Unit 8 Technology and invention

Topic 1—Lesson 2(下篇)

A piece of electronic equipment that you find useful

Read the task card for 10 seconds and get a general idea of this topic.

Describe a piece of electronic equipment that you find useful.

You should say:

what it is

how you learned to use it

how long you have had it

and explain why you find this piece of electronic equipment useful.

In the real examination, the examiner will ask you to prepare for 1 minute.

3.2 Here is another model for the IELTS Speaking Part 2. We will focus on the sentences highlighted below. (4 mins)

Model 2

What it is: I'd have to say it is my computer. I use it for work and a lot of other things too, so I'd be really lost without it.

How long you have had it: I have had one for about five years. I've had different makes and models, but I have to say that I'm using it more than ever before.

How you learned to use it: Actually I'm not a tech geek, and don't even like to figure how to use new technology. However, if I do need to figure out how to do something, the first thing I normally do is to surf the Internet.

Why you find it useful: Like I said, I use my computer for work every day, so that's a lot of hours I spend using it, and then I also use it for many other things: emails, surfing the internet for information, banking transactions, and many other things. Sometimes I can not imagine what life would be like if I don't have a computer.

You are required to talk for the full 2 minutes.

4. Imagine you are a candidate in the IELTS test. The teacher is an examiner. Please describe the topic below with what you have learned to make your description better. (5 mins)
