter **monitoring** of pollutants, we can have a meaningful impact on the world. The individual should also lead by example and reduce any harmful habits they may have.

2. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please answer the questions below with what you have learned to develop your IELTS answers. (5 mins)

Please give two supporting ideas at least for each question.

What suggestions would you make to solve the pollution problem?

What role do you think the government should play?

What can individuals do to help?
