Unit 9 Event

Topic 6—Lesson 2(下篇)

Something you did that was new or exciting

IELTS Speaking Part 2 (10 minutes)

You will be given one minute to prepare to talk about the topic on the task card. You will have to talk for 1-2 minutes, and then the teacher will give you feedback for 2-3mins. (5 minutes)

Describe something you did that was new or exciting.

You should say:

what you did

where and when you did this

who you had the activity with

and **explain why** this activity was new and exciting for you.

Tips: During the first stage of Part 2, you don't need to talk. Keep the questions in mind and think them over.

2.3 Here is another model for the IELTS Speaking Part 2. We will focus on the words and expressions highlighted and in red below. (5 minutes)

Model 2

What you did: An activity I recently took part in and I absolutely loved was riding **jet skis**. It is amazing to ride something so fast across the surface of water. It creates a feeling of intense freedom, especially since I rode them on **a huge expanse of** water. What also added to the pleasure of this experience was racing them with a group of really cool people that were also vacationing.

Where and when you did this: Last year I took a vacation to Sanya. This is where I first tried this activity.

Who you did it with and why this activity was new and exciting: I went on this trip down south with my best friend. What made riding jet skis full of joy was riding them with him. We rode all day and some of the night. We even took part in an organised racing competition between other vacationers that were renting jet skis! If you have never ridden in a boat on **a body of water**, you are missing out! It's very exciting to create waves that splash all around your wake and the best part is that if you crash you are less likely to be seriously injured, since you are surrounded by water! What also makes this activity attractive is the fact that it is relatively affordable, because compared with many other activities, this does not cost an arm and a leg!

IV. IELTS Speaking Part 3 (10 mins)

1. Please answer the following question from Part 3. According to your answer, the teacher will give you feedback on how to improve your organisational skills. (5 minutes)

How to organise your answer in Part 3:

T: Topic Sentence + S: Supporting Details (Explanation/Examples)

Why do you think people like doing new things?

T: I suppose many people like doing new things due to the **triumph** and memories they have afterwards.

S1: Doing new things really opens people to new experiences, which in turn allow them to have new feelings, especially ones related to accomplishments. For example, an inventor may be filled with pride when he knows his new invention has benefited others.

S2: In my opinion, life is mostly made up of moments, and the moments we remember best are the ones with the deepest feelings attached. Actually, many golden memories just originate in the attempts to do new things, and people love such memories, thus willing to do something new.

2. You will learn some key words and expressions from these questions. Pay attention to the structure of the underlined sentences, and the words in red. (5 minutes)

Key Words and Models

What problems can people have when they try new activities for the first time?

Tragically, when people try activities for the first time, there are usually more problems than solutions. One major problem is lack of experience, which can cause **bouts of nervousness** that end up making the overall experience a negative one. Another issue that occurs when trying something new is the potential for confusion, so if you misunderstand directions related to the new thing, you might end up feeling inferior to those around you, which means you might never do that specific thing again.

What kinds of things do children learn when they are very young? How important are these things?

When children are very young, they learn how to play well with others. Learning to play at a young age is the way children learn valuable life skills that will be applied later on in their future. For example, they learn to share and how to communicate with their peers. Any child that is not allowed to play with others will be **missing out on** the most important aspects of socialisation, which could cause major issues as they mature.

V. Summary (5 minutes)

Key Words & Expressions

jet skis

a huge expanse of

a body of water

triumph

bouts of nervousness

miss out on

Key Sentences

An activity I recently took part in and I absolutely loved was riding **jet skis**.

It creates a feeling of intense freedom, especially since I rode them on **a huge expanse of** water.

If you have never ridden in a boat on **a body of water**, you are missing out!

I suppose many people like doing new things due to the **triumph** and memories they have afterwards.

One major problem is lack of experience, which can cause **bouts of nervousness** that end up making the overall experience a negative one.

Any child that is not allowed to play with others will be **missing out on** the most important aspects of socialization.

The next lesson will be **Unit 10 Topic 1 An impressive advertisement.**
